COMPLAINANT/VICTIM (LIST FIRST VICTIM IF MORE THAN ONE)					

2115 Hours, 03-18-2018 (Sunday): Deputy D. Brown #1220 and I, Deputy B. Gomez #151 (Unit STAR) was on-duty and assigned to the Sacramento County Sheriff's Department Air Operations Unit. Deputy Brown was the Helicopter Pilot and I was the Tactical Flight Officer (Observer). I heard the Sacramento Police Department dispatcher voice a call at the location of [redacted] 29th Street located within the City of Sacramento. The dispatcher advised that a victim had chased a suspect that broke the windows on a vehicle located on 29th Street and the victim last saw the suspect go into the backyard of [redacted] 29th Street.

Approximately 2119 Hours, We arrived above the scene and I began using the infrared camera to search for the suspect. I saw what appeared to be the victim in the street and on a phone. I began searching the yard of [redacted] 29th Street and saw two dogs in the backyard along with a shed. I advised the responding officers that I could not see any heat sources, other than the dogs, in the backyard but I also could not clear the shed. I continued searching the area with the infrared camera while the ground units cleared the backyard of [redacted] 29th Street. It should be noted that [redacted] is located on the west side of 29th Street. [redacted] 29th Street and the residences along the west side of the street back up to a large field. I searched the field to the west and saw a vehicle parked on the northwest side of the field. The vehicle was emitting a heat source and appeared to be occupied. I advised the ground units of this vehicle in case it was related to this incident. It was later believed this vehicle was unrelated to this incident.

I continued my infrared camera search and located a subject standing at what appeared to be a glass door or window in the backyard of [redacted] 29th Street. This residence was the second house south of where the original responding officers were searching the backyard of [redacted] 29th Street. I activated our onboard video recorder and continued my observations.

I saw the subject looking into the door/window and the saw the subject pick up an object from directly north of the door/window. I saw the subject then swing the item at the door/window and believed he broke the glass. I voiced my observations to the officers. I saw the subject run southbound and jump the fence into the next yard which was identified on my camera as [redacted] 29th Street. I advised the subject was running toward the front yard but further review was that he was walking and then looking into another vehicle. This vehicle was parked along the north side of the residence of [redacted] 29th Street but in the backyard section.

As I was advising the updates to the officers, I saw an officer on foot in the front driveway and appeared to have the subject at gunpoint. As we were on the backside of our orbit, I only saw the subject run westbound back into the backyard of [redacted] 29th Street and then turn southbound once the subject made it around the northwest corner of the house. As we continued orbit I saw the offers round the corner then appeared to retreat for cover. I saw heat flashes consistent with gunfire and advised over the radio that shots were fired. I then saw the subject on the ground and the officers hold for cover.

I requested additional units, medical aid, a supervisor, and then directed incoming units to assignments for the assistance with the perimeter and crime scene. I saw several neighbors exiting their residences. Deputy Brown gave public address announcements "PA's" for residents to go back into their homes and lock their doors and windows.

I directed units to check the direction of the surrounding area of where I believed the shots were directed. I also requested a unit to contact the original reporting person/victim for this incident.

After the perimeter and crime scene were established, in addition to the video footage, I began taking still photos of our observations both in infrared as well as color camera. I recorded both views to show the different visual perspectives as well as lighting. It should be noted that during entire incident leading up to the shots fired and suspect contact the helicopter spot light was not placed on immediate area due to the continued flight of the subject and for tactical/safety advantage for the ground officers.

Deputy Brown and I cleared this call and uploaded the video and photos to the Sheriff's Department server for evidence purposes once we landed. Deputy Brown also made a DVD containing the video and still photographs which were provided to the Sacramento Police Department for their evidence.

I cleared this call without further incident.

*Times are approximate and based on video camera footage as well as SPD Dispatch logs.

OBSERVATIONS: DET. BUTLER #0841 (IV82)

NOTIFICATION:

On Sunday, 3/18/18, at approximately 2245 hours, I was notified of a homicide team call-out for an officer-involved-shooting near the intersection of Elwood and 29th St in the south area of the City of Sacramento. I responded to the scene from home and arrived at approximately 2352 hours.

ARRIVAL:

Upon arrival I observed a large crime scene marked by yellow and black police crime scene tape along. The scene extended along 29th Street between Meadowview Road to the south and Twilight Drive to the north. I observed Elwood Ave to also be secured to the east of the crime scene past 32nd Street. The perimeter of the crime scene was secured by uniformed police officers in marked black and white patrol vehicles. I exited my work vehicle and proceeded to the briefing location. Upon arrival at the briefing location, I observed the homicide team to consist of Lt. McCloskey, Sgt. Shiraishi, Sgt. Werner, Sgt. Start, Det. Griggs, Det. Hunkapiller, Det. Cruz, Det. Ayers, Det. Krutz, Det. Coughran, Det. Trimpey and me. I also noted Chief Hahn, Deputy Chief Bray, Deputy Chief Peletta, Deputy Chief Bernard, Captain Eklund, Captain Buckley and representatives from Internal Affairs, PSU, Office of Public Safety Accountability and the District Attorney's Office to be present. (I was notified Homicide Sgt. Kinney had left the scene prior to my arrival to download pertinent body worn camera video)

BRIEFING:

At approximately 2351 hours, Lt. Hanson briefed the assembled homicide team of all information known to him at the time. Lt. Hanson advised officers responded to a vehicle burglary in progress. Upon arrival, officers were directed to the location of the suspect by Sheriff Helicopter Star 6 who was on scene. Upon encountering the suspect in the backyard of [redacted] 29th Street, Officers discharged their firearms in fear for their lives. Two officers fired at the suspect hitting him multiple times. The Sacramento Fire Department was called immediately and upon arrival pronounced the suspect deceased. At the time of the briefing, the identity of the suspect was not known to Lt. Hanson.

WALK-THRU:

I did not participate in a crime scene walk-thru with Lt. Hanson, nor did I observe any of the public safety walk-thru's conducted with the victim officers.

CANVASS:

At the conclusion of the briefing, Detective Trimpey and I were requested to conduct a canvass of 29th Street to the north of [redacted] 29th Street for additional signs of vehicle or residential burglaries as well as evidence of surveillance cameras. Detective Trimpey and I conducted the following canvass:

[redacted] 29th Street has a visible camera mounted above the garage door which faces out toward 29th Street. The perimeter of the residence is surrounded by wrought iron fencing. Detective Trimpey and I contacted the resident, [redacted] ([redacted]), and advised her of the nature of our investigation. I advised [redacted] we were investigating a shooting which occurred down the street and would like to review her camera to determine if the perpetrator passed by her house on the way to the shooting scene. (The residence is [redacted] houses north of Elwood Ave on the east side of 29th Street) [redacted] consented for detectives to enter her house and review any and all footage on her system. Upon attempting to review footage, Detective Trimpey and I were unable to get the system to play back any footage from the night before. I advised Sgt. Shiraishi of the existence of video and requested a forensic specialist to respond to capture the video. I observed the video player to be Lorex and observed what appeared to be videos going back to March 1st.

[redacted] 29th Street: I observed multiple boards on the south fence line of the residence with what appeared to be fresh breaks. I observed the gate was locked and no apparent forced entry on the doors or windows behind the fence. I knocked at the front door and rang the door bell but received no answer. I advised Sgt. Shiraishi of the damaged fence.

[redacted] 29th Street: I observed a gray Dodge Charger (CA license plate [redacted]) parked in front with the passenger window rolled down. I did not observe any glass on the ground around the window which would lead a person to conclude the window was broken. I observed a security camera mounted above the garage facing 29th Street. I attempted to make contact with negative results.

Det. Trimpey and I continued our canvass down to Loma Verde with no additional findings.

As we was walking back towards the scene Det. Trimpey located [redacted] standing in front of [redacted] 29th Street and he asked what was going on. [redacted] stated he lived at [redacted] 29th Street, but the cameras were a decoy and only mounted for deterrence. [redacted] provided a statement (see attached) about driving home and seeing a person halfway out of a black explorer on 29th Street with glass on the ground. [redacted] stated he thought the person was breaking in to the car, but he did not stop to investigate or call the police. During my interview with [redacted] a male described as his brother (identified as [redacted] [redacted] was present. [redacted] identified the gray Dodge Charger as his and I advised him the passenger window was down. [redacted] stated he arrived after all the police tape was up and must have forgotten to roll up his window.

Author: **911 - SHIM, EUGENE 0289**
Subject: **DET. SHIM #0289**
Related date/time: **Aug-01-2018 (Wed.) 1117**

I, Det. Shim (#0289), am assigned to the Sacramento Police Department Digital Forensics Unit. Members of the Digital Forensics Unit (DFU) are responsible for the examination of cell phones, computers, and other electronic media capable of storing data.

03/27/18, approx. 1000 hrs: Det. Griggs brought the following item into the Digital Forensics Unit lab for examination:

Lab #: 18-82449-cp-1
PR # and Item Description: 988981-26 Apple iPhone 6S Plus (A1634)
Serial Number: [redacted]
iOS version: 11.2.6

Approx. 1123 hrs: I started the examination of the Apple iPhone with assigned lab # 18-82449-cp-1. The phone was PIN locked (6 digit PIN). Rather than risking a possible device wipe due to unsuccessful PIN entries, I returned the phone to Det. Griggs at 1625 hrs. Det. Griggs later advised that this phone would be sent to Cellebrite CAIS for PIN determination.

07/10/18, 1311 hrs: Det. Griggs brought the phone back to the SPD Digital Forensics Unit lab. The phone was in a shipping box with an encrypted hard drive provided by Cellebrite CAIS. It was decided that the California State Department of Justice agents would examine the phone. Brian Cardwell from CA DOJ arrived at the SPD DFU lab.

I made two forensic copies of the contents of the encrypted hard drive (after entering the decryption PIN) provided by Cellebrite (at 1413 hrs and 1430 hrs) using Forensic Copy ver. 1.0. One of these forensic copies was provided to Brian Cardwell. I compared the MD5 hash values of the original download file with the one I provided to Brian Cardwell at 1455 hrs. Both MD5 hash values matched.

The download file provided by Cellebrite could be used to generate a Cellebrite report via Physical Analyzer software. CA DOJ was tasked with conducting the full cell phone examination and generating the report.

07/13/18, approx. 1505 hrs: I booked the phone, encrypted hard drive, and shipping box/shipping box contents into evidence at HOJ.

CELL PHONE SUMMARY

On 7-10-18 Detective SGT Kinney received Stephon Clark's cell phone, and an encrypted download from Cellebrite. I delivered the phone to SPD Digital Forensic Unit (DFU) Detective Shim for examination. DOJ Special Agent Supervisor (SAS) Mike Sparks and Special Agent (SA) Brian Cardwell responded to the SPD DFU to conduct an independent examination of the phone. SAS Sparks and SA Cardwell conducted an additional download of the phone itself, while Detective Shim used the download provided by Cellebrite to generate the content report from the phone. The redundant examination of the phone was done to ensure accuracy.

On 7-11-18 at about 1400 HRS I began examining the download from Stephon Clark's cell phone. The phone report shows normal use from December of 2017 through March 20, 2018. There are a few images and videos from 2012, 2013, and 2016, however the lack of any call logs, messages, or internet usage may suggest that these items were saved to the phone from another device, or "backup". The phone appears to have been used with WIFI internet access until 1-26-18, when over 900 contacts were added (at the same time-most likely downloaded as a backup from another device or "cloud"). The call log and text activity begin on 1-27-18.

The information in the phone between 1-27-18 and 3-16-18 appears to be normal phone and internet use including [redacted], shopping, video games, social media (etc). On 3-14-18 Clark made an internet search, "[redacted]".

The information below was screen captured and represents a chronological summary of the relevant information on Clark's phone from 3-16-18 leading up to the shooting on 3-18-18. The summary below DOES NOT include all calls and messages and logs (etc). For the exact details please refer to the PDF Cellebrite report.

3-16-18.

2352 HRS. 18-80545. The domestic violence call for service from [redacted] was received by the communications center. The caller reported [redacted] said the incident was 15 minutes prior.

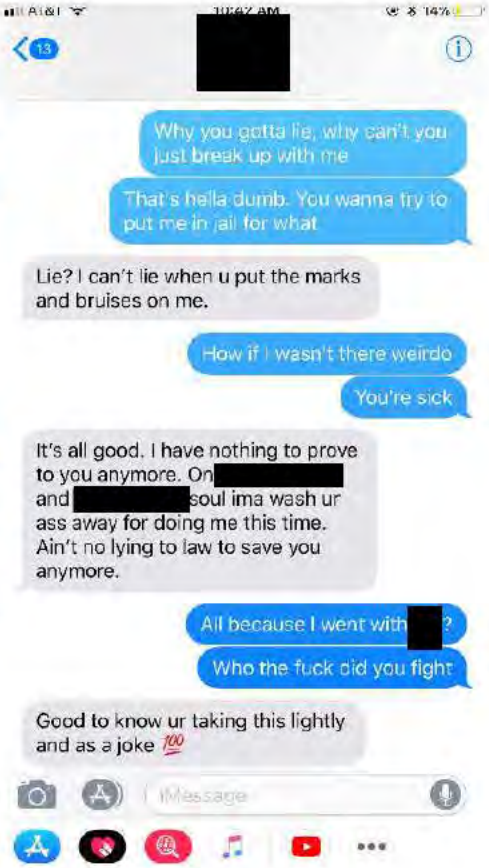

Between 3-16-18 at 2352 HRS and 1223 HRS on 3-17-18, Clark placed **76** outgoing calls to [redacted]. On some of those calls Clark blocked his caller ID, by dialing "*67" and then the number. It appears that none of the calls were connected for more than a few seconds.

Within Clark's phone were several images that appear to be "screen captures" of a text message conversation between Clark and [redacted]. The texts do not appear in the logical cellphone report (like most of the data below). The screen captures appear as follows:

At 1455 HRS Clark entered the following "note" into his phone:

My name is Stephon Clark. This email is regarding an incident that happened on this night of March 16th, 2018. I'm not one hundred percent sure there was a report made but that is what [redacted] has told me and I'm really innocent and I want to defend myself without incarceration. I say this because [redacted] and I have had a domestic dispute before that resulted in a misdemeanor corporal injury [redacted] and we have a "Peace Order" for that case. From my understanding, of she so much as calls from a verbal argument, I can be violated and in this case she admits to harming herself in the attachments which are text messages from her today, March 17th, 2018. She has told me that she told the police that I harmed her and I wasn't even present. I also have a group of friend that can verify my whereabouts.

The dispute started because she didn't want to go out with me and my friends because my friend was bringing a couple of girls and [redacted] had a problem with that so she said she didn't want to go anymore. I went out with my friends anyways and left while she was at home. She was upset that I was getting dressed and told me, "I'm going to wash your ass this time". I ignored it and left anyways. She called me and said I wasn't allowed back home and she was calling the cops so I stayed the night out. The next morning, I get all of these texts from her telling me that she called the cops and made a police report and all of this.

Once again, I'm not sure if she really made this fake report but She's done this before so I'm pretty scared I'm going to be put in jail.

[redacted] told me she made a police report against me claiming I hit her and stole from her, this is not the first time she's called the police on me and lied on me about multiple things. [redacted] has even been there on a couple offs incidents when she called the police on me lying all because I made a video of her and [redacted] told the cops the truth and they let me go minutes later. Im not sure if there was a report filed but that is what she's telling me so here is some proof of my innocence . I'm sure you guys have proof that this is her cell number in the messages in my attachments. Thank you so much.

Feel free to contact me in regards to this matter.

Incident Summary

SPD Officer Involved Shooting
[redacted] 29th Street
3-18-18

Please direct any inquiries to Detective J. Griggs at 916-808-0688 or JGRIGGS@SACPD.ORG

The following is a summary of the Officer involved shooting that occurred on 3-18-18 at [redacted] 29th Street in Sacramento. The property tag numbers noted correspond with the attached digital evidence inventory.

On 3-18-2018, at 2110 HRS [redacted] called 911 and reported a male subject had broken the windows on two of his vehicles and was hiding in a backyard at [redacted] 29th Street in Sacramento. [redacted] described the subject as a male in a black hooded sweatshirt, wearing pants with a white stripe or dot design. [redacted] reported he could hear the subject jiggling a fence and dogs were barking. The residence where [redacted] last saw Clark is three houses north of where the shooting took place. A transcript of the 911 call is included within the report. The 911 call audio recording is booked under PR #989927-018.

At 2112 HRS the patrol call for service was broadcast over SPD radio to district patrol units. The information relayed over the radio included details of the 921 (Car Clout) at [redacted] 29th Street, a male subject who had broken some car windows and was hiding in the backyard at that address. The dispatcher indicated the complainant still had a visual of the suspect and the call was pending in district 5A.

At 2113 HRS the Sacramento County Sheriff's (SSD) helicopter, STAR, advised on the police radio they would assist, and they were on route to the area of [redacted] 29th Street.

At 2117 HRS Officer Robinet (1C54) and Officer Mercadal (1C57) were dispatched to the call for service.

STAR arrived overhead the scene at 2118 HRS, just ahead of Officer Robinet and Officer Mercadal, who also arrived at 2118 HRS. The observer inside STAR was Deputy Gomez.

Both Officer Robinet and Officer Mercadal were wearing department issued body cameras. Both body-worn cameras (BWC) were manually activated at 2118 HRS, as the pair contacted [redacted] The BWC videos are booked under PR# 989927-019.

The body worn camera videos show Officer Mercadal and Officer Robinet contacting [redacted] who directed them to [redacted] 29th Street where the suspect was last seen. Officer Robinet conversed over the police radio with STAR, coordinating the area check for the suspect. Officer Robinet and Mercadal made contact with the resident at [redacted] 29th Street and checked their backyard for the suspect. They did not locate anyone. While in the backyard at [redacted] 29th Street Officer Robinet's "Tac" light (the flash light attached to his handgun) stopped functioning. He switched to a handheld flashlight.

At 2125 HRS, after orbiting for approximately 7 minutes, Deputy Gomez broadcasted over the radio (from STAR) that there was a subject in a backyard two houses south of Officer Robinet and Officer Mercadal's location. Deputy Gomez broadcasted that the subject was picking up a

tool bar and trying to break the window at that residence. Deputy Gomez activated the helicopter's video recording equipment when he observed Clark attempting to break the window. Deputy Gomez then broadcasted that the suspect had broken the window (at [redacted] 29th Street) and was running south. Recorded video from SSD STAR shows Clark moving south and jumping over a fence from [redacted] 29th Street into the rear yard at [redacted] 29th Street. The video from STAR is booked under PR #989927-020.

Officer Robinet and Officer Mercadal, who were still near the front yard of [redacted] 29th Street, began running south along 29th Street, towards the residence that Deputy Gomez was describing.

Officer Robinet ran to an area on 29th Street two houses south of [redacted], while Officer Mercadal ran to the area just south of [redacted] 29th Street.

As Deputy Gomez described where Clark was, Officer Mercadal spotted him on the north side of [redacted] 29th Street. Officer Mercadal told Officer Robinet, "Over here Jared". Officer Mercadal then yelled commands to Clark to, "Show me your hands!" and "Stop!" Clark fled westbound into the backyard of [redacted] 29th Street and then around the house to the south, out of the Officers' view.

The video from STAR shows Clark running west into the backyard of [redacted] 29th Street. Clark traveled out of view from the helicopter, beneath an exterior patio cover. The video shows the officers arriving to the northwest corner of the house, briefly entering the backyard, then retreating a few feet behind the north side of the house (looking south). Because of the helicopter's continuous circular orbit, Clark was next seen on the helicopter video as he was moving northbound along the west side of the residence, towards the officers' position. At that time, gunshots from both officers' handguns are visible.

As Officer Mercadal began to turn the corner into the backyard, prior to retreating, his body camera shows Clark in a standing position toward the south end of the backyard in an area beneath the exterior overhang. It appears Clark is facing north, towards Officer Mercadal. Officer Mercadal is heard yelling, "Show me your hands!" and "Gun!" Clark can be heard responding, "Fuck you." Officer Mercadal retreated towards the corner of the residence and is heard again saying, "Show me your hands!" and "Gun, gun, gun!" Clark's distinctive pants (black with white stripes) are briefly visible as he moved toward the officers, along the west side of the residence. Shots were then fired from both officers.

Officer Robinet's body worn camera captured nearly the same audio and video, but from a slightly different perspective then Officer Mercadal's camera. A frame-by-frame analysis of Officer Robinet's video shows a flash of light coming from near the area Clark was standing. The flash of light only lasts a moment (we do not have the ability to test its actual duration, only to observe the flash lasted for one frame of the video). The flash of light occurs shortly before the gunshots.

Clark fell in an area of the backyard just north of a picnic table on a concrete patio, south of the lawn area. Officer Robinet and Officer Mercadal held their position at the northwest corner of the residence until additional officers arrived. Once more officers arrived they formed a contact team to safely approach Clark and provide medical aid until Sacramento Fire Engine 16 and Medic 57 arrived. Clark was pronounced deceased on scene.

The amount of time that elapsed between when Deputy Gomez first broadcasted that the subject was in a backyard and the "shots fired" broadcast was about 1 minute and 29 seconds.

The amount of time that elapsed between when Officer Mercadal first spotted Clark and said, "over here Jared" to the time of shots fired was about 30 seconds.

The amount of time that elapsed between when Officer Mercadal made it past the northwest corner of the residence to the time when the first shot was fired was about 6 seconds.

SCENE

The scene at [redacted] 29th Street and the surrounding houses was secured as responding Officers arrived.

No firearm was located on the scene during the subsequent investigation. An Apple iPhone was located on the ground near where Clark fell.

The scene was photographed, videotaped, measured, and diagramed by SPD CSI and personnel from the Sacramento County Crime Lab (SCCL). In addition, several 3-D scans were completed of the rear yard area of [redacted] 29th Street. The 3-D Scans are available in the SCCL report as well as under PR# 989927-021. A residential surveillance video system was located at [redacted] 29th St.

The image below shows an overview of the relevant scene locations from this incident:

The next two images show the approximate distance between the corner of the house and the concrete patio (16'), and the distance between the edge of the patio and the sliding glass door (15'). The width of the entire house was measured at about 47':

SURVIELLENCE VIDEO AND NEIGHBORHOOD CANVASS

Surveillance video was collected from [redacted] 29th Street and is booked as PR #989265-001. The camera is affixed to the residence and is pointed (generally) in a southwest direction. The recorded video shows 29th Street and the front yard area of [redacted] 29th Street in the distance. Recorded video from this system shows Clark entering the front yard at [redacted] 29th Street and approaching the backyard fence on the north side of the residence at 2104 HRS. Clark appears to go over the fence on the north side of [redacted] 29th Street (the image is poor quality). The image is not close enough or clear enough to identify anyone or to identify clothing. Clark is last seen on the video at about 2107 HRS. The below image is a screen capture of the video for reference:

Recorded video was obtained from traffic cameras at Meadowview and Detroit, Meadowview and 24th Street, and a Police Observation Device (POD) at Meadowview and Detroit. None of the video obtained from these locations showed any relevant evidence.

An extensive canvass of the area was completed on 3-18-18 and 3-19-19, as well as in the coming weeks and months to follow. No relevant witnesses were contacted.

The following is a portion of [redacted]s interview:

Earlier this evening, I was sitting in my trailer watching TV when I heard a bang. The noise sounded like it was far away, so I didn't really pay that much attention to it. Plus, I have a monitor on the trailer that looks out westbound on 29th Street. I have the camera to watch my truck (referring to the white Ford Explorer that had the driver's side window broken out parked on the east side of 29th Street) because I have all my tools inside of it. The camera doesn't record. I wish that it did, but I just have a live feed on it.

Like I said, I didn't see anything on the monitor and just continued to watch TV. About a minute or so later, I heard another bang which sounded really close to my trailer. I looked at my monitor and I saw someone standing by my vehicle. I opened my trailer door and exited just outside my trailer and saw a guy just standing there on the driver's side of my vehicle just staring at me. I told [redacted] to hand me my gun. I really didn't have a gun, but I said it loud enough so that the guy could hear me and would hopefully scare the guy off. He didn't move. He just stood there looking at me.

I went back into my trailer and grabbed my baseball bat and walked out toward my truck telling the guy to get away from my car. The guy then ran off across the street (referring to the west side of 29th Street) and headed north. I think he ran and hid behind the garage over at [redacted] 29th Street (pointed out [redacted] 29th Street on a Google overview map that was shown to him.) I followed him and got to the house he was at and he took off and jumped the fence of that same house. I walked across the street and called 911.

I stood there and saw the helicopter fly over and then a couple of police cars came from Meadowview Road. I flagged down the officers and directed them to the backyard of the house the guy jumped the fence into (referring to [redacted] 29th Street). After the cops went towards the backyard, I walked back to my trailer.

I was back inside my trailer and saw on my monitor the two (2) officers running back southbound and must have went into another backyard, because I went outside of my trailer just after that and didn't see the officers anymore. I then heard some yelling from what I believe was from the officers, but I couldn't make out what they were saying. I did hear one officer say, "Police! Stop!" just before I heard the gunshots.
If I had to describe the guy that I saw standing by my vehicle, I would say that he might be a black guy? I couldn't really see his face. I saw that the guy was wearing a black hoodie that was up on his head, possibly had red writing on the back of the hooded sweatshirt and he was wearing black pants that had white on it. I didn't see anything in his hands when he was

standing there by my vehicle or when he took off across the street. I don't know what if anything he used to smash out my car window.

The residence directly north of the OIS scene is where Clark was observed breaking the rear sliding glass door. That location is [redacted] 29th St. The resident, 89-year-old [redacted] was interviewed by Detective Krutz on 3-19-18. He stated he was watching television when someone broke his sliding glass door. He did not see or hear anything further (including gunshots).

[redacted] was interviewed on 8-17-18 and stated she was the owner of the Toyota Camry parked on scene. She was a student at [redacted] and students were required to return to campus prior to 2100 HRS on Sundays. She had parked her vehicle on 29th Street because students are not allowed to park on campus. [redacted] stated when she parked her Camry it was locked and secure with no broken windows, and no one had permission to use it. [redacted] did not know Stephon Clark or anyone who else who lives nearby.

(A vehicle that appears to be [redacted]'s Camry is seen traveling southbound on 29th Street at 2051 HRS on 3-18-18, captured by the surveillance camera at [redacted] 29th St).

[redacted] and [redacted] 29th Street.

[redacted] 29th Street is the residence where [redacted] last saw Stephon Clark. This is also the residence that Officer Mercadal and Officer Robinet initially made contact and checked the rear yard. None of the residents saw or heard anything prior to SPD arrival on scene.

[redacted] was interviewed on 8-21-18 as a result of the information gathered from Clark's cell phone. [redacted] stated that she was [redacted] of Clark but hadn't heard from him since April of 2017. She stated that Clark had contacted her by phone the same day he was shot. (Phone records show the first contact at 1607 HRS on 3-18-18)

[redacted] said that Clark contacted her to catch up [redacted] said that Clark told her he was at his grandmother's house with his family. [redacted] said, "The conversation ended on my end, I said I don't want anything to do with him. He still proceeded to continue to try and call and text but the last thing I said to him was I don't want nothing to do with you".

OFFICER STATEMENTS

Officer Mercadal was interviewed on 3-19-18 by Detective Cruz. The interview was video recorded and booked into evidence under PR # 990469-001. Prior to the interview Officer Mercadal was allowed to view his body worn camera footage as well as the footage from Officer Robinet's body worn camera. A transcript of the interview is included within the report. The excerpt below does not show the interviewing detective's questions except where relevant.

Officer Mercadal estimated he had about 2 years of service with SPD at the time of this incident. Prior to that he served about 4 years with the Olive Branch Police Department in Mississippi. His experience in the Olive Branch Police Department included working as a patrol officer, a detective, and SWAT officer.

The following is a portion of Officer Mercadal's statement:

"As we were leaving we both began to approach our cars to go check on the suspicious vehicle. STAR had broadcasted that he sees a subject - he - he saw a subject in a backyard of a residence approximately two houses south of us. So Jared (Ofc. Robinet) and I both came out - out in the street and we're trying to take a look and see what - exactly what area he was referring to. I remember we both were slowly kind of walking and approaching trying to determine, you know, what house he was talkin' about, see if we saw anybody on the street, really just trying to get our bearings and STAR broadcasted that the suspect or subject was - he gave us an address - was in the backyard of [redacted] He said he saw the subject, looks like he was attempting to break into another car. He couldn't see what the subject was using to break into the car. He couldn't see what was in his hands. And he was giving us - kind of directing us exactly where to go.

We began making an approach. STAR advised the subject was running south and sounded like he was jumping fences. He said, "He looks like he's running south jumping fences." So Robinet and I began running south on 29th Street attempting to parallel him and potentially cut him off. And STAR began to give a description of the house that the subject was at. He said [redacted]n the backyard and then he began describing that there was a series or a set of cars that was along the north side of the residence that it looked like the subject was breaking into. I believe it might've been right here (pointing to [redacted]29th St on map). I - yeah, so I approached the north end of this house - this residence and then kind of looking down this driveway on the north end of the residence is - it's very dark back there. There's a couple of vehicles kind blocking my view. There was a dark colored SUV or Suburban that was all the way to the west of, like, the furthest one on the side of the house. And I saw a male black adult with a black hoodie sweatshirt pulled up over his head standing behind that vehicle. I gave him loud verbal commands to let me see his hands because I could not see where his hands were. After saying that he turned around and began running westbound and then turned south into the backyard out of my line of sight.

I - as we were - Officer Robinet that I had - I spotted the subject back there and I began to chase after him. I think I attempted to broadcast that he was running south. I don't know if it went out or not but I attempted to say it. There was kind of a narrow - narrow path between the northern

side of the house and the vehicles that were parked there so I remember going in between the vehicles and the narrow edge of the house then there was a small wooden fence about hip height that had an opening kind of north of the residence. So I went around the car, went around the fence and then started kind of goin' around the back yard. I - I had lost sight of the subject so I kind of attempted to slow down and I tried to pie around the corner or slowly tactically go around the corner. When I come around the corner - the corner of the house - I - I left cover and I look and I see that same subject with his hoodie and sweatshirt pulled up and his arms pointed out extended like this.

(At this point Officer Mercadal, from a seated position, extends both arms in front of him at chest level and appears to take a shooting position).

At which time I looked and based on the light coming off of my - my tactical light it appeared I thought that he had already shot at me because I saw what I believed to be a metallic reflection or muzzle flash - something coming at me. So I - I was scared. I thought that he had shot at me. I think I remember yelling, "Gun," and I ducked back behind the corner of the house for cover. By this time, I realize Officer Robinet was there next to me on my left side and for a second I though my - I had to kind of get my bearings and like, "Did I see what I thought I saw?" And I poked my head back out around the corner way further than I should've put it out there and I see that the subject is advancing towards us.

(At this point Officer Mercadal, from a seated position, extends both arms in front of him at chest level and appears to take a shooting position).

And I see that same bright metallic shining of the light in his hands and I though he had - was approaching and shooting at us. And so, I remember ducking for cover. I - I ducked, grab cover behind a corner of the house and then I remember kneeling down on my left knee and returning fire because I believe we're being fired upon. And I believe I fired - - what - ten times and we saw the subject go down and we began to give him, you know, kind of verbal commands for us to, you know, for him to show us his hands. He wasn't moving anymore but we could only see his right hand. His left hand appeared to be kind of tucked in under his body.

After that we're broadcasting the updates I remember I believe I had broadcasted there were shorts fired and I said the subject was down. We were putting out pertinent information as to where we were, how to access us. I believe STAR was also directing units in the area come - come out. I do remember telling everybody that we're - that no officers were hit, we're okay. Advising the subject was down. We couldn't see his hands. And then I remember additional officers arriving on scene I believe it was Officer Taylor and Officer Trujillo arrived on scene and we kind of set a - stayed behind cover attempting to give the male more verbal commands. Then I believe Sam 5 - which was Sergeant Morris - arrived and the decision was made to make a contact to go apprehend the subject and we all made a tactical approach and I remember, you know, I think Sergeant Morris and I'm not sure who else went hands on. I remember taking out my handcuffs and placing my handcuffs on the subject, bringing him over and the decision was made to start doing CPR - life saving measures.

I believe Officer Taylor began performing CPR. I went to put my gloves on, I went to go get a rescue mask and then I remember that I was - I recall somebody else saying that they were goin' back there to take care of it - to get a rescue mask. I began to assist with CPR. And then walkin outside, I see that the Fire Department and ambulance got there relatively really quick. And then they went to the backyard to start their deal.

DET CRUZ: When you first arrived on scene did you - did you locate any of the - the vehicles that had possibly been vandalized?

OFC MERCADAL: I had. We actually spoke with one of the complainants on 29th Street. I believe he was on the east side of the street. He had contacted us and told us that he had chased the subject away. He had chased him into the backyard. He's pretty sure he was in that - in this back yard that's on the west side (pointing to [redacted] 29th St on the Google map). He pointed to the vehicles that were kind of down near closer towards Ellwood. I did recall seeing two vehicle windows smashed out and glass on the ground. I believe the driver's side windows of both vehicles had their windows smashed and broken out and I could see the glass reflecting off the light in the street and, you know, I remember saying to him like - I kind of had to come back and start taking the relevant information for a report that on.

DET CRUZ: And then I want to go to after STAR had given you and update about the subject t- seeing the subject in a - a backyard just south of you. And you arriving to - to the residence where you saw the suspect. What type of lighting was there in that area?

OFC MERCADAL: Well in that area it was extremely dark. There was street lighting on 29th Street but as you know street lighting it kind of scattered around. So when we approached this residence the residence was dark, didn't appear that anybody was awake at all. There were no lights on at the house, there were no lights on the front porch, no lights in the backyard and it was kind of in a shadowy area where there were no street lights illuminating anything. And it was - it was extremely dark back there. So I remember having to illuminate - I had my - I did have my - my gun out just based on not knowing what's going on, information that I received from STAR that he didn't know what kind of weapon the person had in his hands. And I remember accessing the taclight on my weapon in order to kind of illuminate the area where I'm looking.

DET CRUZ: Did you also use your handheld flashlight?

OFC MERCADAL: While I was walking down the street, yes, I did. I - there was a point in time where I had holstered my gun and I brought my flashlight out. My - I wanted to use my department issued - the Pelican flashlight because it's pretty bright. And I had that in my left hand and I was kind of using that to, shine light around so I could kind of see what was going on, see what, you know, STAR was talkin' about. Apparently STAR had given us information that

the person was running towards the front of the house and I was like, "Well I don't see anybody. I don't know what he's talking about." So...

DET CRUZ: And so I want to go back to when you're standing at the residence where you see the suspect. You had mentioned that you had said something to him, what, what was it that you had men- said to him?

OFC MERCADAL: I had given him verbal commands to show me his hands.

DET CRUZ: Okay. Did you give him any other commands?

OFC MERCADAL: I remember once he began running I remember yelling, "Stop." And then, "Let me see your hands," I believe was another phrase I had used.

DET CRUZ: Did you ever identify yourself as a police officer?

OFC MERCADAL: I don't - I'm not quite sure if I had - if I did.

DET CRUZ: Okay. And then once you were in the backyard can you describe for me the lighting in the backyard?

OFC MERCADAL: There was no lighting in the backyard, no rear porch - no back porch light, no lighting of any kind from the neighboring residences. All I recall is pitch black in the backyard there and the only light that I was able to use was my taclight on my firearm and then also in the background I could see STAR goin' around. It's his overhead light but his light was in a different area. It wasn't in the backyard where we were.

DET CRUZ: And can you - can you demonstrate for me the position that you saw the suspect in one you came around the corner?

OFC MERCADAL: Yeah, okay. So he was - so as I rounded the corner- kind of the direction that you are in. I recall that he was kind of sucked up close to the east side of the building or he was closer to the side if the building. And I think there was some kind of table or bench to the left side like a wooden picnic bench or something. And I remember seeing him standing like this when I first come around the corner he's standing like this.

(At this point Officer Mercadal is standing with both arms extended in front of him at chest level and appears to take a shooting stance)

And that's - at the time I thought I saw a muzzle flash. I was scared - I was like, "Oh my God this is he's shooting at me." The second time I come back around he had advanced and moved up. He wasn't in that same position he was in. Looked like he was moving forward like this.

(Officer Mercadal was standing with both arms extended in front of him at chest level and appears to take a shooting stance)

OFC MERCADAL: So that's when I took cover and returned fire.

DET CRUZ: And so the - the first time you saw him with his arms extended what - what was going on in your mind? What were you thinking?

OFC MERCADAL: I - the first thing I thought I was like, "Wow that was stupid of me to come around the corner that fast," you know and - and I remember thinking, I'm like, "This guy's freaking shooting at," I was like, "Is that a gun? He's shooting at me." And it was kind of surreal. It was almost like slow motion and I was like, "This dude's freaking shooting at me. How am I - he's really shooting at me." And so I remember, you know, "Get out of the way, dummy." That was my first instinct and kind of ducking around and then Jared (Ofc. Robinet) had kind of taken a way better position than me and kind of kept himself on the corner and then he ducked back and I remember him ducking forward again the same time I ducked forward to kind of reaffirm what we saw. And then again that's when I noticed the huge gap that the subject had made. You know, he had moved - I don't know- maybe possibly 10 feet or more up towards us. And I remember ducking back behind cover like, "Oh shoot, you know, he's shooting right now. He's approaching." And I thought he was shooting at us so I don't know. Something kicked in and I just - I knew that Jared (Ofc. Robinet) was standing up at the corner and obviously I wasn't going to stand right next to him so I just kneeled down beside him and kind of came out to the side and returned fire from cover.

DET CRUZ: Are you injured at all?

OFC MERCADAL: I got - I got some cut or scrape on my forearm here. I don't know where it came from. Maybe from running by the fence or something or the wall. I'm not quite sure but, yeah.

DET CRUZ: Okay. And then when you were - were firing what were you aiming at?

OFC MERCADAL: I was aiming at the subject. I remember he was close to the residence. He was just on the east side of the house. And then he started to move out west away from the house towards the fence line. And I remember kind of trailing him as he started to move that direction and then he finally went down.

DET CRUZ: Can you tell me what - what the background looked like?

OFC MERCADAL: The background was - was extremely dark. There was - south of that residence there was a house and you could see obviously the wooden fence behind there and the - the residence there. But the fence line to the west you could see through the gaps in the fence that

it opened up into a - a open field. Other than that the grass was extremely tall. He was under a - an awning like an overhang awning which was directly protruded out from the house probably seven, eight feet or something like that. So he was at - at the awning and I just remember seeing how tall the grass was. The grass - the backyard was really unkempt.

DET CRUZ: And then did you intend to shoot the subject?

OFC MERCADAL: Yes, I did.

DET CRUZ: Okay. And why?

OFC MERCADAL: I was in fear for my life. I thought he was already shooting at me. So I wanted to return fire to stop the threat.

Officer Robinet was interviewed on 3-19-18 by Detective Griggs. The interview was video recorded and booked into evidence under PR # 989927-001. Prior to the interview Officer Robinet was allowed to view his body worn camera footage and the footage from Officer Mercadal's body worn camera. A transcript of the interview is included within the report. The excerpt below does not show the interviewing detective's questions except where relevant.

Officer Robinet estimated he had served a little over 4 years with SPD. Prior to working for SPD, Officer Robinet was a sworn Federal Law Enforcement Officer with the Border Patrol for 5 years.

The following is a portion of Officer Robinet's statement:

I don't recall him (STAR) giving an address at that time, but he said that it looked like the individual was attempting to break into that house. And that he had a crowbar in his hand.

And was trying to break a window. We started - both (Terrence) and I moved down - moved - walked south. And then he updated saying that the individual had broken the glass and was trying to break into the house.

We ran down a couple houses at that time (Star) gave out the address of the [redacted] or something like that. I don't remember exactly. And I got a little confused actually and I went a little bit further south thinking that the numbers were getting higher as the street went north.

But come to find out they were going higher as the numbers went south.

(Mercadal) stayed a little bit north of where I was. (Star) gave the update about the breaking of the glass with the crowbar. And gave the address and then stated that that individual was now running south over the - over the fence into the next yard.

Which would have been the [redacted] address. I later found that out. (Terrence) was close to that one. I was further south. (Star) gave an update saying that an individual was now coming out towards 29th Street.

And somewhere in that time-frame is when I heard (Terrence) yelling at the suspect.

We're both still on 29th Street on the west side par- west side sidewalk so is (Terrence). I'm about a house and a half further south than him. Expecting the individual to maybe come running out that way. Towards me - towards the street or south.

As soon as I heard (Terrence) yelling at the suspect I ran back north towards (Terrence) and followed him into the backyard of [redacted] 29th Street.

As - as we hit the corner - the northwest corner of the - the house in the backyard I observed the suspect standing approximately what I thought was around 15 to 20 feet away.

In the isosceles position (Officer Robinet displayed what he meant with his hands) with his hands punched out in front of him holding an object. I guess I forgot to mention that when clearing the backyard of [redacted] my tack light stopped working. And I was using my flashlight.

So due to the - due to the subject breaking the - breaking the glass thinking maybe he's trying to break into the house what completely unknown what he had in his hands when - when (Terrence) followed him into the backyard. I had not seen the subject up until that point where we hit that corner.

As soon as I turned the corner I saw him punched out like that.

DET GRIGGS: When you say punched out like that can you demonstrate?

OFC ROBINET: Punched out with a is- isosceles hands - both hands on an object like this.

DET GRIGGS: Okay. When you say isosceles where - where do you know that from?

OFC ROBINET: Training. Range training - firearms training. The isosceles stance because it's the triangle - your arms form a triangle - your feet are positioned usually about shoulder length apart.

That's a common firing position for a - I mean we're - we're taught in firearms training. Was taught that in border patrol. Taught that here.

I recognize that as a position somebody shoots from.

At the - I could see that there was something in the suspect's hands. I wasn't able to make it out. I saw something reflection of what I thought was a metal object in his hand from the reflection of our - out lights. Because the backyard was really dark. It was hard to see - make out anything clear. All I saw was a subject in dark clothing standing in that position with his hands punched out with something in his hands. (Mercadal) yelled gun. Out of instinct I ducked behind the corner real quick cover. Came back around and to get an idea what was going on. Saw the suspect still standing in that position. Still punched out at us. I honestly was really surprised that I hadn't heard gunshots yet. And to protect myself and - and (Terrence) I fired what I thought was five rounds on scene. And later thought was maybe more.

In that time (Terrence) started firing as well.

DET GRIGGS: Okay. When did you stop firing?

OFC ROBINET: As the suspect fell to the ground.

DET GRIGGS: Okay. Why?

OFC ROBINET: I didn't feel like there was a threat anymore.

DET GRIGGS: Okay. That registered in your head?

OFC ROBINET: Yeah. The suspect was down and there was no threat anymore.

DET GRIGGS: Okay. When you came around the corner and - and when you say you saw him punched out like that how did you feel? How'd that make you feel?

OFC ROBINET: I was scared - like I say I was scared he was going to shoot us.

I really felt like that was a gun. His position like I said was something I recognized as a firing position from all the training and all the firearms training that I've been through in the last nine years.

DET GRIGGS: And when you said you were surprised you didn't hear gunshots yet what did you mean?

OFC ROBINET: I was surprised that he hadn't started firing at us.

Because he had...as we hit that corner I know (Terrence) was a little bit in front of me and I know he actually came out past the corner.

He completely had the drop on us meaning that he would have started - or could have started shooting and would have easily hit (Terrence).

SSD Deputy Gomez completed his own written supplement. The following is a portion of Deputy Gomez's supplement:

Approximately 2119 Hours, we arrived above the scene and I began using the infrared camera to search for the suspect. I saw what appeared to be the victim in the street and on a phone. I began searching the yard of [redacted]29th Street and saw two dogs in the backyard along with a shed. I advised the responding officers that I could not see any heat sources, other than the dogs, in the backyard but I also could not clear the shed. I continued searching the area with the infrared camera while the ground units cleared the backyard of [redacted]29th Street. It should be noted that [redacted]s located on the west side of 29th Street. [redacted]29th Street and the residences along the west side of the street back up to a large field. I searched the field to the west and saw a vehicle parked on the northwest side of the field. The vehicle was emitting a heat source and appeared to be occupied. I advised the ground units of this vehicle in case it was related to this incident. It was later believed this vehicle was unrelated to this incident.

I continued my infrared camera search and located a subject standing at what appeared to be a glass door or window in the backyard of [redacted]29th Street. This residence was the second house south of where the original responding officers were searching the backyard of [redacted]29th Street. I activated our onboard video recorder and continued my observations.

I saw the subject looking into the door/window and the saw the subject pick up an object from directly north of the door/window. I saw the subject then swing the item at the door/window and believed he broke the glass. I voiced my observations to the officers. I saw the subject run southbound and jump the fence into the next yard which was identified on my camera as [redacted] 29th Street. I advised the subject was running toward the front yard, but further review was that he was walking and then looking into another vehicle. This vehicle was parked along the north side of the residence of [redacted]29th Street but in the backyard section.

As I was advising the updates to the officers, I saw an officer on foot in the front driveway and appeared to have the subject at gunpoint. As we were on the backside of our orbit, I only saw the subject run westbound back into the backyard of [redacted]29th Street and then turn southbound once the subject made it around the northwest corner of the house. As we continued orbit I saw the officers round the corner then appeared to retreat for cover. I saw heat flashes consistent with gunfire and advised over the radio that shots were fired. I then saw the subject on the ground and the officers hold for cover.

EVIDENCE PROCESSING

Personnel from the Sacramento County Crime Lab were tasked with completing several 3D scans of the backyard scene at [redacted]29th St as well as documenting the trajectory of the rounds fired. Several items were collected from the scene in the backyard at [redacted]29th Street and from the three involved vehicles. Some of those items were processed by SPD personnel internally and some were sent to the Sacramento County Crime Laboratory for forensic processing. The following results are available as of this writing:

FINGERPRINTS

The two Ford Explorers and Toyota Camry were processed for latent fingerprints. None of the fingerprints lifted matched Stephon Clark.

DNA EVIDENCE

Clark was included as a contributor to DNA results obtained from blood samples taken from the Toyota Camry.

Clark was included as a contributor to the DNA results obtained from a swab of the steering wheel of [redacted]s purple Ford Explorer.

Clark was included as a contributor to the DNA results obtained from a swab of the interior door panel of [redacted]s white Ford Explorer.

Clark was included as a contributor to the DNA results obtained from the brick located on the passenger side floor board of [redacted]s white Ford Explorer.

GLASS

Glass samples were obtained from each of the three damaged vehicles, as well as the broken sliding glass door at [redacted]s house ([redacted]29th ST).

Two glass fragments collected from the Coroner's body bag were indistinguishable from the glass sample collected from [redacted]s Purple Ford Explorer.

Six of the seven glass fragments recovered from the red brick located on the floor board of the white Ford Explorer were found to be similar to the glass collected from the driver's seat of the same vehicle.

Three glass fragments collected from the cinder block located in the backyard of [redacted]29th Street were indistinguishable from the glass collected from below the broken sliding glass door at [redacted]29th Street.

PAINT TRANSFER

The paint sample collected from the front passenger side door of the Toyota Camry is similar to the paint sample collected from the metal security window grate and to the paint reference samples collected from the exterior window trims from the residence at [redacted]29th Street.

ALCOHOL AND TOXICOLOGY

Stephon Clark's Blood Alcohol Report showed an Ethanol result of .08% from his femoral blood sample taken at autopsy.

The toxicology report from the Sacramento County Crime Lab showed Clark's blood contained the following drugs:

16ng/mL of Delta-9-THC (+-3ng/mL)
2.3 ng/mL of 11-Hydroxy-THC (+-.5ng/mL)
236ng/mL of 11-nor-9-Carboxy-THC (+-54 ng/mL)
60 ng/mL of Benzoylecgonine (Cocaine metabolite) (+-11ng/ mL)
120ng/mL of Codeine (+-16ng/mL)
82ng/mL (+- 16ng/mL) of Alprazolam (Xanax)
5.8ng/mL (+-.5ng/mL) of Etizolam

AUTOPSY

The complete Autopsy reports are included in the digital evidence under PR # 1004681-001.

DOMESTIC VIOLENCE INCIDENT 3-16-18 (2 days prior)

On 3-16-18 at 2352 HRS Stephon Clark was reported to have been involved in a domestic violence incident with [redacted]. The incident occurred at Clark and [redacted] apartment at [redacted] (near [redacted] and [redacted]. The circumstances surrounding that incident (SPD report #18-80545 -PR#989927-013) are as follows:

[redacted]s statement was recorded on Officer Jarrell's body worn camera. The video is booked under PR # 989927-012. She reported that she and Clark were arguing, and Clark began hitting her, four (4) to five (5) times in the face. [redacted]said Clark punched her with a closed fist and slapped her. The two were arguing because Clark wanted to have some girls to their house and [redacted] did not want any girls coming over. Clark then began calling [redacted] a "faggot" and accused her of wanting to cheat. Clark threw [redacted]s head against a wall and choked her with both hands. [redacted] went into a closet, sat down and cried for 10-15 minutes by herself. Clark came into the closet and picked [redacted] up and took her to the bed. Clark was attempting to talk about it and come to a resolution. [redacted] stated, "I couldn't find myself to open my mouth and

talk to him, I didn't know what to say, I was hurt. If I ignore him, I get hit. If I say something wrong, I get hit. So, I just sit there in silence. I'm scared." She stated that Clark then began hitting her again, calling her a faggot, and telling her she makes him so unhappy. She told him he could just leave, and Clark hit her some more. Clark then went to the closet and [redacted] ran out the front door [redacted]. The Police were called by a neighbor.

SPD Officers observed a 3" diameter hole in the wall where [redacted] stated he had hit her head on the wall. Officers documented that [redacted] appeared very traumatized and distraught. She was crying and breathing at a fast rate. The left side of her face was swollen; including under her left eye, her cheekbone, and her lip. Clark was not on scene because he had left prior to police arrival but he was noted as being arrest-able on probable cause for 273.5 PC (domestic violence) from this incident.

During the above incident [redacted] referenced the last time SPD was at [redacted] and "they were hiding and not answering the door". That incident occurred on 3-1-18. [redacted] admitted to lying to the Officers that day because she was scared of Clark. She stated Clark had beaten her up on that occasion as well, resulting in a "welt" on the back of her leg.

Details from the 3-1-18 incident are NOT included in this summary however the documentation and body worn camera footage is included with the digital evidence provided under PR # 989927-014.

CLARK'S PHONE

Clark's Apple I phone was sent to Cellebrite so it could be unlocked and downloaded. The phone and contents were received back from Cellebrite on 7-10-18. The entire phone download report is included with the digital evidence under PR 989927-008, -009.

The phone report contains an ongoing text message argument between Clark and [redacted] beginning directly after the domestic violence incident on 3-16-18. It appears Clark was attempting to reconcile with [redacted] Clark sent, or attempted to send, an email to the Sacramento County DA's Office to profess his innocence regarding a domestic violence incident that had occurred on 3-16-18. His email expressed his desire for an opportunity "to defend himself without incarceration".

On 3-17-18 and 3-18-18 Clark researched suicide on the internet. He asked [redacted] if she wanted him to kill himself. Clark accessed Internet web pages about the lethal combination of Xanax and Alcohol (etc). He inquired with associates about acquiring Xanax or Valium. He was successful in acquiring at least 10 yellow Xanax pills. Clark sent [redacted] a photo of the 10 Xanax pills and threatened to take them all unless they, "fixed their [redacted]". In response, [redacted] sent her final texts to Clark: "Do it idgaf" (Do it, I don't give a fuck) and "I knew u was gone blow my money on drugs anyways."

The entire summary for Clark's phone is attached on the following pages as "Cell Phone Summary."

WITNESS STATEMENT: [redacted]

On 3-18-18, at approximately 0040 hours, Detective Butler and I contacted [redacted] in front of his residence, [redacted] 29th Street. [redacted] related the following in summary:

R: [redacted]
T: Trimpey

R: I live here at [redacted] 29th Street and I came outside because my mom said someone was shining a light inside my brother's car.

T: At this point, I explained I was shining my light because the passenger window was rolled down and it was determined this was an oversight on the part of the R/O [redacted]. Do the cameras on your house work?

R: No, the cameras are a decoy, they aren't hooked up to anything inside the house to record.

T: Were you home earlier tonight?

R: I came home at approximately 9 PM. I turned on 29th Street from Meadowview and I remember seeing a black Explorer with broken glass on the ground like the window had been knocked out. I saw the drivers door was open and a male was in the car. All I could see was the legs of the male sticking out of the front door and the male was wearing black pants. I didn't pay close enough attention to see what the male looked like or what he was doing inside the car. My first thought when I saw the glass on the ground and the guy leaning into the car that the male was breaking into the car, but I continued down 29th Street because I didn't want to get involved.

T: Did you see the persons face that was in the car?

R: No.

T: Could you tell what he was doing inside the car?

R: No.

T: What did the vehicle look like that you thought was being broken into?

R: The car was a dark colored Explorer. I think it was black but I am not sure.

T: Do you remember where the car was parked?

R: The car was on the right side of the roadway (east curbline) as I was driving north. The vehicle was parked just past the first street after I turned onto 29th Street from Meadowview.

T: Is there anything else you remember?

R: My girlfriend was in the car with me and she told me that I should turn around and go back after I said I thought the guy was breaking into the car, but I told her I wasn't getting involved. I don't even think my girlfriend realized what was going on until I said something.

Document: **02 WITNESS STATEMENT**
Author: **31 - AYERS, SHAWN 0763**
Subject: **INTERVIEW: [redacted] (3-19-18)**
Related date/time: **Mar-19-2018 (Mon.) 58**

WITNESS STATEMENT: [redacted]

On 3/19/18 at approximately 0058 hours, I (Detective Ayers #763) contacted [redacted] in interview room #4 at the Sacramento Police Department's Homicide Office located at 5770 Freeport Boulevard. The interview was audio and video recorded and later copied onto a DVD which was booked into evidence. I introduced myself and thanked [redacted] for coming in to provide his statement. [redacted] stated that he didn't have a choice. I advised [redacted] that he was a witness in an event where Sacramento Police officers were involved in a shooting, plus he too was a victim of a crime that was possibly caused by the same individual that the officers ultimately shot. [redacted] stated that he understood and volunteered the following statement in summary:

My name is [redacted] and my birthday is [redacted]. I live with my wife, well soon to be wife, [redacted] in my trailer that is currently parked at [redacted] 29th Street. I've been staying there now for almost six (6) months [redacted] Her telephone number is [redacted]. My contact number is [redacted]

Earlier this evening, I was sitting in my trailer watching TV when I heard a bang. The noise sounded like it was far away, so I didn't really pay that much attention to it. Plus, I have a monitor on the trailer that looks out westbound on 29th Street. I have the camera to watch my truck (referring to the white Ford Explorer that had the driver's side window broken out parked on the east side of 29th Street) because I have all my tools inside of it. The camera doesn't record. I wish that it did, but I just have a live feed on it.

Like I said, I didn't see anything on the monitor and just continued to watch TV. About a minute or so later, I heard another bang which sounded really close to my trailer. I looked at my monitor and I saw someone standing by my vehicle. I opened my trailer door and exited just outside my trailer and saw a guy just standing there on the driver's side of my vehicle just staring at me. I told [redacted] to hand me my gun. I really didn't have a gun, but I said it loud enough so that the guy could hear me and would hopefully scare the guy off. He didn't move. He just stood there looking at me.

I went back into my trailer and grabbed my baseball bat and walked out toward my truck telling the guy to get away from my car. The guy then ran off across the street (referring to the west side of 29th Street) and headed north. I think he ran and hid behind the garage over at [redacted] 29th Street (pointed out [redacted] 29th Street on a Google overview map that was shown to him.) I followed him and got to the house he was at and he took off and jumped the fence of that same house. I walked across the street and called 911.

I stood there and saw the helicopter fly over and then a couple of police cars came from Meadowview Road. I flagged down the officers and directed them to the backyard of the house the guy jumped the fence into (referring to [redacted] 29th Street). After the cops went towards the backyard, I walked back to my trailer.

I was back inside my trailer and saw on my monitor the two (2) officers running back southbound and must have went into another backyard, because I went outside of my trailer just after that and didn't see the officers anymore. I then heard some yelling from what I believe was from the officers, but I couldn't make out what they were saying. I did hear one officer say, "Police! Stop!" just before I heard the gunshots.

To me it sounded as the shots came from two (2) different guns. They sounded different. I heard what sounded like 5-7 gunshots coming from the first gun that fired and then maybe 2-3 gunshots from the second gun.

If I had to guess, the shooting probably occurred 2-3 minutes after the officers first arrived. It was very long.

If I had to describe the guy that I saw standing by my vehicle, I would say that he might be a black guy? I couldn't really see his face. I saw that the guy was wearing a black hoodie that was up on his head, possibly had red writing on the back of the hooded sweatshirt and he was wearing black pants that had white on it. I didn't see anything in his hands when he was standing there by my vehicle or when he took off across the street. I don't know what if anything he used to smash out my car window.

(I later exited the interview room after talking with [redacted] and conferred with Detective Coughran who had interviewed [redacted]'s girlfriend. Detective Coughran stated that [redacted] stated that she had been standing outside the trailer talking with "[redacted]" who she stated was a friend of [redacted]s when the suspect had walked westbound from Ellwood Avenue up to 29th Street where she and "[redacted]" watched the suspect described as wearing all black smash out a window of a car parked across the street. [redacted] stated that "[redacted]" had driven off shortly after that occurred and she had gone back inside the trailer. I re-contacted [redacted] and asked him about his friend "[redacted]" and if he recalled anything more.)

My friend [redacted] was over earlier and I don't remember if [redacted] was still outside when I heard the first bang or not. My friend [redacted] is an older black guy that lives up in the North Sacramento area. His telephone number is [redacted]. [redacted] drives a 2004 white Ford Explorer.

(Detective Coughran conducted a records check of the provided telephone number for [redacted] and located a [redacted], DOB: [redacted], Xref: [redacted]. Detective Coughran printed the most recent booking photograph of [redacted] dated [redacted]. I re-entered the interview room and showed the photograph to [redacted] which he positively identified as his friend [redacted].)

(I later learned from Detective Coughran that our suspect had possibly been identified as Stephon CLARK, DOB 8/10/95, Xref: [redacted] I printed out the most recent booking photograph of Stephon CLARK dated [redacted] and had shown it to [redacted].)

Yeah, that could be him. He definitely looks familiar to me like I've either seen him before in the neighborhood or at the store or something. Is that him? He does look familiar, I just don't know from where.

A: No, I heard four gunshots...

Q: Okay.

A: ...right there and I - my grandbaby's right there to see it on the couch asleep.

Q: Mm-hm.

A: Okay, and I was here at the computer listenin' to a (pray sess) come out. She do it at church. And it was a psalm - you know, she prays that. She's only seven years old. Okay? And so I was on the computer. And then I was like this. I even dropped the books, everything. Oh, and - and you know I dropped all of that. But anyway, I was right here and all I heard, pow, pow, pow, pow four times.

Q: Okay.

A: And I ducked to the floor. I fell and hurt myself. I ran o- I - I crawled over there and then I crawled in the room and left my grandbaby there and I wasn't thinkin'. And I said, "[redacted] somebody's shootin'. Somebody's shootin'." He said, "I didn't hear no shots." I said [redacted] - he was, "Somebody came in the ro- room - I mean somebody called my name. Said ([redacted])." I said, "No, [redacted] it was gunshots." And then I said, "Well, okay then." I seen all them lights. I said, "Well maybe it was firecrackers then." But I said, "No, that's gunshots."

Q: Yeah.

A: So I crawled back in here and I got my grandbaby. I said, "Get - grandbaby. Wake up. Wake up. ([redacted]), wake up." And then she woke up and we got on that floor and we crawled all the way back in there, back in the bedroom. Here. We crawled right here. I'm gonna show you. In here with my husband. [redacted]. Okay. I came in here and I lay right here on the floor. Me and the baby.

Q: That baby over there?

A: Yeah. Uh-huh. ([redacted]).

Q: Go back to sleep, honey. You're fine.

A: Yeah. And then...

Q: It's okay, sweetie.

A: .. [redacted], um, s- my husband -- I call him [redacted] -- he said - he said, "What?" And I said, "Call the police. Call the police." But see, the - the cable man came out and gave us a new monitor. So I tried to call you guys on that.

Q: Oh, I see.

A: But the thing don't work because he changed the rotor.

Q: Oh.

A: And so then the phone wouldn't work. The house phone. So he called on his cellphone. He called on his cellphone.

Q1: So, uh...

Q: He's talkin' in there.

A: Oh, to the baby? Okay. So, see, I have congestinal heart failure and I was scared. I was so scared.

Q1: So between...

Q: Sounds like you moved pretty good, though.

Q1: Yeah.

A: But I...

Q1: So - so before - so...

A: But God saved us, 'cause I got...

Q1: ...be- let me - let me stop. Before you heard the gunshots did you remember hearing anything in your back yard or anything?

A: No. Ain't nobody said nothin'.

Q1: Okay.

A: Nobody said nothin'. You know, at, um, all that is just heard the four gun shots. And no one said nothin'. I didn't hear nothin'.

A: And then I seen a light. I seen a light.

Q: Okay.

A: And I said, "Well maybe that's from the gun." But I heard the gunshots so loud. It went pow, pow, pow, pow - four times.

Q: Okay.

A: And I just - that's when I just flew to the floor. And I just said, "God, oh please." And then I came and got my ba- I was frantic. It was scary. I never heard gunshots before.

Q: Mm-hm. Okay.

A: You know? I mean, on TV and, you know, somethin' like that. But not close to our window. Right there.

Q: Right. Right.

A: Right there. And I heard 'em.

Q1: Anything else stands out in your mind?

A: No.

Q1: Okay.

A: No, I can't...

Q1: Do you rem- do you remember anybody tryin' to get in to your house or anything like that? Or hearin' any of the doors bein', um...

A: No, if somebody tried to get in our house, it's my, uh, probably be my grandson 'cause sometimes we can't hear him.

Q1: No, I mean just prior to, um, the gunshots. Do - do you recall hearing anything like that? Any...

A: No. Uh-uh. No. No.

Q1: ...anybody tryin' any doors or windows anything?

A: No. Uh-uh. There was nothin'. 'Cause I had the computer on low. And I was just listenin' to music. I just heard four gunshots. Nobody said nothin'.

Q1: Okay. Do you remember - do you know if you heard any windows breaking or anything like that? Never heard anything like that?

A: No, wha- our windows ain't broken.

A: Oh.

Q: Do you - did you hear anything...

A: Oh, I didn't hear nobody breakin' in. Nothin'.

Q: Okay.

A: No. But I can - I can - when the gun shot, you could tell it was right here.

Q: Mm-hm.

A: And I could tell by - after that there was a light. I remember that light as good as day. I could see it.

Q: Okay.

A: And I thought it was, like, from a gunshot. I - then I said, "Well maybe it's a firecracker." Then I said, "No, not the way that gun went off."

Q: Okay. So right now we have a crime scene in your backyard. Okay?

A: Uh-huh.

Q: And we're gonna be workin' in your backyard for...

A: Nobody got killed in our backyard, did they?

Narrative Text Report # 5

Document: **02 WITNESS STATEMENT**
Author: **3857 - COUGHRAN, CHAD 0635**
Subject: **INTERVIEW: [redacted] (DOB: [redacted])**
Related date/time: **Mar-19-2018 (Mon.) 109**

On 3/19/2018 at 0109 hours I, Detective Coughran #635, spoke to Witness [redacted] at Police Headquarters inside Interview Room #6. The interview was video and audio recorded. For a verbatim statement, watch the video. Witness [redacted] stated the following in summary:

I live in a trailer that is parked in the driveway of [redacted] 29th St. I've been living there for almost a month now. I live there with my boyfriend, [redacted] The [redacted] family that lives in the house has allowed us to live there while [redacted] fixes their cars.

Tonight, [redacted] was inside the trailer and I was standing outside the trailer when I saw [redacted] arrive in his white Tahoe. [redacted] is [redacted]'s friend. I don't know his last name, but he is a black male, about 58 to 59 years old. I think he lives in the north area. I don't think he knows anyone in the area, other than the [redacted] who live inside the house at [redacted] 29th St. When [redacted] pulled up he parked in the driveway of [redacted] 29th St on the other side of our trailer. He was playing his music. I walked over, and [redacted] and I were talking in the driveway. As we were talking I saw a guy walk westbound from Ellwood Ave. The guy crossed 29th St to a gold Camry that was parked on the west side of 29th St. The guy walked around the back of the Camry and then to the passenger side door of the Camry. While I was talking with [redacted] I heard a thump. We thought the guy had locked his keys in the car, as if the Camry was his. Then the guy broke the window out of the Camry. He was looking inside the car and then he got inside the car. The guy had to know we were there because we were talking loud and [redacted] had his music on. [redacted] eventually got back into his car and drove away, northbound on 29th St. I went back inside the trailer. When I went back inside the guy was standing outside the Camry just looking at it. I didn't see him with any objects or anything that I saw him use to break the window. But then again, he was on the other side of the car, so I couldn't see him very well.

Once I was back inside the trailer [redacted] and I heard another glass break. That's when we saw that the guy had crossed the street to the east side of 29th St. Our two cars were parked on the east side near our trailer. We realized the guy broke the windows to both of our cars. [redacted] yelled for me to get his gun. I told [redacted] that he didn't have a gun and that's when [redacted] grabbed his baseball bat. [redacted] walked outside with his bat and I followed. I could see the same guy now walking back across 29th St heading to the west side. I stayed just outside the trailer, near our burgundy car with the broken window. [redacted] walked northbound on 29th St along the east sidewalk. I could see the other guy walking northbound along the west sidewalk. [redacted] was yelling at the guy "Hey, you broke my windows!" But the guy just continued walking northbound and never said a word. I thought he was drunk or something. I thought he was just going to keep breaking out windows. I lost sight of the guy when he walked between houses a few houses north of us, on the west side and I heard a chain link fence rattle. I assumed he hopped a fence into the backyard of the houses. There were dogs barking in the back yard. [redacted] never crossed over to the west side of the street. [redacted] used his cell phone to call the police. I didn't hear what he told the dispatcher.

About eight minutes later I saw to police cars arrive. One was a police SUV and the other was a regular car. They were both "black and whites". I saw two Officers get out and meet with [redacted] who was pointing them to the house where the guy was last seen. Both Officers were wearing police uniforms. They had their flashlights out as they were looking between the houses. Then the helicopter arrived, and it was spotlighting the houses. It looked like the Officers were walking on the sidewalks back and forth between the houses that I last saw the guy go to. Then the Officers both walked southbound on the sidewalk and they ran up the driveway of the house across from us. I saw them go through the gate to the backyard of the house. And shortly after that is when I heard 7 or 8 gunshots. I thought they were from the same gun. It all happened so fast.

Then the helicopter told [redacted] and I to go back inside. So we went inside the trailer and waited until the Officers told us they wanted to talk to us. By then there were a whole bunch of Officers in the area.

The guy who was breaking windows was wearing a plain black hooded sweatshirt. He had the hood pulled up over his head. I thought he was Mexican because he had medium toned skin. But I really didn't see his face at all so I wouldn't be able to recognize him. I don't remember his pants or shoes. He was about 5'8" tall and skinny. I didn't see him with anything. No objects. No backpack.

*** Throughout the interview I utilized a Google satellite aerial image of the immediate neighborhood. Witness [redacted] used a red and blue marker to make references during her statement.

I don't know [redacted]'s full name but I think I have a phone number for him inside my phone. But the battery is dead right not.

*** Detective Ayers was able to obtain a phone number for "[redacted]" which was [redacted], A records check in WebKPF revealed the phone number was associated with [redacted] (DOB [redacted]). I printed a single photo of [redacted] from WebKPF dated 4/21/2010. I showed the photo to Witness [redacted]

Yeah, that's [redacted]

*** I was advised that the deceased subject was identified as possibly being Stephon CLARK. I printed a single photo of Stephon CLARK from WebKPF dated [redacted]. I showed the photo to Witness [redacted] and asked her if she knew the person or if she had seen him before.

That kind of looks like someone I saw in the area. But I don't know.

WITNESS STATEMENT: CLARK, MICHAEL

On Wednesday, 3/21/18 at approximately 1238 hours, Detective Alonso #803 and I (Detective Ayers #763) responded out to [redacted] in an attempt to located and talk with [redacted] who had been earlier identified as a witness who had been standing outside [redacted] 27th Street with [redacted]. Upon attempting to make contact with apartment [redacted], construction workers stated that all the tenants from upstairs had been relocated and asked who I was looking for. I stated that I was looking for [redacted] and was informed that he had been relocated to apartment [redacted]. Detective Alonso and I made contact with [redacted] ([redacted]) who stated that [redacted] was at work and would give him a call to give me a call. Detective Alonso provided a call back number.

At approximately 1300 hours, [redacted] called back and stated the following in summary:

Yes, I was over at [redacted] ([redacted] and [redacted] ([redacted])'s house on Sunday night. I was outside talking with [redacted] when we both say the guy wearing all black walk from Ellwood Avenue to the Camry across the street from where we were standing. We had been standing by the driveway of [redacted] 29th Street when they guy wearing all black walked by. When he walked across the street, he went straight to the car and started banging on the glass. He was on the other side of the street and had his hoodie on so I really couldn't get a good look at him, but to say that he was black. I almost was going to go across the street and help the guy because I figured that he had locked his keys inside the car or something, but then the glass broke.

The guy didn't say anything and I didn't really see anything in his hands. I didn't see him get into the vehicle. After the window broke, I left the area. I have no idea what happened after that besides what I've seen and heard on the news. Like, I said, I left just after he broke the window on the Camry across the street and just thought the vehicle belonged to him. I wouldn't be able to identify they guy.

On 4-25-18 at about 1445 HRS, Detective Cruz and I, Detective Griggs, along with DOJ Special Agent Brass contacted [redacted] at [redacted]. The contact was audio recorded and booked into evidence under PR# 989927-5. We asked [redacted] about the circumstances surrounding her car alarm activation just prior to the officer involved shooting that occurred on 3-18-18. [redacted] related the following in summary:

My car alarm had gone off. I had just got my car and I remember I had shown my niece my car. I went to turn it off (my alarm) and in order to turn it off I had to turn the car on. I got in my car really quick and looked in it and came back in. My niece came outside with me. I came back in (the house) and got ready to leave and then left. When I came back everything was taped off and they (Police) told me I couldn't come back in. I didn't hear any gunshots.

I saw the helicopter coming as I was driving away. I didn't hear the helicopter make any announcements.

I never figured out what made my car alarm go off. When I came to check on my car I was in my car for maybe two minutes.

I didn't see anyone in the street, it was really quiet just like any other night. It was already dark when my alarm went off.

It is not a word-for-word interpretation of every word uttered. For the exact details please watch the video recording. The following interview took place:

DET GRIGGS: I'm Detective Griggs - G-R-I-G-G-S. You are (Jared) Robinet. Is that...

OFC ROBINET: Robinet.

DET GRIGGS: Robinet I'm sorry. And its R-O-B-I-N-E-T and I forgot your name sir, I'm sorry.

MR. TATE: (Ace Tate) counsel for the officer.

DET GRIGGS: Okay. With the Mastagni Law Firm?

MR. TATE: Yes.

DET GRIGGS: Okay. Just to give you an idea kind of how I want to do things there's some technical stuff I want to ask you about your career your shift, - you know stuff like that ahead of time. Then we'll talk about the day - your shift today. And then probably just open it up to you. Just like you'd write your observations - kind of tell me what happened. And I might have some questions. And we'll kind of go through it like that okay.

OFC ROBINET: Okay.

DET GRIGGS: If you have any questions feel free okay. How long you been with Sac PD?

OFC ROBINET: I've been with Sac PD for a little over four years.

DET GRIGGS: Four years. Are you a lateral? Or did you go through our academy?

OFC ROBINET: I went through the academy, but I came from a federal law enforcement agency.

DET GRIGGS: Oh, okay where - who's that?

OFC ROBINET: I was at the border patrol.

DET GRIGGS: Okay. How long were you at the border patrol?

OFC ROBINET: Five years.

DET GRIGGS: Okay.

OFC ROBINET: Approximately.

DET GRIGGS: Our academy, do you remember which number it was?

OFC ROBINET: 14BR1.

DET GRIGGS: 14BR1. And for border patrol is there an academy or is there?

OFC ROBINET: Yeah there's an academy.

DET GRIGGS: Which one was that do you remember?

OFC ROBINET: It's through FLETC - Federal Law Enforcement Training Center.

DET GRIGGS: Okay.

OFC ROBINET: And it's class number 910.

DET GRIGGS: 910. And that was about - you were with them for about five years?

OFC ROBINET: Mm-hm.

DET GRIGGS: What did - what'd you do for the border patrol?

OFC ROBINET: I was a patrol agent.

DET GRIGGS: Okay. I - I guess I just don't know anything about the border patrol.

OFC ROBINET: Yeah. Want me to go into the primary duties or like that?

DET GRIGGS: Is it just typical law enforcement on the border?

OFC ROBINET: It's typical law enforcement duties as far as the border patrol is concerned.

DET GRIGGS: Okay. Got you.

OFC ROBINET: The border patrol is not typical.

DET GRIGGS: Okay.

OFC ROBINET: And most of it was mountainous terrain where we answered censors and tracked groups of individuals and drugs, bandits.

DET GRIGGS: Okay. I guess what I need to know is are you - were you sworn law enforcement?

OFC ROBINET: Sworn federal law enforcement.

DET GRIGGS: You carry a gun.

OFC ROBINET: Yes.

DET GRIGGS: Okay. And then as far as with Sac PD any specialized training? Are you - you know a range master or SWAT team - something like that?

OFC ROBINET: No nothing like that.

DET GRIGGS: Field Training Officer?

OFC ROBINET: No.

DET GRIGGS: Okay. What's your normal assignment?

OFC ROBINET: Sector 5 regular swings patrol.

DET GRIGGS: Okay. Who's your sergeant?

OFC ROBINET: Sergeant Bullard.

DET GRIGGS: Okay. So, this was a regular work day for you?

OFC ROBINET: Yes.

DET GRIGGS: What are your days off?

OFC ROBINET: Monday - Tuesday and Wednesday.

DET GRIGGS: Monday - Tuesday - Wednesday. Swing shift. Does that start at 2:30 now?

OFC ROBINET: Yeah 1430.

DET GRIGGS: Okay. Yesterday I can't remember what day it is. It's Sunday - it's Monday now.

OFC ROBINET: Yep.

DET GRIGGS: Did you work normal shift the day before? Saturday night?

OFC ROBINET: Saturday?

DET GRIGGS: Yes.

OFC ROBINET: O- overtime. No - no overtime.

DET GRIGGS: Did you do like a double shift or anything like that?

OFC ROBINET: No. Just normal.

DET GRIGGS: Sunday was normal shift for you.

OFC ROBINET: Yep.

DET GRIGGS: Okay. What was your identifier?

OFC ROBINET: 1 Charles 54.

DET GRIGGS: And that means your solo car, right?

OFC ROBINET: Mm-hm.

DET GRIGGS: Solo officer? And you're dressed just like you're dressed now?

OFC ROBINET: Yes, I was.

DET GRIGGS: Could you stand up for me and kind of just show me what - so regular duty uniform and...

OFC ROBINET: Regular duty uniform.

DET GRIGGS: Let's just go around your belt as far as force options. What do you have on your belt?

OFC ROBINET: I have a couple knives.

DET GRIGGS: Okay.

OFC ROBINET: That's just in case.

DET GRIGGS: Okay.

OFC ROBINET: Baton for less than lethal.

DET GRIGGS: Right.

OFC ROBINET: Same with the taser.

DET GRIGGS: Okay.

OFC ROBINET: The pistol you know duty weapon and as far as use of force options - oh and OC right here.

DET GRIGGS: Okay.

OFC ROBINET: I forget about that because I never use it.

DET GRIGGS: Yeah. Thank you. Okay. For your shift today anything unusual happen before obviously the call we're going to talk about? But any crazy calls?

OFC ROBINET: No, the majority of today I was hospital watch on a prisoner from the day shift.

DET GRIGGS: Okay. Do you remember what time or about when you stopped being hospital watch?

OFC ROBINET: No.

DET GRIGGS: You don't have to guess if you don't remember.

OFC ROBINET: Yeah, I'm - I'm trying to think it was - I know I - I transported him to the jail and it was starting to get dark.

DET GRIGGS: Okay. Cool. All right the call on 29th street. Do you remember how it came in?

OFC ROBINET: It came in well initially dispatch called it a 927 - suspicious subject or circumstances. And quickly changed it to a 921 to a car clout.

DET GRIGGS: Okay.

OFC ROBINET: They stated that an individual was breaking windows in vehicles along 29th street.

DET GRIGGS: Okay.

OFC ROBINET: They said the complainant, or the caller followed the subject up to [redacted] 29th Street where he saw him go into the back yard.

DET GRIGGS: Okay. Were you dispatched to that or did you jump it on your own or?

OFC ROBINET: Initially I was on a shots-spotter call at the time.

DET GRIGGS: Okay.

OFC ROBINET: When it first came out. We were wrapping that out and just clearing it.

DET GRIGGS: Uh huh.

OFC ROBINET: They cross-sectored - they brought in 2 Charles 45 from sector 4 to go to that.

DET GRIGGS: To the shots spotter call?

OFC ROBINET: No to go to the - the car clout call.

DET GRIGGS: Okay got you.

OFC ROBINET: Both (Mercadal) and I were on that shots-spotter.

DET GRIGGS: Okay.

OFC ROBINET: And we cleared that call, in order to go to the car clout so the sector 4 units didn't have to come in.

DET GRIGGS: Did they cancel, or did they continue?

OFC ROBINET: They cancelled.

DET GRIGGS: Okay.

OFC ROBINET: But they were code 4'd by dispatch.

DET GRIGGS: Okay. All right kind of in your own words as far as - you just told me about the dispatch, but you know just like you'd write your observations from start to finish from the call kind of take me through what happened.

OFC ROBINET: Do you want me to get in- I can get into detail about like the observations and the - the call and what the complainant told our...

DET GRIGGS: Yeah. What - what do you - you remember what the complainant said?

OFC ROBINET: Initially what I told you what the dispatch was.

DET GRIGGS: Right.

OFC ROBINET: About somebody breaking into cars and he followed the - the person. It provided a description of a skinny tall - I think they said somewhere around 6'1" - 6' male black wearing black clothing with what he thought was like a design on the pants.

DET GRIGGS: Mm-hm.

OFC ROBINET: That was pretty much the information we had. They provided the address of the [redacted] 26 - or 29th street sorry. As the location of the call where the complainant saw the individual go into the back yard.

DET GRIGGS: Mm-hm.

OFC ROBINET: Both (Mercadal) and I drove there from Sun Valley Circle in 5B.

DET GRIGGS: Okay.

OFC ROBINET: We left at the same time. Arrived nearly at the same time on 29th Street. I arrived pretty much first. And saw the male white who I assumed was the complainant pointing to the house at [redacted]

DET GRIGGS: Okay.

OFC ROBINET: I got out - talked to him real quick. That's when I activated my body camera. He - he stated that he had seen the individual jump the fence on the north side of the house like the east fence line like what's in the - the back of the front yard.

DET GRIGGS: Mm-hm.

OFC ROBINET: If that's making any sense. I had to draw - draw those - but - that - that short little small fence between the property line.

DET GRIGGS: Mm-hm.

OFC ROBINET: And what basically divides the back yard from the front yard.

DET GRIGGS: Mm-hm.

OFC ROBINET: So that went on the north side of [redacted]

DET GRIGGS: Is he there pointing this out to you?

OFC ROBINET: Yeah, he's there pointing it out to me.

DET GRIGGS: Okay.

OFC ROBINET: And he - he tells me that the dogs were going crazy that they were barking a lot. And that in the last minute or so he didn't hear them barking anymore.

DET GRIGGS: Okay.

OFC ROBINET: My concern was that individual was still being in the backyard - what he was doing back there after breaking out the windows here. What was his - what was he going to do next? If there were people home at that address. And went and I knocked on the - the window by the front door. It was answered by a woman that lives there - I assumed live there. I kind of gave her a brief synopsis about what was going on. I asked if we could have permission to check her back yard. She stated she needed to put her dogs away. And, but allowed us to go back. After waiting at the front door for a few - felt like a few minutes she came around from the south side I guess the garage door - not the main door, but the side door.

DET GRIGGS: Mm-hm.

OFC ROBINET: And told us that they - gate was open for that south side entrance to the backyard.

DET GRIGGS: Okay.

OFC ROBINET: Both (Mercadal) and I went in there. Cleared that backyard. And didn't find the subject.

DET GRIGGS: Okay.

OFC ROBINET: At this time when we - pretty much at the same time we arrived - or slightly before - the SSD (Star) helicopter was on scene.

DET GRIGGS: Okay.

OFC ROBINET: And was giving us updates about you know checking that back yard not seeing anything. I advised him that the comp told me that he ran westbound over that fence.

DET GRIGGS: Okay.

OFC ROBINET: And advised (Star) to maybe check kind of north - northwest from there. And he acknowledged - or the pilot acknowledged it. Stated that there was a vehicle kind of over by Coral - Coral Gables.

DET GRIGGS: Mm-hm.

OFC ROBINET: Like in that - I believe it's a church parking lot that backs up to the house this is on...

DET GRIGGS: You're talking about behind?

OFC ROBINET: Yeah it backs up to the houses along the west side of 29th.

DET GRIGGS: Got you.

OFC ROBINET: Said there was a car back there. There was somebody in the driver's seat. They were using FLIR cameras. So they only saw the heat. No description. And we advised we'd check that after we checked the backyard. So back to the backyard. Backyard was clear. Both (Mercadal) and I came out from the backyard. Gave and up- update to the dispatch that the yard was clear. And asked (Star) if he still had eyes on that vehicle that was supposed to be in that - that parking lot.

DET GRIGGS: Mm-hm.

OFC ROBINET: Walking out to my car because I was expecting to drive over there. (Star) gave an update saying that he had an individual in the backyard of the house approximately two houses south of our location.

DET GRIGGS: Mm-hm.

OFC ROBINET: I don't recall him giving an address at that time. Excuse me.

DET GRIGGS: It's all right.

OFC ROBINET: I don't recall him giving an address at that time, but he said that it looked like the individual was attempting to break into that house. And that he had a crowbar in his hand.

DET GRIGGS: Okay.

OFC ROBINET: And was trying to break a window. We started - both (Terrence) and I moved down - moved - walked south. And then he updated saying that the individual had broken the glass and was trying to break into the house.

DET GRIGGS: Okay.

OFC ROBINET: We ran down a couple houses at that time (Star) gave out the address of the [redacted] or something like that. I don't remember exactly. And I got a little confused actually and I went a little bit further south thinking that the numbers were getting higher as the street went north.

DET GRIGGS: Okay.

OFC ROBINET: But come to find out they were going higher as the numbers went south.

DET GRIGGS: Got you.

OFC ROBINET: (Mercadal) stayed a little bit north of where I was. (Star) gave the update about the breaking of the glass with the crowbar. And gave the address and then stated that that individual was now running south over the - over the fence into the next yard.

DET GRIGGS: Mm-hm.

OFC ROBINET: Which would have been the [redacted] address. I later found that out. (Terrence) was close to that one. I was further south. (Star) gave an update saying that an individual was now coming out towards 29th Street.

DET GRIGGS: Mm-hm.

OFC ROBINET: And somewhere in that time-frame is when I heard (Terrence) yelling at the suspect.

DET GRIGGS: Are you - where are you at this point? Are you on 29th Street or are you...

OFC ROBINET: I'm - yeah, we're both still on 29th Street on the west side par- west side sidewalk so is (Terrence). I'm about a house and a half further south than him.

DET GRIGGS: Okay.

OFC ROBINET: Expecting the individual to maybe come running out that way.

DET GRIGGS: Towards you?

OFC ROBINET: Towards me - towards the street or south. As soon as I heard (Terrence) yelling at the suspect I ran back north towards (Terrence) and followed him into the backyard of [redacted] 29th Street.

DET GRIGGS: Okay.

OFC ROBINET: As - as we hit the corner - the northwest corner of the - the house in the backyard I observed the suspect standing approximately what I thought was around 15 to 20 feet away.

DET GRIGGS: Mm-hm.

OFC ROBINET: In the isosceles position (Officer Robinet displayed what he meant with his hands) with his hands punched out in front of him holding an object. I guess I forgot to mention that when clearing the backyard of [redacted] my tack light stopped working. And I was using my flashlight.

DET GRIGGS: Okay.

OFC ROBINET: So due to the - due to the subject breaking the - breaking the glass thinking maybe he's trying to break into the house what completely unknown what he had in his hands when - when (Terrence) followed him into the backyard. I had not seen the subject up until that point where we hit that corner.

DET GRIGGS: Okay.

OFC ROBINET: As soon as I turned the corner I saw him punched out like that.

DET GRIGGS: When you say punched out like that can you demonstrate.

OFC ROBINET: Punched out with a is- isosceles hands - both hands on an object like this.

DET GRIGGS: Okay. When you say isosceles where - where do you know that from?

OFC ROBINET: Training. Range training - firearms training. The isosceles stance because it's the triangle - your arms form a triangle - your feet are positioned usually about shoulder length apart.

DET GRIGGS: Okay.

OFC ROBINET: That's a common firing position for a - I mean we're - we're taught in firearms training. Was taught that in border patrol. Taught that here.

DET GRIGGS: Okay.

OFC ROBINET: I recognize that as a position somebody shoots from.

DET GRIGGS: Okay.

OFC ROBINET: At the - I could see that there was something in the suspect's hands. I wasn't able to make it out. I saw something reflection of what I thought was a metal object in his hand from the reflection of our - out lights. Because the backyard was really dark. It was hard to see - make out anything clear. All I saw was a subject in dark clothing standing in that position with his hands punched out with something in his hands. (Mercadal) yelled gun. Out of instinct I ducked behind the corner real quick cover. Came back around and to get an idea what was going on. Saw the suspect still standing in that position. Still punched out at us. I honestly was really surprised that I hadn't heard gunshots yet. And to protect myself and - and (Terrence) I fired what I thought was five rounds on scene. And later thought was maybe more.

DET GRIGGS: Okay.

OFC ROBINET: In that time (Terrence) started firing as well.

DET GRIGGS: Okay. When did you stop firing?

OFC ROBINET: As the suspect fell to the ground.

DET GRIGGS: Okay. Why?

OFC ROBINET: I didn't feel like there was a threat anymore.

DET GRIGGS: Okay. That registered in your head?

OFC ROBINET: Yeah. The suspect was down and there was no threat anymore.

DET GRIGGS: Okay. When you came around the corner and - and when you say you saw him punched out like that how did you feel? How'd that make you feel?

OFC ROBINET: I was scared - like I say I was scared he was going to shoot us.

DET GRIGGS: Okay.

OFC ROBINET: I really felt like that was a gun. His position like I said was something I recognized as a firing position from all the training and all the firearms training that I've been through in the last nine years.

DET GRIGGS: And when you said you were surprised you didn't hear gunshots yet what did you mean?

OFC ROBINET: I was surprised that he hadn't started firing at us.

DET GRIGGS: So not that ...

OFC ROBINET: because he had...as we hit that corner I know (Terrence) was a little bit in front of me and I know he actually came out past the corner.

DET GRIGGS: Okay.

OFC ROBINET: He completely had the drop on us meaning that he would have started - or could have started shooting and would have easily hit (Terrence).

DET GRIGGS: Okay. So just so I get it right - you - (Terrence) was further into the yard than you?

OFC ROBINET: He was in front of me when we hit that corner.

DET GRIGGS: Okay. Are you - are you on the inside or the outside of (Terrence) as far as the corner?

OFC ROBINET: If the corner's right here I'm on the inside and he was to my right.

DET GRIGGS: Okay. And this is a left turn into the yard?

OFC ROBINET: A left turn into the yard.

DET GRIGGS: Okay.

OFC ROBINET: Yes.

DET GRIGGS: Okay. So, you're closer to the house than (Terrence)?

OFC ROBINET: Yes.

DET GRIGGS: Okay. Had you seen the suspect prior to making that corner?

OFC ROBINET: No.

DET GRIGGS: Okay.

OFC ROBINET: That was the first time I saw him.

DET GRIGGS: Okay. Let's talk about after the shooting what happened then?

OFC ROBINET: Both (Terrence) and I gave commands. (Terrence) updated it over the air that shots were fired. I know (Star) was on the radio - I don't remember what he was saying. But we sat there. We couldn't see - I couldn't see the suspect's hands at all. (Terrence) said he couldn't see the left hand. But I couldn't see either hand at that point.

DET GRIGGS: Okay.

OFC ROBINET: (Terrence) was down on one knee kind of like below me - taking cover behind the same corner and I was above him.

DET GRIGGS: Mm-hm.

OFC ROBINET: We were issuing commands. Show us his hands. Show us his hands. And that's when Taylor and Trujillo showed up.

DET GRIGGS: Okay.

OFC ROBINET: We - oh excuse me - digress a little bit. As we were issuing commands I had (Terrence) do a tactical reload and then when he had his completed and was back on target with the suspect I completed - I went behind cover and completed one myself.

DET GRIGGS: Okay.

OFC ROBINET: And Trujillo and Taylor showed up.

DET GRIGGS: Okay. Do you remember asking for a body bunker?

OFC ROBINET: Yes.

DET GRIGGS: Why did you ask for a body bunker?

OFC ROBINET: Because if the suspect had a gun and was not injured or still alive at that point I didn't want to approach to detain him.

DET GRIGGS: Okay.

OFC ROBINET: In fear that he might still be able to get rounds off on us.

DET GRIGGS: Okay. At some point did you guys approach? Were you part of that?

OFC ROBINET: When - when Sergeant Morris showed up it was (Mercadal), Taylor and Trujillo, Morris and I. We - Sergeant Morris said, "We got to go." At that point and we approached. By that time the suspect hadn't moved at all and wasn't responding to any of our commands - any pleas to say something to us or anything like that.

DET GRIGGS: Okay.

OFC ROBINET: So, we made the decision to approach to detain him and start CPR.

DET GRIGGS: Okay. Did you ever have any opportunity to provide any after force care to him?

OFC ROBINET: No, I didn't. I was called away from that scene by Sergeant Morris.

DET GRIGGS: Okay. As far as you know somebody else was doing that?

OFC ROBINET: Yes.

DET GRIGGS: Okay. When you say called away what do you mean?

OFC ROBINET: He summoned us to come away.

DET GRIGGS: You...

OFC ROBINET: Us as in (Mercadal) and - and me - Sergeant Morris did.

DET GRIGGS: Okay. Got you. Let's back up a - just a little bit. When you guys got there, you mentioned that there was broken glass and stuff - we didn't talk about what that was or what you saw when you got there. What did you see?

OFC ROBINET: When I got there and met with complainant he did point out that the suspect had broken the glass out of his truck - pointing south a couple houses. I'm not sure how many houses or what his address actually was.

DET GRIGGS: Mm-hm.

OFC ROBINET: But he pointed down towards the couple cars on the street I could see broken glass from the side windows on the ground or what I assumed was from the side windows on the ground.

DET GRIGGS: Okay.

OFC ROBINET: And then I observed another vehicle I think in front of [redacted] or around there with a - there was like a wrought iron gate section of it...

DET GRIGGS: Okay.

OFC ROBINET: ...the - I don't know probably about 4' wide by however tall it was laying on the sidewalk.

DET GRIGGS: Did the - I'm sorry go ahead.

OFC ROBINET: There was broken glass out of the car that was parked next to that section of the fence all over the ground right there.

DET GRIGGS: So how many cars had broken glass that you know of?

OFC ROBINET: I'd say that one for certain - I don't know exactly how many...

DET GRIGGS: Okay.

OFC ROBINET: ...were broken from the original complainant's house.

DET GRIGGS: The guy you talked to in the street did he say it was one of his cars? or did he...

OFC ROBINET: Yeah, he said it was his cars had the windows broken out of...

DET GRIGGS: By the person who just jumped the fence?

OFC ROBINET: Yeah.

DET GRIGGS: Okay. Okay. When you were clearing the first backyard you said your tac light went out.

OFC ROBINET: Yeah.

DET GRIGGS: Is that attached to your gun?

OFC ROBINET: It is.

DET GRIGGS: Okay. And so, you have a flashlight that you keep?

OFC ROBINET: Yes.

DET GRIGGS: Was it out - completely out? Because I - like I have one that turns off and on - off and on so it...

OFC ROBINET: Your flashlight?

DET GRIGGS: Your tac light. Was it...

OFC ROBINET: It was - it was completely out. I tried to work the action a few times to get it to work, but it was not working.

DET GRIGGS: So, it never came back on?

OFC ROBINET: It never came back on.

DET GRIGGS: Are you - you're right handed right?

OFC ROBINET: Yeah.

DET GRIGGS: So, when you said you used your flashlight was your flashlight with your left hand?

OFC ROBINET: It was.

DET GRIGGS: Okay. Do you know if (Terrence) has a tac light or a flashlight?

OFC ROBINET: I believe he has a tack light. But I don't know for certain.

DET GRIGGS: Okay.

OFC ROBINET: I know he did have a light on - on the subject.

DET GRIGGS: The - backyard in that - that house how's the lighting?

OFC ROBINET: It was non-existent except for my flashlight and (Terrence)'s light.

DET GRIGGS: So, what - what - what could you see? What area?

OFC ROBINET: I could see what our light was on which at that point was a pretty much the suspect. I saw mostly his mid-section. Like I'd say from his mid-stomach down to like his knees.

DET GRIGGS: Okay. Could you see anything that's not within your flashlight?

OFC ROBINET: No, it was more...

DET GRIGGS: Or (Terrence)'s.

OFC ROBINET: It was really dark. I couldn't see.

DET GRIGGS: Okay.

OFC ROBINET: I could - I could tell that there was like a structure around him. I couldn't tell exactly what it was.

DET GRIGGS: Okay. Did you hear anybody in the house at all?

OFC ROBINET: No.

DET GRIGGS: Okay. Do you remember if there were any cars in the driveway?

OFC ROBINET: There was an older car that I - like a - I thought it was like a Chevy. I put that on a radio. It was like a landmark for other units coming into recognize it's the house. And then there was a SUV like further in the driveway.

DET GRIGGS: Okay. Did the house look like somebody lived there or did it look like abandoned? Or could you tell?

OFC ROBINET: I couldn't tell.

DET GRIGGS: Okay. Do you remember the suspect saying anything at all?

OFC ROBINET: He didn't say a single thing.

DET GRIGGS: Okay. Did you give any commands?

OFC ROBINET: No.

DET GRIGGS: The commands that you remember hearing (Terrence) give - what do you remember him saying?

OFC ROBINET: I remember him saying the - show us his hands. Other than that, I don't remember what he said.

DET GRIGGS: Okay. You said you and (Terrence) came from the other call. Were you guys following each other pretty much the whole way?

OFC ROBINET: Yeah, he was following me.

DET GRIGGS: Did you have any conversation during that time or is it just...

OFC ROBINET: No, it's just...

DET GRIGGS: ...on that one call and then?

OFC ROBINET: ...just get to the next call.

DET GRIGGS: Okay. Did you guys have any opportunity to talk to each other about the call or what the plan was or anything like that?

OFC ROBINET: No, we kind of worked it out as we went along.

DET GRIGGS: Okay.

OFC ROBINET: It was like...

DET GRIGGS: Kind of going off...

OFC ROBINET: ...check this backyard and then I know we talked about like as we were getting updated on the car in the back we're like, "Hey we'll check this yard and clear make sure everything's okay. And then we'll go to the next - to the - to - backyard to that car and check that out."

DET GRIGGS: And you're kind of working off of (Star)'s updates basically?

OFC ROBINET: Exactly.

DET GRIGGS: Okay. You remember seeing the guy before - the suspect before?

OFC ROBINET: I have no idea who he is.

DET GRIGGS: Okay. How about the complainant there on the street or that particular street - have you been there before?

OFC ROBINET: I've been to calls on 29th Street before. I don't recognize the complainant from this call.

DET GRIGGS: Okay. Specifically, those couple houses that you can remember being in?

OFC ROBINET: No, I can't remember.

DET GRIGGS: Okay. Cool. There's always something I forget to ask you. So, I'm sure we'll have to come back. But do you have any questions?

MR. TATE: No.

DET GRIGGS: Okay. We'll take a break. I'll take you guys back out to the room you were just waiting in. And I'm sure as soon as I do that I'll remember what I was supposed to ask you. So, let's take a break. Grab a drink of water. Use the restroom if you need to.

OFC ROBINET: Okay.

(BREAK AT 0340 HRS, RETURNED AT 0424 HRS)

DET GRIGGS: Okay. Just a few follow-up things. I know some of it we touched on. Try to get a little more into it. Do you and (Terrence) ride together as partners ever?

OFC ROBINET: No.

DET GRIGGS: Has he - have you guys been on teams before together?

OFC ROBINET: (Terrence) rode with me one day when he was in training.

DET GRIGGS: Okay.

OFC ROBINET: Just as like a substitute.

DET GRIGGS: Okay.

OFC ROBINET: Field training officer.

DET GRIGGS: Okay. He's on your team though? Are you guys on the same team?

OFC ROBINET: He's on the same team as me now.

DET GRIGGS: Is that since the beginning of the year?

OFC ROBINET: Yes.

DET GRIGGS: Okay. So, two and half months?

OFC ROBINET: Whenever that was yeah.

DET GRIGGS: Okay. But as far as partners he rode with you one day in training and then...

OFC ROBINET: Yeah, a couple of years ago- like when he was - I think he may have been phase 1 at the time.

DET GRIGGS: Okay. Okay. All right. Are you injured at all?

OFC ROBINET: No.

DET GRIGGS: Okay. Do you wear an ear piece in your ear?

OFC ROBINET: I do.

DET GRIGGS: Okay. It's not - I don't see it now. Is it...

OFC ROBINET: No, I too- I did take that off.

DET GRIGGS: Okay.

OFC ROBINET: It's attached to my vest.

DET GRIGGS: Okay.

OFC ROBINET: I took off as well.

DET GRIGGS: Okay. I noticed on the body camera I couldn't hear the dispatch at all, but you guys seem to - so I was curious. Anyway. Let's talk about your mindset a little bit. When you came around the corner and I think we - correct me if I'm wrong - but you described kind of coming around the first time. And then like taking a double take is that right?

OFC ROBINET: Yes.

DET GRIGGS: And both times you saw the suspect in the isosceles?

OFC ROBINET: Yes.

DET GRIGGS: As you described?

OFC ROBINET: Yeah.

DET GRIGGS: Could you tell if he was in the same position or had he moved?

OFC ROBINET: He appeared to be in the same position.

DET GRIGGS: Okay. And right in that moment and not considering what - you know after the fact what do you remember thinking in your head?

OFC ROBINET: Right at that moment?

DET GRIGGS: Yeah when you came around the corner and you saw him like that?

OFC ROBINET: To be frank it was, "Oh shit." And that's also when - you know I was really surprised that he hadn't started shooting on us.

DET GRIGGS: Okay. What were you concerned about?

OFC ROBINET: I was concerned about getting shot and was concerned about (Terrence) getting shot.

DET GRIGGS: And where was (Terrence)?

OFC ROBINET: (Terrence) at that point was to my right a little bit behind.

DET GRIGGS: Okay. Behind the house or was he...

OFC ROBINET: Behind...

DET GRIGGS: ...kind of exposed?

OFC ROBINET: ...like he was ex- he was more exposed than I was.

DET GRIGGS: Okay.

OFC ROBINET: He was further into the backyard. Like he had not really necessarily stopped at that corner. When - where I stopped to get a view of the - what was going on. So, he - he exposed himself into the backyard.

DET GRIGGS: Okay.

OFC ROBINET: Where I stopped to take a little bit of cover at the corner of the house.

DET GRIGGS: And you said you were surprised that you weren't?

OFC ROBINET: Taking rounds.

DET GRIGGS: ...taking rounds. And is that when you decided to fire?

OFC ROBINET: I - it was - it was instantaneous.

DET GRIGGS: Okay.

OFC ROBINET: It was a situation it was just - it was so quick. I hit the corner. I knew (Terrence) had traveled further into the backyard than I did and was exposed. (Terrence) yelled "Gun." I tucked in real quick - came back out. Saw him in the same position and still being surprised that I wasn't taking rounds this whole time. Decided to fire and end - end the threat before we actually started taking rounds.

DET GRIGGS: Okay.

OFC ROBINET: And we're talking about - in - instantaneous situation.

DET GRIGGS: Okay.

OFC ROBINET: Was the way I perceived it

DET GRIGGS: In that moment do you feel like you had any other choice?

OFC ROBINET: No.

DET GRIGGS: Okay. Did you feel like there was a deadly threat to you and (Terrence)?

OFC ROBINET: Yes.

DET GRIGGS: Okay. Okay. Could you see anything behind the suspect? How was your background?

OFC ROBINET: I could see, I should say - I couldn't really see it was dark.

DET GRIGGS: Okay.

OFC ROBINET: But you could tell that there was a fence.

DET GRIGGS: Okay.

OFC ROBINET: If that - if that's understandable.

DET GRIGGS: Are you familiar with that area at all? Do you know what the background is?

OFC ROBINET: In - in that particular backyard?

DET GRIGGS: Right. Well what's beyond where the suspect was?

OFC ROBINET: No.

DET GRIGGS: Okay. Okay. Afterwards - after the shooting when you guys approach. Do you remember seeing a cell phone on the ground?

OFC ROBINET: Yes.

DET GRIGGS: Do you know whose cell phone that is?

OFC ROBINET: No.

DET GRIGGS: Okay. And you remember what color it was?

OFC ROBINET: It was a - white with a black case I believe.

DET GRIGGS: Okay. Okay I think I'm done. Do you have any questions?

OFC ROBINET: No.

DET GRIGGS: Do you have any questions?

MR. TATE: No.

Author: **3635 - CRUZ, MICAELA 0278**
Subject: **OFFICER LUNDGREN FOLLOW UP INTERVIEW**
Related date/time: **Apr-24-2018 (Tue.) 754**

On 3-29-18 at approx. 1615 hrs I, Detective Cruz #0278, contacted Officer Lundgren and his Sacramento Police Officer Association representative at 5770 Freeport Blvd inside of interview room #4. I obtained a follow up statement from Officer Lundgren. Officer Lundgren stated the following to me:

INTERVIEW WITH OFC. LUNDGREN
Q=Detective Cruz
A=Officer Lundgren
A1=Paul Brown

Q: So were gonna, I wanted to speak with you regarding the incident that happened on Sunday, March 18th and there's; so before when you came in here you had a chance to review your supplement and then also watch your body worn camera footage and so there's just some things that we need to clarify with that okay but first can you tell me when you were on the way to the call and you were hearing the updates over the radio, what what was going through your mind?

A: Well my partner and I were sittin down for code seven, we heard this call come out. We heard air get overhead and start putting out that they had eyes on him, he was starting to move south thought through the backyards so we had our radios up and we're listening to it and it's just like any other call. Officers arrived on scene they mark on scene and then we get updates from air that you know they see him breaking out a sliding glass window. He's continuing south up an over a fence, officers are making contact and then the original shots fired call came out from air. When that came out, my partner and I ran to our patrol vehicle got in and started moving towards the call.

Q: So as you're going to the call what and your hearing the updates from STAR and dispatch and from the officers what's going through your mind?

A: What's going through my mind is that officers just had to shoot at a suspect and in my mind I was going through are my officers okay are they safe. An update did come out that officers were safe but you still have that concern for your teammates and your fellow officers that anytime that there's a an incident that involves a discharge of firearm there's always that level of the officers life was in danger or somebody's life was in danger so my, my fear was that one of them was injured but okay.

Q: And so have you ever worked with either of the officers prior to the incident on Sunday?

A: Both officers involved in the incident are members of my team I work with them every day out of the week.

Q: Have you prior to this year had you worked with them previously?

A: Prior to this year no.

Q: And so you guys have known each other since the beginning of the year essentially your team mates and work closely together.

A: Yes one of them is my direct beat partner.

Q: And which one is that?

A: It's Robinet.

Q: Okay and so when you say beat partner can you explain that a little bit.

A: District five's broken into three beats a, b and c. There's officers assigned to a, b and c. Officer Robinet, myself, Officer Mclean are all district five b cars.

Q: Okay.

A: So when a call comes out in district b those units are responding to those so we handle most calls for service together.

Q: Okay so it would be fair to say that a majority of calls that you respond to for service would be with either Officer Robinet or your other beat partner.

A: Correct.

Q: Okay. I wanna go to your body worn camera video.

A: Okay.

Q: That you had a chance to to review. I wanna talk about when you first arrive on scene and you approach Officer Robinet and Officer Mecadal. You, can you please explain to me the reasoning behind you muting your body worn camera.

A: When I made contact with them, walked out to the street, the cameras were muted because we were having a personal conversation about my concern for them. My concern for them

was still if they were injured or hurt physically or emotionally and so the body cams were muted and I asked them hey are you guys okay.

Q: Okay so is that what the conversation consisted of?

A: That was the conversation.

Q: Okay. And what was their response?

A: I think my exact words were hey are you guys okay and I think they both just said yeah and I said are you guys hurt and they said no. And then Rob Officer Robinet said okay I don't remember I think I might have said where is he and they pointed to the backyard and then I turned to go to the backyard and I think Officer Robinet said were on ice and the way I took that was we were just involved in an incident we can no longer investigate, talk to anyone we need to sit around and wait for the Sergeant to get on scene. That was my impression but I moved and I went to the backyard reactivated my body cam and then sound should have come back on.

Q: And then going back to your body worn camera there's one point when you are in the backyard and you're in the backyard with Officer Trujillo and again you mute your body worn. Can you again explain the reasoning behind you muting it at that time and also the conversation that was held between you and Officer Trujillo.

A: I don't recall seeing that. I don't know if I got to that point in the video.

Q: Okay. Do you, after you muted your body worn during your interaction with Officer Lund or Officer Mercadal and Robinet do you and you stated that you turned the sound back on as you were going in the backyard. Do you recall at any point muting your body camera again?

A: I believe I re-muted my body cam after fire pronounced and I backed off from the body. And then I was stationary back there and I muted.

Q: Okay. Do you recall any conversations that you had while you were in the backyard and your body camera was muted?

A: For clarity, is Officer Trujillo a male or female?

Q: A female.

A: I think after fire pronounced and I'm not sure what my status of my body cam at the time we moved south in the yard to look for bullet holes. See where the bullets went. I don't know if my body cam was muted at that time or not but the conversation her

and I were having back there were I think I found one here I think I found one here looks like it didn't penetrate the fence here making sure there was no over penetration no, no additional victims anywhere else.

Q: Okay. So is it safe to say that you don't remember if you muted it muted your body camera or if the sound was still on?

A: I know for a fact at one point after the incident was over I muted my camera because I was the only officer in that backyard by myself, the incident was over, and I muted my body cam.

Q: Okay. And then again while you were in the backyard a little while later Officer, two Officers, they looked to be checking the field to the west and looked over the the fence, property fence line and it looked like they may have had some sort of dialect with you.....

A: Yes.

Q: Could you please explain what was said during that conversation.

A: The first officer if I recall correctly was Officer Spring. He poked his head over and he said Lundgren and I said yeah who is that he goes it's Spring and I said hey he said you good and I said yeah I'm fine. He goes do you need anything and I said no I'm good right now. I feel like I'm going to be back here for a long time just holding the scene. He said alright give me a call if you need anything and I said give me your number. I wrote down his phone number and he's [redacted] with my beat partner Officer Maclean so I said hey will you please call or text Maclean tell him where I am cause your beat partner and you're a two man car, you wanna know where each other are and we got separated so I said hey just call him, tell him I'm in the backyard. I'm okay. And so he popped his head down and he left and then I think either right after that or shortly after that officer Brandt poked his head over and said hey you doin good back here and I said yeah. And I said what about I think I said what brought you all the way down from the hospital cause he's a hospital car at Sutter and he said I think he said Sunday's are overlap so I get to get out in patrol and I said oh ok. He goes yeah heard the call and came down. I said we appreciate it. I think that was about it.

Q: Do you remember if there were any other conversations that were had between you and any other officer prior to you completely shutting down your body worn camera other than the ones that we've already spoken about?

A: I don't know if my body cam was on or not and I don't even know what Sergeant it was but a Sergeant came back to that like three or four-foot fence line that separate the front yard from the back yard. And said you the only one back here I said yes he says alright no one is to come back here without my approval or Sergeants approval or the Lieutenant's approval and I said copy that. He left. I hung out a little longer. Another officer came back there or uh the other member of

the gang unit came back and said hey they want uh they want all of us to get back to the station and another officer came and relived me. I think that is it.

Q: Okay. I don't, I believe that was those were the items that we needed to to clarify but why don't we take a short break and then if we need to we can come back.

The following is a transcribed statement of the interview provided by Officer C. Hills #930 on 04/19/2018. The interview was video and audio recorded to a DVD. A copy of the interview was later booked into evidence. The transcription is not word for word. This transcription is meant for content. For a verbatim copy of the interview, refer to the DVD containing the video and audio recording.

At 15:42:27 hours, Officer C. Hills #930, Sacramento Police Officer Association (SPOA) Representative Michael Boyd, California Department of Justice (DOJ) Special Agent Terrence Brass and I, Detective T. Culp #858, entered the interview room located at 5770 Freeport Boulevard (HOJ). The following was stated;

BRASS: I'm going to run a tape recorder also.

BOYD: Ok.

BRASS: The time right now is 1543.

DET CULP: And I'm Todd Culp and this is Terrance.

BRASS: Yeah we met; we met Terrance Brass California Department of Justice.

DET CULP: My card if you have any questions. And Craig can I just get your name for the record?

OFC HILLS: Yeah Craig, C-R-A-I-G Hills, H-I-L-L-S

DET CULP: Mick.

MR. BOYD: Michael Boyd, B-O-Y-D, with the Sacramento Police Officers Association.

DET CULP: Alright, perfect, alright thank you guys for coming down here I just have a few questions. We all just watched the video so more or less the thing we are going to be talking about. Craig I just want to ask you a little bit of background as far as on March 18th. Were you working as a police officer in south Sacramento?

OFC HILLS: Yes I was.

DET CULP: Okay, and what were you doing that day?

OFC HILLS: So, I'm assigned patrol, I work sector 4's graveyard. We were in the middle of briefing at the time of the events and stuff. So, basically we wrapped up patrol, or wrapped up briefing real quick and headed down to the scene.

DET CULP: Okay. And were you wearing a full uniform?

OFC HILLS: Yes I was.

DET CULP: Driving a mark Police car?

OFC HILLS: Yes I was.

DET CULP: Okay, how long have you been a police officer?

OFC HILLS: Probably coming up on three years this June.

DET CULP: Okay, all three years with Sacramento?

OFC HILLS: Yes. Actually, I did a little bit in Elk Grove in training [redacted]

DET CULP: Okay, and when was that - what year was that?

OFC HILLS: 2015, I believe.

DET CULP: 2015, then when did you get hired on with Sac PD?

OFC HILLS: Oh sorry, okay so 2012 was Elk Grove, maybe 2013, and then 2015 I started academy with Sacramento.

DET CULP: With Sac PD? Okay.

OFC HILLS: Yeah.

DET CULP: Do you have any prior military experience?

OFC HILLS: Yes, I was in the Navy for 6 years.

DET CULP: Navy for six years, okay. How did the call come out?

OFC HILLS: So, I don't remember how the call came out, we didn't have our radio's on. We did at some point when we started hearing the helicopter was over head and honestly we were listening a little bit we

knew that there was something going on, we heard the beeper. And then obviously the helicopter at some point put out shots fired and that's when basically we all wrapped up briefing and started rolling out.

DET CULP: Okay. Were you riding by yourself that night?

OFC HILLS: Yes.

DET CULP: Okay, what were you thinking - what were the thoughts going through your head as you were responding that call?

OFC HILLS: Just initially was the concerns for the officers that were down there and what's going on. Because we knew, just real briefly, that... what that helicopter was putting out and I remember before I started rollin' down there that officer Robinet put out that all officer were okay so that helped slow things down a little bit but we just knew.. I knew that there was an OIS going on and...

DET CULP: And by OIS you mean?

OFC HILLS: Officer involved shooting, and they were going to need lots of bodies so that's where I was headed.

DET CULP: Okay, how do you know Officer Robinet?

OFC HILLS: So, I have been working the south area pretty much as soon as I went solo and I was assigned to Robinet's team so I've pretty much been working patrol with Robinet.

DET CULP: And what do you mean go solo? That you're out of training and you're, you know.

OFC HILLS: Yeah, still on probation but finished my training.

DET CULP: Okay, so ever since that time you've been working South Sacramento?

OFC HILLS: Mhm.

DET CULP: Are you on probation still?

OFC HILLS: No I'm off probation.

DET CULP: And by probation you mean the probationary officer...

OFC HILLS: Yes.

DET CULP: Okay, with the department. So, you know Robinet just from working around him.

OFC HILLS: Mhm.

DET CULP: Have you ever got to work on the same team together?

OFC HILLS: Yeah, we were assigned team 29; I believe it is, sector 5 swings for the last two years we worked together, prior to this year.

DET CULP: And then this year you work graveyards?

OFC HILLS: Yes

DET CULP: Okay. So did you recognize his voice as he was putting that out or?

OFC HILLS: Yes. I recognized his voice and I knew his identifier, you know, just from earlier in the year. Just picked it up being in the South.

DET CULP: Okay. So now I am going to get into the video

OFC HILLS: Mhm.

DET CULP: You come on scene and it shows you walking up. Now the video has about thirty seconds where you don't hear any, anything.

OFC HILLS: Mhm.

DET CULP: Is that typical on these body worn camera videos?

OFC HILLS: There is a thirty second delay and for that instance normally that would have been activated in the car, I just know prior to the thing was we were in a rush to get out the door obviously to get down there and help. I probably didn't turn on my body cam when I left the station so as soon as I got out of the car I realized I didn't have it on, turned it on, and got it activated.

DET CULP: So you manually turned your body camera on?

OFC HILLS: Yeah. And the...

DET CULP: Not the car from going Code 3.

OFC HILLS: That's correct.

DET CULP: Okay. So your camera, is it fair to say, was in the off position as you drove down there? Your realized, Oh I haven't even turned it on yet, turned it on, and do you have to do something else to activate it, or does just turning it on?

OFC HILLS: Yeah, you have to, I believe, double tap

DET CULP: So you double tapped it?

OFC HILLS: Mhm.

DET CULP: And then, that's when it starts rollin'?

OFC HILLS: Yes.

DET CULP: Okay. Now in that thirty seconds of audio it shows you are walking up and there's a older male, white, talking to an officer. Do you remember any...

OFC HILLS: So, yeah, I remember that, just, we... so, there's a lot of tape kind of everywhere, lines of tape. They were perimeters.

DET CULP: When you say tape, like the crime scene tape?

OFC HILLS: Yes.

DET CULP: Okay.

OFC HILLS: And so I, I, had stopped before the first layer of crime scene tape.

DET CULP: Right.

OFC HILLS: So as soon as I got in I noticed this gentleman was there and so I started talking to him. I said, "Hey what are you doing here?" because he was, you know, in line with the crime scene tape. He was like, "Oh I was just curious what's going on so I just started walking down the sidewalk". I was like, "you can't be here, I mean, do you know what happened here?" He's like,"no that's why I just wanted to see what's going on. And I said, "Well, no you, you, can't be down here and you need to go on the other side of the tape." And so that, that was that.

DET CULP: That was your interaction right there?

OFC HILLS: Yeah.

DET CULP: That brief thirty seconds?

OFC HILLS: Mhm.

DET CULP: Okay. Let's get to, you walk up, you see officer Robinet.

OFC HILLS: Mhm.

DET CULP: And you say something to the effect of, "how are you doing?" And he says, "I'm good".
OFC HILLS: Yeah.

DET CULP: Is that basically?

OFC HILLS: Yeah and that was it, I mean, we kind of... I knew what had happened, something had happened.

DET CULP: Did you know that officer Robinet was involved at that point in time?

OFC HILLS: I didn't, I had the suspicion that he was, because he was on the call, he was the one that put out all officers are okay so I had a feeling that he was involved and I knew we couldn't really talk about it so I'm just trying to get the feeling for how he's doing.

DET CULP: Okay.

OFC HILLS: So.

DET CULP: And then at one point he turned your body camera off.

OFC HILLS: Mhm.

DET CULP: What do you guys talk about after that body camera gets turned off?

OFC HILLS: Just the stress and you know whatever he's feeling at the moment that's just... like, I remember he had said some stuff about, you know, he was kind of getting stuff off his chest because he just went through the event but he said, you know, I swore it was a gun and he took, he took that stance. So I remember him saying that and then like I didn't have him talk anymore, I don't remember anything he said after that. It was more just... I could tell from dealing with him in the past it was affecting him and, you know, kind of was emotional about it. But that's all I can remember.

DET CULP: Do you remember about how long the conversation lasted?

OFC HILLS: I don't. I remember I was... If I recall, because I met with him twice that night and I believe that one other officers were around and we were kind of joking with him and stuff like that I remember.

DET CULP: Later on?

OFC HILLS: That may have been later on. Because I think that first one was really quick, I don't remember.

DET CULP: So I'll just tell you, based on the videos we just watched, your body camera turns off at 21:39.04 and then turns back on at 21:41.33, two minutes and thirty seconds later...

OFC HILLS: Mhm.

DET CULP: ...and your, that's when you see you're walking with I believe its officer Taylor or...

OFC HILLS: Right, yeah.

DET CULP: ... someone else other than, Robinet was not shown on your body camera and you were kind of walking towards another.

OFC HILLS: Mhm. So that was it, I just in with Robinet real quick seeing how he was doing and then I wanted to get useful as I could because you know they need lots of bodies so I started walking around. At some point I was, I think I was talking to Taylor about, hey what do we need, what's going on, do we have a canvas going on? That kind of stuff.

DET CULP: Okay so as... that kind of leads me into my next question. After you talked to Robinet for, we'll say, that two minute and thirty something seconds window about that...

OFC HILLS: Mhm.

DET CULP: ... then you walk off and your body camera reactivates, do you remember if you turned it on. How did that work?

OFC HILLS: I would had to have turned it on because he slid it off so I would have to slide it on and double tap it.

DET CULP: And then double tap it, okay it appears like you have that same thirty second or so previous where it's muted and then it goes live and then you immediately mute the camera after that.

OFC HILLS: Mhm, right.

DET CULP: What were you doing after that I guess?

OFC HILLS: So, most of it was really just trying to figure out what I could do to help people. So I was checking with different people, find out where they needed bodies, what I could help out with and I at some point I know I talked to Sergeant Bell because she was kind of coming on, or she was dealing with a lot of the stuff, so she took down my identifier because she knows I was working graves.

DET CULP: Mhm.

OFC HILLS: And she said something about going to the far end where I had originally parked to see if they needed anything up there. I started going there, at some point she came over the radio and said, "hey can you be scene recorder up there?" And so, I started getting paperwork and stuff like that together for that and after, I was still getting the paper ready to go and she came back over the air and said, "hey we don't need you up there, I didn't realize we have it down here so we don't need you there." So then, I walked back down again, started talking with Robinet again and that was just... we were just trying to talk and have a conversation, nothing in particular.

DET CULP: Did he tell you any specific details of the shooting, while you were speaking to him?

OFC HILLS: There was just that, that thing that I said about him saying, you know, I thought it was a gun and he took that stance at me but other than that I don't recall anything about... because I, I think I even had asked like, which house is the scene at? Because they at some point Sergeant Bell comes down and says, "hey I need a body and I offer up, and I end up getting placed in the backyard

DET CULP: Of the uh...

OFC HILLS: Where the incident happened.

DET CULP: Where the indecent happened?

OFC HILLS: Mhm. So I was there for most of the evening.

DET CULP: What time was that?

OFC HILLS: It was fairly soon, I want to say within half an hour of me arriving on scene I was in the backyard and I stayed there the whole time.

DET CULP: And was it just you in the backyard?

OFC HILLS: No, initially there was Officer Phillips back there as well, but he was swings. At some point he got pulled aside and I was back there. It switched a couple times, but I was back there and I think... I'm having a hard time remembering his name. He's another guy...

DET CULP: But there was another officer back there with you?

OFC HILLS: Yeah, sector 5, graves, I don't remember his, you know.

DET CULP: Was your body camera on while you were back there?

OFC HILLS: No. We got told to turn off the body cameras before we entered the backyard.

DET CULP: Okay.

OFC HILLS: So.

DET CULP: Is that, I guess, is that a standard procedure at that time? Is that a standard procedure to mute your body camera or turn it off?

OFC HILLS: For what I had, was familiar with prior to, because I was on another homicide prior to and yeah we have... we... when homicides kind of taking over the scene and everything we turn off all our body cam's.

DET CULP: Okay.

OFC HILLS: So, they handle everything. So, I was told before entering to turn it off. And that, so I just, that seemed familiar to me to I had it off.

DET CULP: Okay, Terrence. [Hand off to BRASS]

BRASS: Yeah, just two follow up questions. You said the second contact that you had with Officer Robinet. You remember any part of that conversation.

OFC HILLS: I remember like a little bit, like, because there was a few of us there I remember talking about where people where at some point somebody says, "We're all here because we care about you". And I shake my head, no, at Robinet, just joking because we worked together for a while and that was it and...

BRASS: Do you remember Robinet saying anything about the incident?

OFC HILLS: I mean I, I remember the incident but I don't remember when I heard about the incident so... but he did, like I said, he said, I know that he had chased somebody. He had told me at some point that he only thought he shot maybe six times but I don't... because, because I was in the backyard I don't remember if he told me that by the car or if that was because I watched them do their walk through. So I don't recall, because I think he does say... he tells me a little bit about the incident kind of coming off his chest but I don't remember the specifics because, you know.

BRASS: Alright, alright, and you said you made the reference 'we' was there more than one officer during the second contact that was present?

OFC HILLS: Yeah, I remember who all was there. I was there, Officer Antonetti, she was the one to ask the question initially and she was encouraging Robinet and, let's see, I don't recall all of who was there, so.

BRASS: Okay, perfect. Thank you, no further questions.

DET CULP: Alright, let's all take a break, unless you got anything? [Points at BOYD]

BOYD: No, I'm good.

Narrative Text Report # 12

Document: **07 SUBJECT STATEMENT**
Author: **3635 - CRUZ, MICAELA 0278**
Subject: **OFFICER HOWARD FOLLOW UP INTERVIEW**
Related date/time: **Apr-26-2018 (Thu.) 1035**

On 4/16/18 at approx. 1620 hrs I, Detective Cruz #0278, along with Department of Justice Special Agent Terrence Brass contacted Officer Howard and his Sacramento Police Officer Association representative Officer Michael Boyd at 5770 Freeport Blvd inside of interview room #4 and obtain Officer Howard's follow up statement. The following transcription is meant to accurately reflect the content of the interview. It is not a word-for-word interpretation of every word uttered. For the exact details please watch the video recording.

DET CRUZ: So I'm Micaela Cruz and then this is my partner..

BRASS: Terrance Brass California DOJ.

DET CRUZ: And then you are?

OFC HOWARD: Logan Howard, Sacramento Police Department.

DET CRUZ: Okay, and you sir?

BOYD: Mick Boyd with the Sacramento Police Department and Sacramento Police Officers Association.

DET CRUZ: Okay and...

BRASS: You said Mick?

BOYD: Mick yea.

BRASS: C-K?

BOYD: Michael, Michael is my first name, yeah.

BRASS: Oh Michael gotcha.

DET CRUZ: And then, I wanted to talk to you about the officer involved shooting that happened on March 18th. Can you please tell me where exactly you're assigned to work?

OFC HOWARD: I work patrol in sector six, on swing shift.

DET CRUZ: Okay. And were you working on the night of March 18th?

OFC HOWARD: Yes

DET CRUZ: And did you respond to the officer involved shooting?

OFC HOWARD: Yes.

DET CRUZ: Okay and part of coming in here you had the opportunity to review your supplement as well as your body worn camera footage. And so going back to the officer involved shooting I just wanted to speak with you regarding, once you got on scene at some point your body worn camera was muted.

OFC HOWARD: Yes.

DET CRUZ: Can you tell me why it was muted?

OFC HOWARD: Yes, for a personal conversation. The first time I had heard my former partner, one of my former partners from that area come up on the radio and say that all officers were okay, I saw him on scene so I muted to ask him if he was okay. I had no idea of h-his involvement at that point, but I muted to ask him if he was okay, if he needed anything. There were officers standing with him saying that he was his, his buddy, and I know from training that if you're in a critical incident, you get a buddy. So I knew his, he had some sort of involvement so I just wanted to make sure he was okay.

DET CRUZ: Okay, and who was that, that first office?

OFC HOWARD: The first officer I asked if he was okay was Officer Robinet.

DET CRUZ: Okay.

OFC HOWARD: And his buddy was Officer Tatanko. So-

DET CRUZ: Okay so the conversation between the three of you was, you were just checking on them?

OFC HOWARD: Yeah, I was checking on him the initial call came out as sector four, was in the incident, and I heard when I switched radio channels the sector five officer Robinet come up and say that all officers are okay, at that time I didn't know, I wasn't aware that he was involved in the incident, so it kinda things, as things were playing out I found that he had a buddy so I'm like okay he was, something happened so I'm going to make sure he's okay. So I went up to him and said, "Hey man are you alright? Everything okay? You good? If you need anything let me know."

DET CRUZ: Okay

OFC HOWARD: And I continued.

DET CRUZ: Okay, and then, a little while later, there again while your body camera was still muted, you were speaking with Sergeant Morris.

OFC HOWARD: Correct.

DET CRUZ: Can you tell me what, what that conversation consisted of.

OFC HOWARD: When I initially got into his area and presence he was still working some other things out w- wasn't talking to us, but there was a handful of us just kind of standing and waiting for assignments. I had heard over the air that he needed, he needed people to begin canvasing. So I went to the area that we were told to meet and waited for my assignment when, in the body cam. When I'm face to face talking to him he's giving me an assignment, on which houses to canvas in the neighborhood.

DET CRUZ: Okay. And then again, a little bit after that while your body camera still muted, you have another conversation with a different officer. With Officer Calabrese?

OFC HOWARD: Calabrese yes.

DET CRUZ: Calabrese.

OFC HOWARD: Yes.

DET CRUZ: Can you tell me what that conversation consisted of?

OFC HOWARD: Yeah I was on my way to do my canvas and he stopped and had said something about the license plates being attached. And I was like, "We usually voice a license plate over the air so it's connected to the call." But I was like "I don't know," and I was like "...go ahead and do it if you want." And he was like "Well I don't want to put it on the radio right now." And then, that was all.

DET CRUZ: Okay, do you know what license plates he was talking about?

OFC HOWARD: I don't, I would assume, we were standing in front of a car that had a broken window.

DET CRUZ: Okay.

OFC HOWARD: At that point I would assuming that he was talking about that one cause there was glass. I wasn't sure if he was speaking of those or just all the vehicles inside the perimeter. I didn't really clarify and I had another task so I wasn't going to get side tracked and do that. So I continued on my task.

DET CRUZ: Okay. And then there's one more conversation again while your body camera was muted that you had with Officer Lazaro.

OFC HOWARD: Mhm

DET CRUZ: Can you tell me about that conversation?

OFC HOWARD: Yeah I was just telling him that I was assigned to canvas the neighborhood and he was next to like a trailer in a front yard and I asked him, from what I recall was, if he was going to take that house or what. So from what I recall I obviously didn't go to the door so just from what I remember... I'm not one hundred percent sure but I asked him if I needed to do a canvas at that house from what I recall and I didn't really get a clear answer so I just said okay well I'll, I know I need to do these, so I did these houses. And that's when my cam, I was approaching the first house and I unmuted my body camera.

DET CRUZ: Okay, Do you have anything?

BRASS: Yeah, just, just a quick question. I had the same opportunity that you had to take a look at the body camera and when you initially spoke with or came in contact with Robinet and the other officer, I know you said you were just checking on them but do you remember exactly what was said, what you said what they said.

OFC HOWARD: I remember asking him if he was okay.

BRASS: Who is this you're talking about?

OFC HOWARD: Officer Robinet.

BRASS: Okay.

OFC HOWARD: Just like I explained, I had heard on the radio, "Shots fired from sector four." We're on a different channel than four and five, so when I switched over was when I was responding. And Officer Robinet came up on the radio and said "Just to be clear all officers are okay, we are not hurt." So it's like okay. He, something happened but sector four is involved so, that's what I knew at the time. And then I saw that his buddy was Tatanko; you're assigned a buddy during critical incidents. So I just, you know, I've known him.

BRASS: You're talking about Robinet?

OFC HOWARD: Yes. I've known Robinet you know since I've been here. So I just asked him I was like "hey are you okay?" I knew better than to ask him about the specifics of the incident. So I know for a fact that it was nothing involving what had gone on. It was just checking his welfare and I do remember thinking about that. I'm like okay everybody is curious, they want to know what happened but I know I can't ask him. So I guess all I remember was saying "Hey man are you okay" "Yeah man yeah good I'm good." "Hey is there anything I can do? What do you need you sure you're good I'm like..." You know somethings, you know it's a big... a big scene.

So that's, that's really all I recall. So you know like I said, I'm newer but I do know better than to have those conversations on this sort of scene, with anybody involved, or anybody in general.

BRASS: Okay, Alright

DET CRUZ: Okay, do you have anything else?

BRASS: No that's it.

DET CRUZ: Do you have anything to add?

BOYD: No thank you.

DET CRUZ: No? Okay. Okay, why don't we take a break, and then if we need to we'll come back.

BRASS: And I'll leave my recorder on.

BOYD: So it's on and running?

BRASS: It's on and running.

Document: **07 SUBJECT STATEMENT**
Author: **3793 - CULP, TODD 0858**
Subject: **OFFICER S. PITTS #990 FOLLOW UP INTERVIEW**
Related date/time: **Apr-26-2018 (Thu.) 1312**

The following is a transcribed statement of the interview provided by Officer S. Pitts #990 on 04/19/2018. The interview was video and audio recorded to a DVD. A copy of the interview was later booked into evidence. The transcription is not word for word. This transcription is meant for content. For a verbatim copy of the interview, refer to the DVD containing the video and audio recording.

At 15:42:27 hours, Officer S. Pitts #990, Sacramento Police Officer Association (SPOA) Representative Michael Boyd, California Department of Justice (DOJ) Special Agent Terrence Brass and I, Detective T. Culp #858, entered the interview room located at 5770 Freeport Boulevard (HOJ). The following was stated;

DET CULP: Alright, Just for the record I'm Todd Culp, there's my card, you can get ahold of me anytime. This is Terrance Brass, he just introduced himself, and so he's from the Department Of Justice. And just for the record, your name?

OFC PITTS: Steven Pitts.

DET CULP: Steven Pitts, and Mic?

BOYD: Boyd, B-O-Y-D.

DET CULP: And Mic you're with SPOA?

BOYD: Yes.

DET CULP: Alright. Alright Steven so you just got the opportunity to watch your body worn camera, kinda what we are going to talk about today. Just to get a little bit of background before then, how long have you been a police officer?

OFC PITTS: Just under two years.

DET CULP: Have all two years been here, at the Sacramento Police Department?

OFC PITTS: Yes.

DET CULP: Do you have any prior military experience?

OFC PITTS: No.

DET CULP: Okay, on March 18th, of this year, can you just kind of explain to me what you were doing? Here at the police department.

OFC PITTS: I was at the hospital taking a report. While at the hospital on the phone updating my Sergeant on my reporting I was currently taking when I heard that this incident, officer involved shooting was going on. I got in my car and starting driving code three towards the location that they had on that.

DET CULP: Okay. As a hospital guard what are your normal hours?

OFC PITTS: Oh I'm not a hospital guard I was just at the hospital.

DET CULP: Oh you were just out at the hospital?

OFC PITTS: Correct.

DET CULP: What shift were you working?

OFC PITTS: Swings.

DET CULP: Swings and what sector?

OFC PITTS: Sector five.

DET CULP: Sector five swings okay. And did you hear the, the call come out over the radio or did you hear from your Sergeant on the phone?

OFC PITTS: Through the phone my phone was off being inside the hospital.

DET CULP: Being inside the hospital you couldn't get radio signal?

OFC PITTS: So I turned it off.

DET CULP: Okay, Okay so and you heard through the phone?

OFC PITTS: Correct.

DET CULP: Do you remember what time that was?

OFC PITTS: 9ish.

DET CULP: 9ish okay and then you respond code three to the incident right?

OFC PITTS: Correct.

DET CULP: Okay. Kind of walk me through once you get on scene what goes on.

OFC PITTS: Once I get on scene, I'm not sure what the exact house is, I'm not sure where I'm needed. Air gets overhead and I see there's a lot of people already kind of going in different directions on the scene so I get there for scene security. And he says we need somebody to block off an area which was right next to me so I moved my vehicle and took position and tried to take that area.

DET CULP: And so you get there you block something off and then at some point you mute your body worn camera. Do you recall muting it or do you?

OFC PITTS: I do recall muting my camera.

DET CULP: Okay, why did you mute it?

OFC PITTS: I was on a perimeter basically at that point and I wasn't really doing a canvas or anything or talking to the public or doing anything relative to the investigation besides securing the scene.

DET CULP: Okay and I'm going to back up just a little bit. As you respond to the incident was your camera already on, was it...how did it come on do you remember?

OFC PITTS: I believe my camera was already on due to me taking a report inside the hospital.

DET CULP: So you're doing whatever in the hospital your camera is going, you hear that it's going and then you respond.

OFC PITTS: Correct.

DET CULP: And your camera continues to move, to record? [Pitts nods] Okay there's a point in time you contact Officer Mercadal. How you know Officer Mercadal?

OFC PITTS: We work together, we're friends, academy classmates.

DET CULP: Okay so you guys were in the same academy? And h-he's on your team currently?

OFC PITTS: Correct.

DET CULP: Okay. Do you guys work the same beat or do you have different beats or how does that work?

OFC PITTS: We work the same beat.

DET CULP: Same beat. Okay so he's your beat partner?

OFC PITTS: Correct.

DET CULP: Okay. Now when you walk up to Officer Mercadal what do you guys talk about?

OFC PITTS: I don't really recall if I talked to him. I think, I do recall in my head trying to think, how do I console someone that's in a situation like this right now that's been involved in a shooting.

DET CULP: Did you know he was involved in the shooting? At the time.

OFC PITTS: I heard over the radio, the updates and stuff like that so I assumed

DET CULP: You assumed but you didn't have any direct knowledge that he was one of the shooters or involved in the shooting.

OFC PITTS: Correct.

DET CULP: Okay, how long were you standing with Officer Mercadal would you say?

OFC PITTS: An estimate a couple minutes.

DET CULP: A couple minutes, and then what did you do after that?

OFC PITTS: I was, I remember, I recall having to keep my eye back and forth because I had that perimeter I was in charge of so, basically I was just, more of my focus was like to have a job to do but also that's my buddy right there so, that's all I did.

DET CULP: Did Officer Mercadal tell you any specifics on the shooting at that time?

OFC PITTS: I don't believe we talked at all.

DET CULP: Okay. Terrance you got anything?

BRASS: You say you don't believe, you don't believe or you don't remember if you guys talked.

OFC PITTS: I don't recall talking at all, I don't believe that we talked, because after watching my video there was no conversation that comes to mind.

BRASS: Okay alright. That's it.

DET CULP: Alright cool.

BRASS: This tape recorded is going to be on but I know you guys are not going to be in here.

Q: Okay.

A: 40 Caliber.

Q: Okay. And do you carry any backup weapons?

A: I do not.

Q: Okay. Can you please describe for me the items that you carry on your duty belt?

A: Yes. By starting up front I carry my spare car keys here, my double handcuff case with two sets of handcuffs in it, my holster with department issued Sig in it, my - on my back here is a 20 round rifle magazine holster in there and keys - just kind of the department issued keys to all the areas in the City. Up front two spare 12 round 40 caliber magazines for the Sig, my expendable baton, my Taser department issued CED, flash light; my radio is behind that and all the way in the back here is a tourniquet. So I got a lot of stuff goin' on.

Q: Okay.

A: Yeah.

Q: And then I noticed you have something in front.

A: This is typically where my body worn camera is attached (pointing to magnetic plate located on front of uniform shirt).

Q: Okay. And then what are your days off?

A: My days off are Monday, Tuesday, Wednesday.

Q: Okay. And what shift do you work?

A: Swing Shift.

Q: Okay, and who is your Sergeant?

A: Sergeant Bullard.

Q: And tonight what was your unit identifier?

A: Tonight my identifier was 1 Charles 57 (1C57).

Q: Okay, and what area does that encompass?

A: That encompasses 5C which is really kind of encompasses the south end of Sector 5 all the way down do the Elk Grove border and border's up with Sheriff's Department territory on Stockton Boulevard.

Q: Okay. And where were you when you heard the call?

A: I was - when I got dispatched to the call I was leaving another shot spotter call which I believe was on Stone Valley Circle. So we were coming from that call. I want to say it was [redacted] Stone Valley Circle is where we were responding from.

Q: Okay. And were - was the information was it a call that was sent to your MDT or was it broadcasted over the radio?

A: The call initially was broadcasted over the radio. It was kind of a Code 12 which basically meant that there were no units available to initially respond to the call. I apologize actually I think they had cross sectored somebody from Sector 4 to go take care of the call for service which was a 921.

Q: Okay.

A: Which is a car clout or a car break in in progress.

Q: Mm-hm. Mm-kay, and when they had broadcasted the call do you recall what - what information was being transmitted?

A: Yes, per the text of the call there was an active 921 in progress apparently a su- subject had been breaking car windows on 29th Street. I don't recall the exact address for it breaking into car windows but apparently this person had broken multiple car windows. He was confronted by the complainant or neighbors who chased him into a backyard on 29th Street which they believe he was still hiding in one of those backyards. And they described a male black wearing a black hooded sweatshirt, dark pants and they couldn't describe what tool or object he used to break the windows.

Q: And you had mentioned that a unit for Sector 4 had gotten cross-sectored dispatched to that call.

A: They had. They had initially gotten cross-sectored and Officer Robinet 1 Charles 54 (1C54) and myself decided to cancel them so they didn't have to come all the way across into Sector 5 and we decided we were going to go handle the call.

Q: And then what happened?

A: We get dispatched to the call, Officer Robinet was in front of me driving in his Crown Vic, I followed behind him. We approached the scene, we pulled from - we pulled down heading west on Meadowview and then we went north on 29th Street. And then we - I believe he parked on the west side of the street, I parked on the east side on the street of where the - which is the residence was on the west side of the street of where the suspect had apparently been hiding in the backyard.

Q: Okay.

A: Yeah.

Q: Do your recall the address?

A: I do not recall the address. I know it starts with [redacted] and then the numbers are a blur- after that maybe [redacted]. I'm not quite sure.

Q: Okay, do you remember the name of the street.

A: It was 29th Street.

Q: Okay.

A: Yeah.

Q: Do you think if I were to show you a map you'd be able to point out the - the residence where you responded to?

A: Yes.

At this time Detective Cruz shows Officer Mercadal a Google map of the area

Q: Okay. So I'm going to show you a Google Map. It's not to scale. But this is a Google Map of the - of the area. So that's Meadowview there. And then that's 29th there.

A: Okay - okay, the residence was north of Ellwood Avenue. I believe it's going to be this one here with the shed. I remember specifically there was a shed in the corner that I end up checking. Yeah, it was this one here (pointing to [redacted] 29th St on the Google map).

Q: Mm-kay. And what happened after that?

A: So as we were arriving on the scene we had - we were receiving updates from STAR which is the Sherriff Department's helicopter giving us updates about him checking the area, looking for heat signatures, looking for the potential suspect. From what STAR had broadcasted that he had checked this yard and he did not recognize any heat signature that he observed to be human (pointing to [redacted] 29th St on the Google map). He recognized that there were large K-9's in the backyard. Officer Robinet and I went and made contact with the resident - the homeowner and advised her of what was goin' on and asked if we could check her backyard to ensure that there were no suspects or anybody hiding back there who wasn't supposed to be there. She allowed us access. She put her dogs into the garage and Officer Robinet and I went back through the backyard through the south end of the residence through a side fence. We walked in, we made a tactical approach, tactically cleared the back yard, there was a shed that was in the south west corner of the residence of the backyard that we checked. We determined it was locked and then we proceeded to leave out of the yard. While we were at the front door talking to the resident STAR had broadcasted that he believed there was a suspicious vehicle that was in the area possibly in this parking lot here in the - near the field that he felt could possibly contain somebody (pointing to a vacant lot to the east of [redacted] Meadowview Rd).

Q: Okay.

A: And so our plan was after we left the backyard we were going to get in our patrol cars and drive around and check out that suspicious vehicle.

Q: And so what happened after you left the - the rear of the residence that you were checking?

A: As we were leaving we both began to approach our cars to go check on the suspicious vehicle. STAR had broadcasted that he sees a subject - he - he saw a subject in a backyard of a residence approximately two houses south of us. So Jared (Ofc. Robinet) and I both came out - out in the street and we're trying to take a look and see what - exactly what area he was referring to. I remember we both were slowly kind of walking and approaching trying to determine, you know, what house he was talkin' about, see if we saw anybody on the street, really just trying to get our bearings and STAR broadcasted that the suspect or subject was - he gave us an address - was in the backyard of [redacted] He said he saw the subject, looks like he was attempting to break into another car. He couldn't see what the subject was using to break into the car. He couldn't see what was in his hands. And he was giving us - kind of directing us exactly where to go.

Q: Okay.

A: We began making an approach. STAR advised the subject was running south and sounded like he was jumping fences. He said, "He looks like he's running south jumping fences." So Robinet and I began running south on 29th Street attempting to parallel him and potentially cut him off. And STAR began to give a description of the house that the subject was at. He said [redacted] in the backyard and then he began describing that there was a series or a set of cars that was along the north side of the residence that it looked like the subject was breaking into. I believe it might've been right here (pointing to [redacted] 29th St on map). I - yeah, so I approached the north end of this house - this residence and then kind of looking down this driveway on the north end of the residence is - it's very dark back there. There's a couple of vehicles kind blocking my view. There was a dark colored SUV or Suburban that was all the way to the west of, like, the furthest one on the side of the house. And I saw a male black adult with a black hoodie sweatshirt pulled up over his head standing behind that vehicle. I gave him loud verbal commands to let me see his hands because I could not see where his hands were. After saying that he turned around and began running westbound and then turned south into the backyard out of my line of sight.

Q: Okay.

A: Yeah.

Q: And then what happened?

A: I - as we were - Officer Robinet that I had - I spotted the subject back there and I began to chase after him. I think I attempted to broadcast that he was running south. I don't know if it went out or not but I attempted to say it. There was kind of a narrow - narrow path between the northern side of the house and the vehicles that were parked there so I remember going in between the vehicles and the narrow edge of the house then there was a small wooden fence about hip height that had an opening kind of north of the residence. So I went around the car, went around the fence and then started kind of goin' around the back yard. I - I had lost sight of the subject so I kind of attempted to slow down and I tried to pie around the corner or slowly tactically go around the corner. When I come around the corner - the corner of the house - I - I left cover and I look and I see that same subject with his hoodie and sweatshirt pulled up and his arms pointed out extended like this.

At this point Officer Mercadal, from a seated position, extends both arms in front of him at chest level and appears to take a shooting position

A: At which time I looked and based on the light coming off of my - my tactical light it appeared I thought that he had already shot at me because I saw what I believed to be a metallic reflection or muzzle flash - something coming at me. So I - I was scared. I thought that he had shot at me. I think I remember yelling, "Gun," and I ducked back

behind the corner of the house for cover. By this time I realize Officer Robinet was there next to me on my left side and for a second I though my - I had to kind of get my bearings and like, "Did I see what I thought I saw?" And I poked my head back out around the corner way further than I should've put it out there and I see that the subject is advancing towards us.

At this point Officer Mercadal, from a seated position, extends both arms in front of him at chest level and appears to take a shooting position

A: And I see that same bright metallic shining of the light in his hands and I though he had - was approaching and shooting at us. And so I remember ducking for cover. I - I ducked, grab cover behind a corner of the house and then I remember kneeling down on my left knee and returning fire because I believe we're being fired upon. And I believe I fired - - what - ten times and we saw the subject go down and we began to give him, you know, kind of verbal commands for us to, you know, for him to show us his hands. He wasn't moving anymore but we could only see his right hand. His left hand appeared to be kind of tucked in under his body. So...

Q: Okay. And then what happened after that?

A: After that we're broadcasting the updates I remember I believe I had broadcasted there were shorts fired and I said the subject was down. We were putting out pertinent information as to where we were, how to access us. I believe STAR was also directing units in the area come - come out. I do remember telling everybody that we're - that no officers were hit, we're okay. Advising the subject was down. We couldn't see his hands. And then I remember additional officers arriving on scene I believe it was Officer Taylor and Officer Trujillo arrived on scene and we kind of set a - stayed behind cover attempting to give the male more verbal commands. Then I believe Sam 5 - which was Sergeant Morris - arrived and the decision was made to make a contact to go apprehend the subject and we all made a tactical approach and I remember, you know, I think Sergeant Morris and I'm not sure who else went hands on. I remember taking out my handcuffs and placing my handcuffs on the subject, bringing him over and the decision was made to start doing CPR - life saving measures.

Q: And do you recall who performed CPR?

A: I believe Officer Taylor began performing CPR. I went to put my gloves on, I went to go get a rescue mask and then I remember that I was - I recall somebody else saying that they were goin' back there to take care of it - to get a rescue mask. I began to assist with CPR. And then walkin outside, I see that the Fire Department and ambulance got there relatively really quick. And then they went to the backyard to start their deal.

Q: I want to go back to when you first arrived on scene.

A: Okay.

Q: When you first arrived on scene did you - did you locate any of the - the vehicles that had possibly been vandalized?

A: I had. We actually spoke with one of the complainants on 29th Street. I believe he was on the east side of the street. He had contacted us and told us that he had chased the subject away. He had chased him into the backyard. He's pretty sure he was in that - in this back yard that's on the west side (pointing to [redacted]29th St on the Google map). He pointed to the vehicles that were kind of down near closer towards Ellwood. I did recall seeing two vehicle windows smashed out and glass on the ground. I believe the driver's side windows of both vehicles had their windows smashed and broken out and I could see the glass reflecting off the light in the street and, you know, I remember saying to him like - I kind of had to come back and start taking the relevant information for a report that on.

Q: Mm-kay.

A: Yeah.

Q: And then I want to go to after STAR had given you and update about the subject t- seeing the subject in a - a backyard just south of you. And you arriving to - to the residence where you saw the suspect. What type of lighting was there in that area?

A: Well in that area it was extremely dark. There was street lighting on 29th Street but as you know street lighting it kind of scattered around. So when we approached this residence the residence was dark, didn't appear that anybody was awake at all. There were no lights on at the house, there were no lights on the front porch, no lights in the backyard and it was kind of in a shadowy area where there were no street lights illuminating anything. And it was - it was extremely dark back there. So I remember having to illuminate - I had my - I did have my - my gun out just based on not knowing what's going on, information that I received from STAR that he didn't know what kind of weapon the person had in his hands. And I remember accessing the taclight on my weapon in order to kind of illuminate the area where I'm looking.

Q: Mm-kay.

A: Yeah.

Q: Did you also use your handheld flashlight?

A: While I was walking down the street, yes, I did. I - there was a point in time where I had holstered my gun and I brought my flashlight out. My - I wanted to use my department issued - the Pelican flashlight because it's pretty bright. And I had that in my left hand and I was kind of using that to,

shine light around so I could kind of see what was going on, see what, you know, STAR was talkin' about. Apparently STAR had given us information that the person was running towards the front of the house and I was like, "Well I don't see anybody. I don't know what he's talking about." So...

Q: Mm-kay.

A: Yeah.

Q: And so I want to go back to when you're standing at the residence where you see the suspect. You had mentioned that you had said something to him, what, what was it that you had men- said to him?

A: I had given him verbal commands to show me his hands.

Q: Okay. Did you give him any other commands?

A: I remember once he began running I remember yelling, "Stop." And then, "Let me see your hands," I believe was another phrase I had used.

Q: Did you ever identify yourself as a police officer?

A: I don't - I'm not quite sure if I had - if I did.

Q: Okay. And then once you were in the backyard can you describe for me the lighting in the backyard?

A: There was no lighting in the backyard, no rear porch - no back porch light, no lighting of any kind from the neighboring residences. All I recall is pitch black in the backyard there and the only light that I was able to use was my taclight on my firearm and then also in the background I could see STAR goin' around. It's his overhead light but his light was in a different area. It wasn't in the backyard where we were.

Q: Mm-kay.

A: Yeah.

Q: And can you - can you demonstrate for me the position that you saw the suspect in one you came around the corner?

A: Yeah. Sure. He was...

Q: You can stand up if you have to.
A: Okay.

Q: Or you can...

A: Yeah, okay. So he was - so as I rounded the corner- kind of the direction that you are in. I recall that he was kind of sucked up close to the east side of the building or he was closer to the side if the building. And I think there was some kind of table or bench to the left side like a wooden picnic bench or something. And I remember seeing him standing like this when I first come around the corner he's standing like this.

At this point Officer Mercadal is standing with both arms extended in front of him at chest level and appears to take a shooting stance

A: And that's - at the time I thought I saw a muzzle flash. I was scared - I was like, "Oh my God this is he's shooting at me." The second time I come back around he had advanced and moved up. He wasn't in that same position he was in. Looked like he was moving forward like this.

Again at this point Officer Mercadal is standing with both arms extended in front of him at chest level and appears to take a shooting stance

A: So that's when I took cover and returned fire.

Q: And so the - the first time you saw him with his arms extended what - what was going on in your mind? What were you thinking?

A: I - the first thing I thought I was like, "Wow that was stupid of me to come around the corner that fast," you know and - and I remember thinking, I'm like, "This guy's freaking shooting at," I was like, "Is that a gun? He's shooting at me." And it was kind of surreal. It was almost like slow motion and I was like, "This dude's freaking shooting at me. How am I - he's really shooting at me." And so I remember, you know, "Get out of the way, dummy." That was my first instinct and kind of ducking around and then Jared (Ofc. Robinet) had kind of taken a way better position than me and kind of kept himself on the corner and then he ducked back and I remember him ducking forward again the same time I ducked forward to kind of reaffirm what we saw. And then again that's when I noticed the huge gap that the subject had made. You know, he had moved - I don't know- maybe possibly 10 feet or more up towards us. And I remember ducking back behind cover like, "Oh shoot, you know, he's shooting right now. He's approaching." And I thought he was shooting at us so I don't know. Something kicked in and I just - I knew that Jared (Ofc. Robinet) was standing up at the corner and obviously I wasn't going to stand right next to him so I just kneeled down beside him and kind of came out to the side and returned fire from cover.

Q: Are you injured at all?

A: I got - I got some cut or scrape on my forearm here. I don't know where it came from. Maybe from running by the fence or something or the wall. I'm not quite sure but, yeah.

Q: Okay.

A: But other than that that's it.

Q: Okay. And then when you were - were firing what were you aiming at?

A: I was aiming at the subject. I remember he was close to the residence. He was just on the east side of the house. And then he started to move out west away from the house towards the fence line. And I remember kind of trailing him as he started to move that direction and then he finally went down.

Q: Can you tell me what - what the background looked like?

A: The background was - was extremely dark. There was - south of that residence there was a house and you could see obviously the wooden fence behind there and the - the residence there. But the fence line to the west you could see through the gaps in the fence that it opened up into a - a open field. Other than that the grass was extremely tall. He was under a - an awning like an overhang awning which was directly protruded out from the house probably seven, eight feet or something like that. So he was at - at the awning and I just remember seeing how tall the grass was. The grass - the backyard was really unkempt.

Q: And then did you intend to shoot the subject?

A: Yes, I did.

Q: Okay. And why?

A: I was in fear for my life. I thought he was already shooting at me. So I wanted to return fire to stop the threat.

Q: And going back to your body worn camera were you wearing it at the time?

A: Yes I was.

Q: Okay. And was it turned on and recording?

A: It was - it was activated and recording.

Q: Okay. Have you attended CPT yet this year?

A: Yes I have.

Q: Okay. What about last year CIT training?

A: Yes I did.

Q: Okay. Are you 11550 trained?

A: Yes - yes.

Q: Okay, did - did this subject exhibit any symptoms that you could've perceived as possibly the subject suffering from mental health issues?

A: I was unable to determine any of that. It was extremely dark. When I initially gave him a command to show - show me his hands he attempted to run and fled from me. I never heard him say a word or anything nor did I even get a good look at his face to see, you know, his mental status or if he was under the influence or anything. Everything moved really fast.

Q: I want to go back to - to when you and Officer Robinet were in the backyard. When - when the subject was down on the ground what were - was there any type of conversation between you and Officer Robinet pertaining to after force care?

A: After the subject was detained we did talk about medical aid. But when it was just Officer Robinet and I...

Q: Yes.

A: When it was just Officer Robinet and I we stayed behind cover. Directly after the firing I remember after we put out our pertinent radio traffic Officer Robinet advised me that he would cover down range for me while I performed a tactical reload which I did perform a tactical reload to make sure I had adequate ammunition in case the gun fight continued. I then took Officer Robinet's position so he could perform a tactical reload and we were waiting for additional units to arrive on scene. I don't recall Officer Robinet and I talking about after care for him at that time until after we had performed a contact team to talk about getting help. I remember saying to the subject that we wanted to, you know, make sure that he was okay or try to give him some help but he had to let us know what was going on with him so.

Q: Okay. And did he respond to any of those questions?

A: He did not.

Q: Okay. Do you have any missing gear or equipment particularly a cell phone that might've been left behind?

A: No, I do not.

Q: Okay. I think is a good time to take a break. Mm-kay.

A: Mm-kay.

Q: So.

At this time Detective Cruz, Officer Mercadal and Zeb Davis exit the interview room. At approx. 0426 hrs Detective Cruz, Officer Mercadal and Zeb Davis reenter the interview room

Q: I want to go back to when you're arriving on scene.

A: Mm-hm.

Q: So you're - you're on scene for this 921 - for this - this car clout, car burglary and STAR is giving you several updates.

A: Yes.

Q: At any point did STAR give you an update indicating that the subject's be- behavior had changed?

A: Yes. From - initially - and this is all in the matter of less than a minute we're getting these updates. Star had advised that he spotted the subject in a backyard two houses south of us which is the primary residence we were at, we checked, that backyard was clear. He said two houses south of us. As we began to kind of jog up to where he was talking about - he - I heard the update from STAR that the subjects started running so his behavior changed. He started running south and so we're thinking, you know, he's running from yard to yard, he's going different directions I remember there was a point when STAR had advised that subject was attempting to break into another car and there was something in his hands. He couldn't see what was in his hands. I remember that pretty clearly because I was like, "All right well what's- what does he have? You know, is it a led pipe, is it a, you know, is it a gun. Is it like - what is he braking car windows with, you know. It's maybe it's a I don't know what he's - what he's breaking car windows with. So I remember hearing that

behavior and then, uh, STAR advised, "He's trying to get into another car," and that's when STAR gave the direction of what house he was at. The north side of the house there were some cars that were in the kind driveway, alleyway I believe up to the north end of the house. And I remember looking and then looking deep back into the backyard west and seeing him behind a car - just the top half of his body. And then from there that was - that was as far as the behavior changes I saw and then he takes off running so.

Q: Prior to STAR broadcasting that the subject was running south had STAR mentioned what the suspect may have been doing in the backyard?

A: I believe STAR had said the subject was - he had - was - he said he's got a subject - he said, "I've got somebody in the backyard," said he looks like he was looking around or snooping around. That's kind of all I really remember.

Q: Okay.

A: Yeah.

Q: Okay. And then when you first arrived on scene do you remember the update that STAR had given you?

A: Yeah, I remember STAR had given the update that he initially had checked the area. He had initially checked the house that we were - the primary call for service that we were at that residence and he didn't see any heat signatures there. And he began kind of having a wider circling pattern. I remember seeing that. He was looking for, you know, anybody hiding in backyards and initially he didn't see anything. He broadcasted he saw that suspicious vehicle in the field to the west that might be worth taking a look at. And - those were kind of the updates we heard until after we cleared that yard and we'd come back out and tell him, "Hey, we're going to go look at that car," that's when STAR said, "Hey, I actually have somebody, you know, in a backyard two houses down from you - south of you." So...

Q: Mm-kay.

A: Yeah.

Q: Do you recall if at any point STAR had broadcasted that the subject had broken a window at a residence?

A: I recall that STAR had said the subject had broken a window. I don't know if it was at a residence. I believe he had said that a car - a car.

Q: Okay.

A: That's what I thought.

Q: Okay. Well I think this concludes the interview. Do you have anything to add?

A1: I have no questions.

Q: No questions, okay.

A1: I'm good.

Q: Okay, good. Okay.

A1: Mm-hm.

A: Thank you.

Q: Thank you.

Subject: **(SUBJECT #23) SHARMA, RAHUL**
Related date/time: **Aug-09-2018 (Thu.) 850**

On 4/5/18 at approx. 1408 hrs I, Det. Cruz #0278, and Department of Justice Special Agent Brass contacted Probation Officer Rahul Sharma at 5770 Freeport Blvd in Interview Room #4. The interview was audio and video recorded. This interview was transcribed. For a verbatim statement see recording. The following is a summary of the interview:

Q=Detective Micaela Cruz
Q1= Department of Justice Special Agent Terrence Brass
A= Probation Officer Rahul Sharma
A1= Sacramento County Assistant Counsel Rick Hayer
A2= Attorney Christopher Miller

Q: I just wanted to thank you for coming down. We really appreciate you coming down and speaking with us. I'm Micaela Cruz and then this is my partner.....

Q1: Can I turn on my recorder on?

Q: Yeah.

Q1: The time right now is 1408.

Q: So again, I am Micaela Cruz. I'm with the Sacramento Police Department and then.....

Q1: I'm Terrence Brass, Special Agent California Department of Justice locally here. You've probably heard on the news the Attorney General's office is doing an investigation as well.

Q: And what's your name sir?

A: Rahul Sharma.

Q: And your with?

A: The Sacramento County Probation Department.

Q: Okay. And you sir?

A1: Rick Heyer, H-E-Y-E-R I am a supervising deputy county counsel with the County of Sacramento.

A2: And Chris Miller. Counsel for Mr. Sharma.

Q: So I'm just going to start with just getting a little bit of background information pertaining to you so you work for the Sacramento County Probation Office?

A: Right.

Q: Okay in what capacity?
A: I'm a Deputy Probation Officer.

Q: And how long have you been a deputy probation officer?

A: I've been a deputy probation officer I wanna say maybe two years.

Q: Okay.

A: Yeah.

Q: Okay and so it sounds like you've been in that assignment for the last two years?

A: In the field for two years and previous to that I was an assistant and on call with the juvenile detention center which I started in 2011.

Q: And currently what facility are you located at?

A: At the Florin-Perkins office.

Q: And what are your normal work days and hours?

A: I work a schedule which is 9-80's. So I work 7am to 430pm Monday through Friday with every other Monday off.

Q: And then just on average it doesn't have to be exact. On average about how many people do you supervise at any given time?

A: I would say between thirty and forty.

Q: And is Stephon Clark one of the people who is assigned to you for supervision?

A1: And I'm just going to jump in right here. I know I've expressed this prior but now for the record it's the county's position that information related to adult probationers is confidential and is made confidential by penal code section 1203.05. I believe that you do know that Mr. Clark was on probation. We've provided you with a screen shot of the text so I don't have a problem with Mr. Sharm answering yes or no whether he was on probation but information that would live in a probation file as I previously indicated we believe is confidential and you will have to get a court order to get that.

Q: Okay so am I, am I okay to ask if.....

A1: I don't have a problem with him answering the question was he your on probation or not and was he the probation officer. Past that I believe it's going to be confidential.

Q: Okay so if I were to ask you to tell me a little bit about Mr. Clark would you be able to tell me that in terms of, of his character?
A1: I believe that's exactly the kind of information that's going to be confidential because Mr. Sharma would have learned it through his role as a probation officer.

Q: Well I'm specifically speaking to his character during their interaction. Not specifically what's in the file but more about how he came across how he carried himself during the interactions with Mr. Sharma.

A1: Totally understand and that's exactly what I was suggesting is that raw definition of a probation file. The interactions that Mr. Sharma would have had with Mr. Clark would have only happened because their a probation officer and a probationer and so any impressions that he had formed about Mr. Clark or did not form about Mr. Clark, any contacts that he had with him say for this window of time regarding the text messaging would be probation information and therefore its confidential and I should say that the distinction that were drawing is that there is....the chance that Mr. Sharma was a percipient witness because of the text message to some instant to some material that may be relevant to the events of the weekend of Saint Patrick's Day but events prior to that again, vary from the what kind of character he was or wasn't to what kind of probationer he was that's confidential.

Q: Okay so I just wanted to let you know that we do have Mr. Clark's cell phone and that it has been sent off to be downloaded so all of his communication whether it be any sort of application, text message, telephone calls will be downloaded so just so you know we're at some point we're going to be receiving that information. So you, you address specifically text messages on a cell phone so.

At this time Detective Cruz provides a copy of the photograph of the text message screen shot from Probation officer Sharma's work phone to Probation officer Sharma, Assistant County Counsel Rick Hayer, Counsel Chris Miller and Special Agent Terrence Brass

Q: I believe, give one, they're all the same. So I'm just going to ask you a few questions regarding this. So this is a photograph of a phone and on the screen depicted is some text messages and can you tell me is this or whose phone is this?

A: This looks like, it's my phone.

Q: Is it a business phone or a personal phone?

A: It is a business phone.

Q: Could you tell me the phone number please.

A: [redacted]

Q: Okay and on this phone do you conduct any personal business or, any personal yeah business or is it strictly for business only?

A: This is business only.

Q: And then who has access to this phone?

A: I do and I believe the County.

Q: So....

A1: And I (unintelligible) specific on that when he says that, the County, he means Probation.

Q: I guess what I'm trying to ask is, is it possible that another probation officer has access to this phone and can use it to conduct any type of communication or business on it?

A: No.

Q: What is your common practice in terms of the phone during the week?

A: When phone calls come in answer it, emails, connecting the internet to my laptop computer in the car doing field business and that's pretty much it.

A2: And just to clarify when you said the week you mean the work week.

Q: The work week yes Monday through Friday.

A1: Business hours.

Q: Yes and then what about after hours?

A: I...I'm not required to answer the phone or pick it up or respond.

Q: Okay do you after hours and on the weekends do you carry this phone with you or is it left at the office?

A: Sometimes I leave it and sometimes I take it.

Q: And what about specifically speaking to the weekend of Saint Patrick's?

A: I had it at home.

Q: Okay. And in this photograph, if you can see, it looks like a contact. A contact was created cause it shows the name Stephon. Was he or did you create a contact for Mr. Clark in this phone?

A: (looks over to County Counsel Rick Hayer)

A1: I think the text message speaks for its self and past that were going to say that its confidential.

Q: Okay. Do you commonly archive or document any communication that you have with any of the folks that you supervise?

A: As far as the telephone or?

Q: As far as any form of communication with any of the folks that you supervise?

A: Yes.

Q: Okay and how how is that archived or documented?

A: In their file via chrono.

Q: Okay. And then also other than the messages that are shown here in the photograph, are you aware of any other messages or phone calls that were made to you from Mr. Clark?

A1: That weekend?

Q: Yes.

A: Yes. There was a missed call during that weekend.

Q: Okay was it a phone call?

A: It was a, a missed phone call.

Q: Okay was there a voicemail left?

A: No.

Q: Okay. Did you erase any messages that had been sent to you that weekend from Mr. Clark?

A: No.

Q: Okay. Have you had any other contact with Mr. Clark on any other device other than this phone here (indicating phone depicted in photo)?

A: That weekend?

Q: That weekend.
A: No.

Q: Okay how about on, on any other form and when I say form I mean Facebook messenger, groupme, whats whatsup, any other applica any other communication application that weekend?

A: No.

Q: Are you aware of the domestic violence report that was taken by the Sacramento Police Department involving Mr. Clark and [redacted] on the night of March 16th of this year?

A: (looks over to County Counsel Rick Hayer)

A1: I'm going to have to say that if he was or was not aware of that it would be in his role as a probation officer and that lives in the probation file which I (unintelligible) is confidential.

Q: Have you had, since March 16th of this year, have you had any communication with Mr. Clark's [redacted]?

A: No.

Q: Okay how about any of his family members?

A: No.

Q: Okay have any of them made an attempt to reach out to you?

A: No.

Q: Okay. Do you by any chance have this this phone that's shown in this photograph? Do you happen to have it with you?

A: No.

Q: So prior to us receiving this (pointing to photo of cell phone screen shot) we had been notified, I guess you can say it was rumored, that one of the messages that Mr. Clark had sent to you was something to the effect of I'm not going back to jail. Are you aware of any message like that?

A: No.

Q: Do you have any idea how how it could have gotten to that extent that rumor?

A2: Don't speculate.

A1: Yeah I..I...certainly his attorney's advice on that is germane to Mr. Sharma as an individual but as far as information he might have gleaned from his duties as a probation officer I also believe would be confidential.

Q1: Yeah I was going to ask just for clarification this text message from Mr. Clark (pointing to photo of cell phone screen shot) and the phone call that you missed, that was the extent of any means of trying to communicate from him to you March 17th and through March 19th?

A: Yes.

Q1: That was it?

A: Umhm.

Q1: Okay. Alright.

Q: Do you recognize these text messages that are shown here in the photo?

A: Yes.

Q1: Is there anything between Saturday the 17th until now that were missing that perhaps information you know of in regards to Mr. Clark surrounding this whole incident? Is there any information that were missing that you may know in this weekend that were talking about?

A: No.

Q: So I think this would be a good time for a break.

At this time Detective Cruz, Special Agent Brass, Probation Officer Sharma, Sacramento County Assistant Counsel Rick Hayer and Attorney Christopher Miller all exit the interview room. At approx. 1436 hrs Detective Cruz, Special Agent Brass, Probation Officer Sharma, Sacramento County Assistant Counsel Rick Hayer and Attorney Christopher Miller all reenter the interview room and continue the interview

Q: So just going back to the messages that are depicted in this photo, do you know who took this photo?

A: The screen shot?

Q: Yes this photo that's in front of you the screen of the screen shot of the text messages.

A2: So not the screen shot but the photo of the screen shot is what you're asking?

Q: Yes so this photo here (holds up photo of screen shot of Sharma's cell phone). Do you know who took this photo?

A: I believe it was our High-Tech Department.

Q: Were you present when the photo was taken?

A: No.

Q: Do you know where is this phone, physically, right now?

A: In the High-Tech Department. Where ever they're located.

Q: Is it the county High Tech Department?

A: Umm...

A1: The way our county is organized is there is one High Tech Department and individual IT employees are assigned out to the various departments, so I don't know exactly where this phone is but if it's with D-Tec it could either be a Probation office or at the High-Tech department itself.

Q: How can I find out where exactly this phone is located?

A1: You probably, let me have a couple of days and I only say a couple of days because I'm off tomorrow but I can give you a call on Monday and let you know where it's physically located.

Q: Okay so as far as you know it's with the High-Tech Department?

A: Right.

Q: At one of their locations.

A: Yes.

Q: And so outside of the scope of your probation duties, have you had any private contact with Mr. Clark?

A: No.

Q: And then do you know the make, going back to the phone, do you know the make and model of this phone?

A: It's iPhone 6 I think.

Q: And what color is it?

A: This one is black.

Q: Is it a regular 6 or is it a plus?

A: It's a regular 6.

Q: And then how did you find out that Mr. Clark was deceased?

A: Monday afternoon sometime. Yeah.

Q: And how did you find out that he was deceased?

A: Just I believe word of mouth in the, in our unit. Yeah.

Q: Did you happen to see any media coverage related to our officer involved shooting from Sunday March 18th?

A: Monday I did.

Q: And then you had used the phrase probation file earlier.

A1: Yes.

Q: Can you explain to me what exactly is contained, just not speaking to any specific person but just generally, what is contained in a probation file?

A1: Go ahead.

A: Contacts such as home visits, office visits, field visits. Me pertaining to a field officer. Court documents, basically every aspect of what we do as far as note taking, scheduled appointments. That was my main, why I (inaudible) that.

Q: And then where are probation files kept?

A: It's electronic I believe on our servers on a caseload yeah. It's not handwritten it's electronic.

Q: So can those files be accessed via any electronic device connected to the probation network?

A: On the probation Intra-net I believe is what it's called yes.

Q: So they're not housed in one specific location. They can be accessed via a computer or laptop.

A: Right. That has access to the Intra-net for probation.

Q1: When you talk about the file in general, does one probationer have one electronic file or is it you know you may have a file in one category, you may have a file in another category. Is one probationers, his entire file, everything that interactions that he had with probation officers that kept with that one file?

A: Yes electronically.

Q1: Okay electronically. Another question was and you may have asked this I don't remember, but you remember the first time that you saw this text message from Mr. Clark?

A: I don't know exactly when I viewed it, I just responded the Monday when I returned to work at 7.

Q1: And the missed call. Do you recall when you first noticed that missed call?

A: It was during that weekend time. Yeah it was around that time.

Q1: So when you say the weekend time, Friday, Saturday, Sunday?

A: I'm not sure exactly when.

Q1: Alright. It was sometime prior to the Monday?

A: Right yeah it was.

Q: Do you have anything to add or any other questions?

A1: No I will find out where the phone is and let whomever would be the best contact know.

Q: I will give you my contact information.

A1: I may be able to find out today but if not I will get back to you Monday about that.

Q1: I know you had an opportunity to take a few minute break, few minutes of a break, did anything come into your mind pertaining this matter in that weekend period pertaining to Mr. Clark that we may have not asked about or that you recall?

A: I don't recall anything besides this pretty much.
Q1: What you told us?

A: Yeah.

Q: Well thank you again for coming down and speaking with us we really truly do appreciate it.

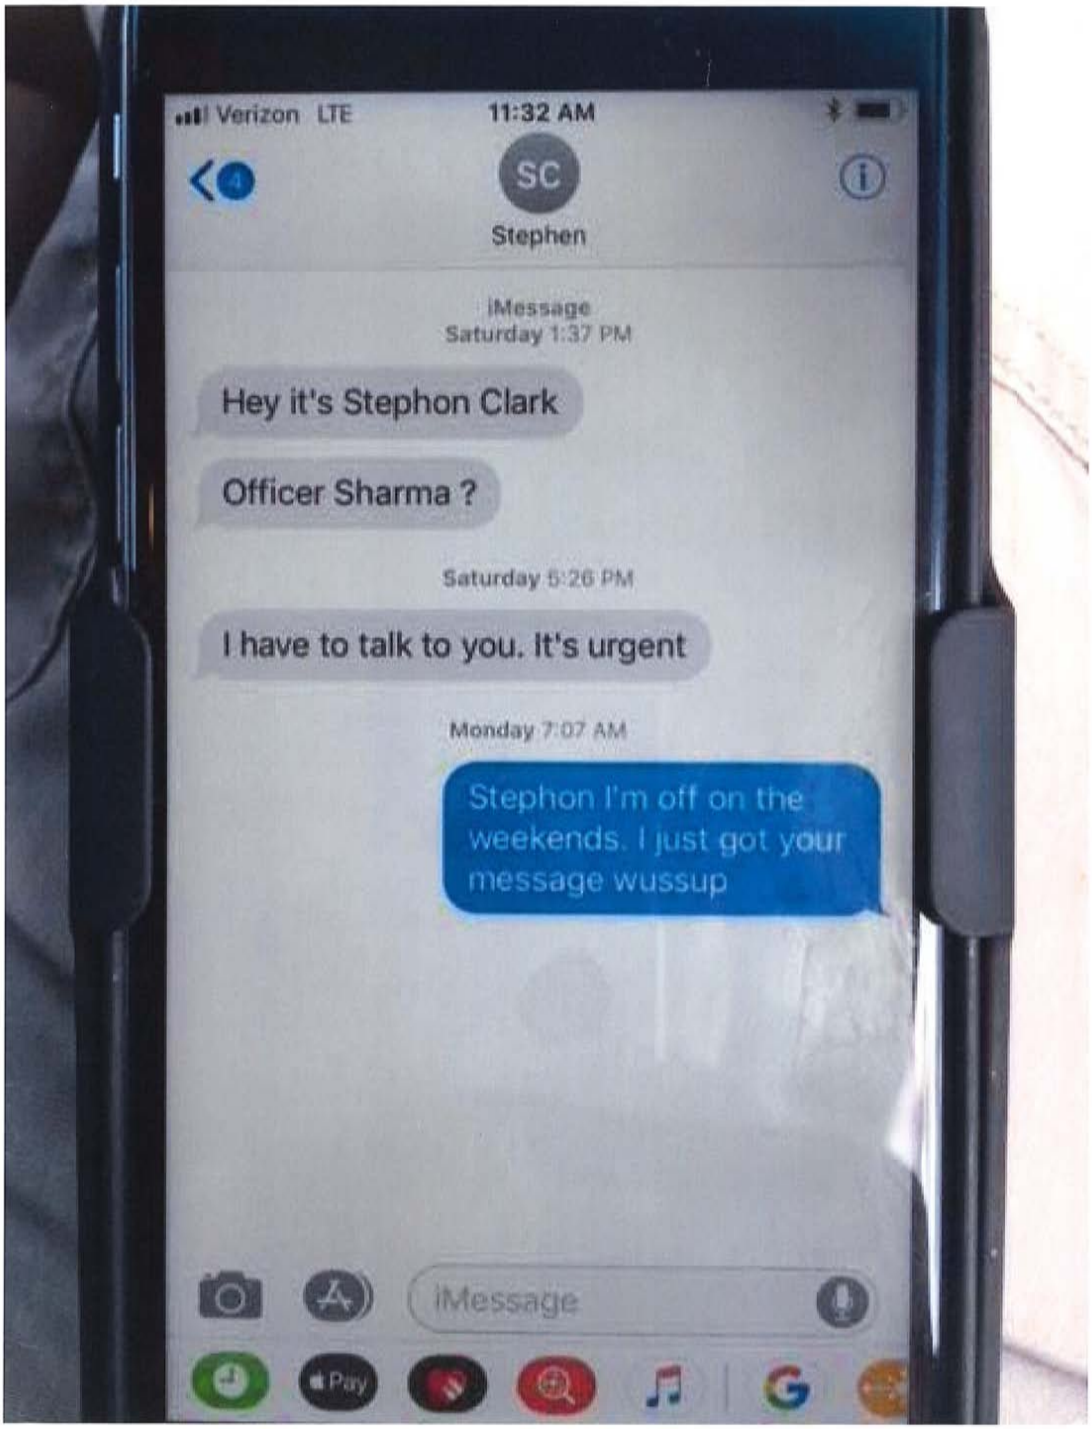

Q1: We do, very much.

A: Thank you.

On 8-17-18 at about 1015 HRS Detective Higgins and I contacted [redacted] at [redacted] in the [redacted] area of Sacramento. The contact was recorded on my SPD issued body camera. [redacted]'s grandmother, [redacted], was also present. [redacted] related the following in summary:

I was at school and I came out and it was gone. It was towed one day. ([redacted] seemed to have trouble remembering and asked her grandmother if she remembered when it was towed). It was around the time, or the day after the Stephon Clark shooting. I don't remember what month.

I went to school at job corps on Meadowview. I had parked my car on 29th Street. I live on campus at job corps.

No one else had permission to drive my car. I park on 29th street because you can't park in the school parking lot. The school is just across Meadowview (from where the car was parked).

I don't know anyone that lives in the neighborhood there. I didn't know Stephon Clark. When I parked my car, it had all of its windows. Nothing was broken. I had locked it and I still have the keys.

I don't remember what was inside it. No one else had permission to drive it or use it.

I saw my car on the news.

(I explained that the engine was hot (as they saw on the news from the helicopter video) and we were trying to figure out who had been using the car).

My school got shut down (just after the shooting) and you can't leave campus after 9(PM). Our school got shut down on lockdown at like 10(PM). You have to be back at campus by 9 (PM).

(Detective Higgins asked if she remembered what she'd done earlier in the day)

I didn't leave (campus).

I remember because they had shut our whole school down, we saw the helicopters.

(I asked if any of her classmates or anyone else could have had used her car with her permission)

No. The only way someone could have drove my car is if they hot wired it.

(Detective Higgins asked if she could have driven up to the store or something and couldn't remember because it had been so long)

No.

(I obtained [redacted]'s phone number, so I could release the car back to her. I asked if the car was damaged)

The only thing it had was dents, but no broken windows.

(I showed [redacted] the photo I had of her Toyota showing the damage on the passenger side just forward of the front door. She said the large dent had been there previously but the scuff marks to the front left corner of the bumper had not.)

(I asked how long she would typically leave the car there)

I would drive it like three times a week depending on if I had to go to work or not.

(I explained that the incident happened on a Sunday)

Oh, that's when I came back home to the job corps. You have to go back on Sunday before 9 (PM). I don't remember getting their late. I definitely drove it back to school on Sunday because I have to be back on Sunday before 9PM.

([redacted] said she would always get back to job corps just before 9(PM).

[redacted] ([redacted]) is my boyfriend and it would be normal for his fingerprints to be in my car.

My previous phone numbers (from back then) were [redacted] or [redacted]. I don't have either of those phones anymore. My current phone number is [redacted].

Author: **3172 - GRIGGS, JEFFREY 0670**
Subject: **(SUBJECT #25)** [redacted] **(DOB:** [redacted]
Related date/time: **Aug-21-2018 (Tue.) 930**

On 8-21-18 at 0930 HRS CA DOJ Special Agent (SA) Terrence Brass and I contacted [redacted] at [redacted] in Sacramento. [redacted] came outside, and the interview was conducted inside our unmarked vehicle. The interview was audio recorded and the recording was later booked into evidence under PR # 989927-11. [redacted] related the following in summary:

I was in a relationship with Stephon for about a year, we had broken up about a year prior to his death. I talked to him the night he was killed. He had texted me to come and get him about an hour before everything.

I talked to him the night before and we had got into an argument because I didn't go see him. He was kind of mad at me, so I didn't talk to him during the day. I guess he was with his friends. He texted me at like six o'clock, and I have a baby, so I couldn't rush to go see him. I told him after my son goes to sleep I'd come over.

I was texting him what was going on. We both have I phones, and my I-messages started going to text messages, so I was like okay maybe the phone just died. The next morning, I woke up and (she learned what had happened).

We were in contact when Stephon was in jail. After he got out I kind of kept my distance, but we kept in contact.

[redacted] and I know each-other. I haven't talked with [redacted]

(I asked if she knew what was going on with Stephon and [redacted] at the time.)

I know they were staying together and they were like breaking... like on and off. They've always been on and off. They were staying together prior to and he had moved back to his grandmother's house. I'm not sure when he moved back to his grandmother's.

(I asked if she and Clark spoke often.)

Yea, we spoke often. Not necessarily everyday because we had been broken up, so things were kind of like on and off. We kept in contact regardless. It was kind of like he would call or text here and there and I would also.

The last time we actually saw each other (in person) was December.

(SA Brass asked if [redacted] knew if there was anything stressing Clark out the week before the incident.)

That part I'm not sure because I didn't get to see him face to face. We didn't really talk about that type of stuff over the phone. That was stuff we would talk about face to face.

(I asked if she knew who he was hanging out with that day.)

I don't know. Just his bros. I don't know who exactly.

(I asked if she knew who "[redacted]" was.)

Um, it sounds familiar.

(I asked about Clark's drug use.)

Yea. I knew he used drugs before. Prior to me agreeing to meet (again) he told me he'd stopped. I do know the day he was killed there was a video with his friends and he just looked really out of it. The video was on Instagram. I don't whose video it was.

(I asked what she meant by "out of it".)

Like he just looked really lit.

(I asked if the video was taken that day or just posted that day.)

It was that day. He was wearing the same thing.

(I asked if she knew if Clark took Xanax, did he take it regularly, and why.)

That was, that's something he, prior to this I wasn't around him. We were together the summer of last year before he went to jail. He didn't really, not, when we were together I didn't like him taking Xanax and stuff like that because I've seen people off that. It's just not okay so I would always ask him like, don't do that. But I know when he would be with his friends and stuff, that's what they do so, you know, when you're with your friends you're going to.

(I told her that's why I was curious: If it was a regular thing, a recreational thing, or a one-time thing.)

Not that I know of, because he'd told me that he quit. He even told my mom that he'd quit because she told him he couldn't come over to the house unless he was not on anything, like high off weed or anything. He told me he hadn't been on anything since he got out of jail. I know that was really big to him because he was with his kids, and staying with his kids and stuff, that's what I didn't understand, he was doing so good.

(I asked what was going on between December and March, after Clark got out of jail.)

He was just at home with his kids. He would be allowed to see his kids when he wasn't at his grandmother's case.

He was in jail because he had a domestic violence case with [redacted]

(SA Brass asked if there'd been any domestic violence between her and Clark.)

No. Not at all. He wasn't a violent person. She ([redacted]) had got mad at him and she said she was going to call the police and tell them he did this, or he did that. It was more so he said and she said. He had gone to the police station to try and clear it up, but it was in the DA's hands. The DA decided to press charges. This was the incident before he went to jail.

(I asked if she knew of any similar circumstance recently.)

No, we didn't really talk, we hadn't seen each other since December. We didn't really talk except for to trying to figure out what we were going to do with each other.

(SA Brass asked what she knew about [redacted] what work she did.)

No. I don't really choose to talk about [redacted]. I just know she's talks to other... ([redacted] stopped answering, SA Brass said, "talks like what") ... No, I don't know anything about [redacted]

(I asked if she knew who [redacted] (or [redacted]) was.)

Yes. She was a girl he used to talk to. Just like, someone he would talk to like, one of his side pieces or whatever. The last time I saw her was around the marches and the protests. I don't know where she lives. She isn't my friend. She had said that he'd texted her the day he passed but everyone says that he called or texted or facetimed me and stuff like that.

He had just moved back to his grandmother's house not too long ago, so he was just getting back into the groove of being social. He'd just got out of jail in December and had been at home with his kids and during that time when he was home with his kids we weren't even talking, that was his main priority. He'd been locked up for so long that he wanted to spend time with them. In the midst of that he was having problems with [redacted] He was like whatever I'm just going to go back to his grandmother's.

(SA Brass asked when he moved back to his grandmother's house.)

That part I'm not sure. I know he was back and forth between his grandmother's and [redacted]'s. I would say around January or February.

(SA Brass asked where they were going to meet the night Clark passed.)

At his grandmother's house. I was going there. Stephon didn't have a car. He got around from his friends or a girl or Uber or Lyft. That night I never went there because of my baby, I couldn't leave him home alone.

(SA Brass asked if she had any idea why Clark would have been in the yard next door to his grandmother's house.)

I don't. Unless he was trying to, honestly, I don't know. Unless he couldn't get into the fence of his grandmother's house and was trying to hop over, so he could get in. I've been to his grandmother's house last at night I know either they would leave the garage up for us. But if they don't feel comfortable depending on how late at night it is, they would close it and we would have to go through the back. I honestly don't know, I've been over that so many times as to why or what he was doing.

(I asked about why he would be braking windows to cars in the front.)

I don't know. There are so many contradicting stories. I don't know. It doesn't sound like something he would do. That's not something he would do.

(I asked if he would be violent if he was on drugs or if his behavior would typically change.)

No.

(SA Brass asked what Clark did for money.)

As far as I was concerned Zoe (Clark) was living off of [redacted] However she supported her household or paid her rent that is how he managed to get by.

(SA Brass asked, "So she was working in some capacity?")

I guess so.

(SA Brass asked if Clark ever told her that [redacted] gave her money.)

That's not something we talked about.

(SA Brass asked if Clark ever talked about Law Enforcement or how he was treated by Law Enforcement or how he treated them.)

Not really. We talked when he was in jail about the guards and what was going on in there. We never really talked about Law Enforcement.

(SA Brass asked, "He never said anything to you about Law Enforcement mistreating him or anything like that?")

That's not really something we talked about.

(I asked if he had any issues in jail with the guards.)

([redacted] shook her head no) I would have to go through our letters.

(I asked if she knew if [redacted] was a prostitute.)

That I don't know.

(SA Brass asked if she knew Clark was on probation.)

He was. He told me why but I'm trying to remember. He went to jail for domestic violence so I'm not sure if it was for that or something he did when he was younger. I may be getting it confused with someone else, but it may have been robbery. IF it was robbery it was when he was younger, he stole
shoes or something like that.

Stephon and I didn't go to the same high school, but we share the same group of mutual friends.

(I asked about the Instagram video.)

I don't have it. I deleted my Instagram. I don't know whose Instagram it was on. It was the guy who was with the day he died.

(I asked about [redacted].)

That is one of his friends. I have not talked to him since this happened. [redacted] wasn't in the video.

(SA Brass asked what they were doing in the video.)

They were just in the car, it was the drivers car. I don't know what kind of car it was. I could only see the inside of the car. It was during the daytime. I don't know what time exactly, most likely in the evening but still light outside. They were sitting in the car smoking weed, listening to music.

(SA Brass asked if she'd ever seen Stephon with drugs, like in the photo of Xanax in his hand.)

No. I don't know where he'd get Xanax. Like I said, I never liked him to have that stuff around me, it's not something I tolerated or allowed.

I last saw him in December, we'd facetimed each other since them but the last time we were together was December.

(SA Brass asked if there was anyone she recommended we reach out too.)

Follow Up Report # SA 2 - NOT COMPLETED

Have to talked to [redacted]? They were very close growing up. [redacted] was not in the video. I think one of the guys in the video is named [redacted]. He wasn't the driver (in the video).

On 8-21-18 at about 1031 HRS I contacted [redacted] by telephone at [redacted]. [redacted] was contacted because she had phone contact with Clark on 3-18-18. The phone call was audio recorded and booked into evidence under PR # 989927-11. [redacted] related the following in summary:

I am out of town on a business trip and I don't have a deadline to when I come back.

I knew Stephon because we'd been friends for 4-5 years. We somewhat dated but it didn't work out, so we kept in touch as friends.

I last saw Stephon in April of 2017. We didn't talk often, we talked every now and then. He contacted me the same night he passed away. He asked me to come see him, to visit, to see him and the family.

He didn't tell me what was going on with him. I was actually ignoring his calls and messages left and right. When we did talk, it was for about an hour, give or take.

I know who [redacted] is, but I don't know her personally. He didn't tell me what was going on with [redacted].

Our conversation was just catching up, and he asked when he was going to see me. I told him I'm busy and I don't have time.

(I asked why she was ignoring his calls.)

I was actually busy at the moment. He caught me at a bad time and I didn't have much to say to him.

(I told her I was looking at their text messages and it seemed like she was mad at him.)

I wasn't really mad at him necessarily. We'd been through some things and I'd rather not talk about it or have a conversation with him.

(I told her the text said something just like that, "we don't need a conversation, I don't want anything to do with you" and I asked her why.)

We just had a bad history with our relationship, and just being lied to, and me being there for him and he took advantage.

When he got ahold of me it was out of the blue.

His response was that he missed me and wanted to catch up. I was telling him no. He was very persistent. The conversation ended on my end, I said I don't want anything to do with him. He still proceeded to continue to try and call and text but the last thing I said to him was I don't want nothing to do with you. That's the hardest part for me because the following day and what happened, its hurtful.

He didn't tell me his plans, he just told me he was at his grandma's house with his family. Other than that, that was it. I don't know if he was with his friends.

(I asked about Clark's drug usage.)

Marijuana. I know he's used Xanax before, but I don't know specifically at that time. He didn't mention any drugs to me that night. I was in town during that conversation and I did not go see him. I was shutting him down.

The last time I spoke to Stephon was April of 2017. It was the same day he was shot that he reached out to me.

(I asked what Clark's response was to a text from [redacted] that asked what made him call her all of a sudden.)

Same reason as always: I miss you. That's the same reason he usually calls me for, to tell me I miss you or I've been thinking about you. Or I just want to catch up and check on you. But, its like a cycle. So when it happens I'm like, not really falling for it anymore.

(I asked if she was aware of any domestic violence between him and [redacted].)

I remember at one point he did tell me, but he didn't go into full details. He just told me she put him in jail at one point. I don't really question their relationship because it isn't my business.

Stephon was never violent with me and never mistreated me.

(I asked about that night, if he mentioned [redacted] tying to put him in jail again.)

Not at all. All he told me was he's going through things with [redacted] because I had asked him where was [redacted], why wasn't he with [redacted]. He told me they'd got into an argument and he was at his grandmother's. From what he's told me of their relationship they fuss and fight a lot so that was not out of the ordinary. This was just another fight.

I know Stephon loved his kids and he would do anything for his kids. I don't know too much about his relationship with [redacted] but I could really care less to be honest.

(I asked if she had a bad falling out with Clark (as her tone suggested.)

Me and him, it was just a lot of drama, let's just say.

(I asked what she meant.)

Drama between [redacted]. Um, lies, how he wanted to pursue a relationship with me, but I would find out he was always going back to [redacted]. I was just not there for it anymore. I wasn't wasting my time. Our relationship ended before April of 2017.

On 8-21-18 at 1145 HRS I contacted [redacted] by telephone. The phone call was audio recorded and booked into evidence under PR # 989927-11. [redacted] related the following in summary:

I work in San Diego and I will be back in Sacramento around mid-September.

Stephon Clark was one of my best friends. I'd known him since about August of last year. I was in jail and he came in (to jail) on his birthday in August. We became best friends. When I finally got out he was still in jail. I transitioned to San Diego, but I would come back to see my attorney and go to court.

I wasn't with him the night of (his death) but I had dropped him off on Saturday morning to his grandmother's house.

We had gone out the night before (Friday) downtown. He had met me downtown and we stayed at a friend's house and then the next morning I dropped him off at his grandmother's no later than 11(am) and then I went back to San Diego.

I don't know what his plans were or who he was hanging out with. My last conversation with him was "love you be safe, have a safe flight."

(I asked who was there when they went out downtown)

I don't really want to give out the names like that, but it was Stephon, myself, and two girls. We went to a bar I think the name was "Highwater bar" or something like that. Stephon had met us at the bar.

I don't know [redacted], but I've met her a couple times.

(I asked if Clark had told him what was going on with [redacted])

No, I know that they were arguing, that they were in a fight, but we never got into the details. I knew he was upset about something, but we just wanted to be out and have a good time.

(I asked if he saw Clark use any drugs the night they went out)

No. I didn't see him do anything. All we did was drink alcohol.

(I asked if he knew if Clark used drugs regularly)

No. I knew that he smoked marijuana. That was the only thing I knew (he used).

He never tried (or got) to get Xanax from me.

We left the bar around when it closed. [redacted] was not there at the bars downtown.

I had come back to Sacramento that Wednesday. I went to his house and saw him on Thursday.

(I asked if when he said, "his house" he meant [redacted]'s or Clark's grandmother's house).

[redacted]'s.

([redacted] said he was uncomfortable with answering any further questions. I explained that I was obtaining background information and trying to learn who, if anyone, was with Clark the day of the shooting. The interview was concluded shortly thereafter.)

On 8-21-18 at about 1430 HRS SA Brass, SPD Detective Butler, and I contacted [redacted] at [redacted] in Sacramento. The contact was recorded on my SPD issued body worn camera (X81142506). [redacted] is the subscriber of record for the telephone number [redacted], the user of that phone had likely supplied Clark with Xanax on 3-17-18. We conversed with [redacted] in his front yard. He related the following in summary:

I last saw Stephon Clark like two days before he passed away. We were just hanging out and stuff. My girlfriend was with us too. She doesn't know him. We really just smoked some weed. We were by the park, by a school, of 69th.

I've known Clark for like two years. We met through a friend.

I found out about what happened from the news.

(I asked [redacted] if Clark had asked him for Xanax pills)

No. I know he used to take them, he tried to ask them if I knew anyone about them. I told him know. He didn't text him about "bars". I didn't give him Xanax pills or take him Xanax pills or hook him up with someone for Xanax pills.

We would hang out like, not so often. Like really not that long, probably like, every so often.

My phone number is [redacted].

(I asked if he had a different [redacted] number)

No. I have another number its [redacted]. I didn't have a [redacted] number.

(I asked who [redacted] was)

That's someone I used to talk to like the beginning of last year. I haven't talked to her in hella long. February or March. She called me from jail.

(I asked since she'd called him on the [redacted] number from jail, if he remembered it now.)

I think it was her phone. I grabbed it for her but I gave it back to her parents.

I was with [redacted] when she got arrested. I gave all her shit to her parents the next day. I don' t know her phone number. I haven't talked to her since then because I have a new girlfriend.

(I explained that he wasn't in trouble, but we could tell what number she called him on from jail and if he was using that phone it wasn't a big deal. I asked if he was using her phone.)

No. I was for maybe a day or two, but I gave it back. I gave all her shit to her mom.

(I asked if he remembered Stephon asking for Xanax and the day he took pills to him)

No.

(I asked if he would tell me if he did.)

No, to be honest. Can I get my mom? I don't feel comfortable talking to you. That was my friend. I really loved him.

(SA Brass asked what was the last day [redacted] had seen Clark)

I really don't know I just know it was two days before. I'm not sure, I couldn't tell you.

I don't even know where he stays. I don't know if he had a girlfriend. I know he had a kid. He didn't seem like he was having any problems. He didn't talk with me about that. We always just smoked and talk about our weed and that was it.

I don't know if he worked or how he got money.

I don't remember if Stephon ever texted me his address or if I went over.

I don't remember when I gave [redacted] her phone back. Can I get my mom? I want to get my mom. I'm 19. I don't feel comfortable around cops.

Also present during the interview was CA DOJ Special Agent Terrence Brass, and SPOA representative Officer Paul Brown #500. The interview was video recorded and later booked into evidence under PR # 989927-031. Prior to the interview I provided Officer Tayler a printed out copy of his written supplement for this report. SA Brass and I also showed Tayler a portion of his body camera footage from 3-18-18. The portion of footage shown was around time stamp 04:54:30 and 04:46:30. In the video, Officer Tayler is seen standing with Officer Trujillo and Officer Prahl and Officer Mercadal appear nearby in the background. The following interview took place:

[I drew Officer Taylor's attention to the body camera footage that we had just watched, and I asked if he had a partner that day].

I did. Officer Trujillo.

[I asked who he had interaction with in regard to the video we had just watched.]

I was interacting with SGT Park initially and then my partner Officer Trujillo.

[I asked about who was in the background).]

It appeared to be Officer Prahl and Officer Mercadal.

[I asked if he had conversed with Officer Mercadal at that point.]

Not at that point.

[I asked if at any point that night he had talked with Officer Mercadal about the events that occurred in the backyard.]

After leaving the backyard, I believe I had an interaction with him, but I don't recall if anything was said.

[I asked if he recalled the context of the interaction was.]

The context that I recall was me tapping him on the shoulder.

Right.

[I asked if he was a peer support officer.]

No.

[I asked if he'd been to any peer support training.]

Within the academy, we talked about it.

[I asked if he discussed the incident that occurred in the backyard with Officer Robinet.]

No.

[I asked if they discussed anything.]

Not really.

[I asked him to explain his role.]

I just tried to be there. Me and Robinet don't really know each other so it was kind of awkward. We went to his car. I thought we were going to sit in his car, so I ended up taking his bags out of his front seat and then was like if he's just standing there I just put his bags back. He was just on his

I am not.

[I asked if he'd ever had peer support training.]

Brief training in the academy, some roll call trainings when peer support has come to talk with us.

Also present for the interview was SPOA representative Officer Paul Brown #500. The interview was video recorded and later booked into evidence under PR# 989927-034. Prior to the interview I showed Officer Trujillo a portion of her body camera footage beginning from the time stamp 04: 42:00 through the end of the recording. Since the recording was lengthy I pointed out an officer on the recording at 04:55:15 who I intended to inquire about. I also provided Officer Trujillo a copy of her written observations from this report. The following is a summary of the interview that took place. For the exact details please refer to the recording.

[I asked if Officer Trujillo had a partner Officer on 3-18-18 and what her identifier was.]

Yes, Officer Tayler. We were Gang-57 (GNG57)

[I referenced the body camera footage that we had just watched. I told Officer Trujillo that the interview today was focused on the events that occurred after she left the backyard. I asked if she was a peer support officer, and to describe the training she has gone through to be a "peer" Officer.]

Yes. We have training in the Academy, and usually during CPT. For peer members there is a new peer support training that we have to go through and then we have meetings every year periodically. I have been a peer member for several years, no less than eight.

[I ask Officer Trujillo to describe her role as a peer support officer when assigned in that capacity.]

Typically, if it is a critical incident I would get assigned to one of the officers involved in the incident. My job is to explain the process to them. I advise them not to talk about the case. I make sure they are comfortable, if they need transportation somewhere, need something to eat or drink. If they need to call a family member to let them know they are all right that is okay but again, don't talk about the case.

[I confirmed that specifically she (as a peer officer) is supposed to advise the involved officer they are not to talk about the case.]

Yea. That we're not supposed to.

[I asked if on March 18th she gave such an advisement to Officer Mercadal.]

Yea.

[I asked if she talked with Officer Mercadal about the events in the backyard.]

No. I didn't.

[I asked if she overheard Officer Mercadal describe to any other officer the events that occurred in the backyard.]

No.

[I asked about the officer I had pointed out as we watched the body camera, at 04:55:15. The officer appeared to walk up and was holding a jacket. I asked if she knew who that person was.]

At the time I don't think I knew but it looked like Clare Henderson.

[I asked if she overheard Officer Mercadal talking with Officer Henderson about what had occurred in the backyard.]

I didn't hear them talking about that.

[I asked if she could remember if they did, or they didn't talk about the events that occurred in the backyard.]

From what I remember I don't remember overhearing any of that. I had told him not to (talk about it), but I wasn't with him 100% of the time, during that time.

[I asked if she had any contact with Officer Robinet other than when she was in the backyard.]

I don't think I did. I was assigned to Mercadal so if I did it was in passing.

[I asked if she had any conversation with Officer Robinet about the events in the backyard.]

No.

[SA Brass asked about Officer Mercadal being on his cell phone a couple times. He asked specifically if she heard Officer Mercadal making comments on his phone about the events that occurred in the backyard.]

I didn't hear him making any specific comments. I remember telling him initially if you need to let someone know you're okay and you can talk to them later that is fine. I know he kind of stepped off to the side a little to make a call. I didn't hear anything he was talking about.

[I asked when she had given the advisement to Officer Mercadal not to talk about the incident.]

It was right as I was coming up and after I asked him if he was okay and if he needed anything and what to expect.

[I asked if that was the beginning of her contact with Officer Mercadal or the end.]

The beginning.

[Officer Brown asked if she had a conversation with Officer Mercadal and what was the conversation.]

Yes. That was just the same thing as me telling him I was assigned as peer support, and going into are you okay, do you need anything, are you thirsty or hungry. The process about what to expect and not to talk about the case.

On Sunday, 03/26/2018, at approx. 2126 hours, Ofc. Clatterbuck (#473) and I, Ofc. Powell (#532), were dispatched to a car clout in progress call in the area of [redacted] 29th St. Officers on scene advised over the radio that there were "shots fired". Ofc. Clatterbuck and I responded code three. We arrived on scene at approx. 2131 hours. I observed the following in summary:

I assisted with clearing the backyards of [redacted] 29th St and [redacted] 29th St. While clearing [redacted] 29th St, I observed a broken rear, sliding, glass door.

After obtaining a list of the fire department's personnel on scene, as well as the name of the firefighter that pronounced S-Clark deceased, I assisted with coordinating the units on the call to make sure we were not duplicating our efforts While making sure our neighborhood canvass was complete, 3SM5, Sgt. Morris, asked if anyone had spoken to the residents at [redacted] 29th St to make sure all occupants were safely accounted for and if they had heard or seen anything. Ofc. Maclean (#1010) had contacted the residents initially, but I was unable to locate him on scene.

I responded to [redacted] 29th St and contacted resident [redacted]. She advised that she, her seven-year-old granddaughter, and her husband were all safe. She stated that when she had heard what sounded like four gunshots outside her house, she grabbed her granddaughter and rushed to get down low in the house. [redacted] appeared concerned. I advised that she was correct, she had heard gunshots, but was quite safe as there were numerous officers in her neighborhood. I asked [redacted] to please keep her granddaughter away from the rear-facing windows in the house. I asked her to please stay inside her house for the time being, but I assured her that I was out front if she needed anything or had any questions.

Later in the evening, [redacted] contacted me and advised that her daughter, [redacted], was calling and very concerned about not being able to come to the house. [redacted] and I spoke inside the house, in what appeared to be her and her husband's bedroom. [redacted] was laying in his bed, watching TV, while their granddaughter was nestled in [redacted]'s bed. [redacted] was on the telephone with [redacted] I advised that I would respond to the edge of the perimeter and speak to [redacted] directly, to assuage her fears.

I responded to the eastern edge of the perimeter and contacted [redacted] At the time, I was under the impression that the seven-year-old girl in the house was [redacted]'s daughter. I explained that we were unable to let anyone come into the house, as it was directly in the crime scene. However, I reassured her that everyone was safe and that her daughter was peacefully watching television with her grandfather. I advised that as soon as we cleared the crime scene, family would be allowed to come back to the house freely.

At approx. 0100 hrs on Monday, 03/19/2018, I re-contacted [redacted] at her front door. I advised that the detectives were on scene and they would be visiting soon to obtain her statement. Shortly thereafter, Detective

Hunkapiller (#710) and Detective Krutz (#680), responded to [redacted] 29th St. I introduced the detectives to [redacted] before clearing the scene and returning to the Rooney Police Station.

While at the Rooney Police Station, Detective Hunkapiller recontacted me via telephone and asked that I return to [redacted] 29th St. He advised that, while speaking with [redacted], she asked if the deceased person in her backyard was her grandson. Based on the description given, Detective Hunkapiller was concerned that the decedent was, indeed, [redacted]'s grandson.

I dropped my partner, Ofc. Clatterbuck, off at the station and returned to [redacted] 29th St. As I was approaching, I could hear [redacted] crying at her front door and saying my name (Michelle). As soon as I contacted [redacted], I gave her a hug. After our hug, [redacted] appeared calmer. Detective Hunkapiller approached us and explained that since the crime scene was in her back yard, he was requesting permission for us to access the side and back yard, so we could continue with the investigation. [redacted] granted us permission to access her side and back yard.

[redacted] wanted to go meet her son, [redacted], who was at the north side of our perimeter. Det. Hunkapiller, [redacted], and I walked to the north side, where we were advised by officers on scene that [redacted] had left prior to our arrival. I attempted to call him on his telephone, but my call went to voicemail. At [redacted]'s request, an officer responded to her residence to collect her walker and bring it to where we were standing at the north perimeter. With the walker, [redacted] walked back to her home.

We were advised that the rest of [redacted]'s family was situated on the east perimeter, off Ellwood Ave. [redacted] stated that she wished to see the rest of her family. Det. Hunkapiller and I assisted [redacted] over to where her family was waiting. (Body worn camera was activated.) [redacted] and her family appeared distraught. Det. Hunkapiller and I stood by as they embraced and cried together. One of [redacted]'s family members expressed concern over [redacted]'s health and urged her to return home to take [redacted]. After some prompting, [redacted] left her family and returned home.

Back at [redacted]'s residence, I assisted with getting her some water and trying to locate [redacted] for her, as she appeared tired from all the activity. I was unable to find the [redacted], so [redacted] went to her room and searched [redacted]. We both returned to the kitchen and sat down with Det. Hunkapiller. [redacted] expressed that she was very tired and we informed her that she was welcome to go to bed while we continued work in her side and back yard. Shortly thereafter, a chaplain arrived and [redacted] asked to speak to the chaplain alone.

Det. Hunkapiller and I left the house. Not long after, the chaplain exited the house. She advised that [redacted] had decided to get to bed for the evening.
I stayed on scene until S-Clark's body was transported out by the coroner's crew.

OFFICER TRUJILLO #846 18-82449

On Sunday, 03/18/18, at approximately 2126 hours, Officer Tayler #741 and I (Officer Trujillo #846) were together as GNG57 in an unmarked black Ford Crown Victoria police vehicle, equipped with a siren, emergency lights, and spotlights. Officer Tayler was the driver and I was the passenger. We were both wearing black tactical vests each marked with a silver embroidered badge, SPD police patch, and "POLICE" in large gold letters on the front and back.

On the above date and time, we were clearing an unrelated call and traveling northbound Franklin Blvd, north of Florin Rd when we heard via our police radio other officers responding to a car clout in progress call at [redacted] 29th St.

I heard a male officer on the car clout call advise that there was "one at gunpoint." STAR was also on the car clout call and advised via radio that the suspect was fleeing on foot southbound with two units pursuing him. Officer Tayler and I responded Code 3 to assist. STAR then advised via radio that there were "shots fired." Officer Mercadal #752 (1C57) was on scene and broadcast that the subject was down and requested additional units.

STAR directed responding units to [redacted] 29th St and requested fire and an ambulance.

Officer Robinet #520 (1C54) was on scene and advised officers were not hit and that the suspect was down.

Officer Tayler and I arrived on scene at approximately 2131 hours and STAR directed us to the backyard of [redacted] 29th St.

Officer Tayler and I entered the backyard of [redacted] 29th St along the north side of the residence where I observed the north wooden fence was knocked down.

Upon entering the backyard, I observed Officers Mercadal and Robinet standing at the northwest corner of the house. I observed the suspect was face down on the ground in the backyard on the west side of the residence and was not moving. I was unable to see the suspect's hands and could not see if he had a weapon or not. He was wearing dark clothing and I could not see any injuries from where I was standing.

I asked Officer Robinet if the suspect had moved at all and he advised me that the suspect had not moved.

I advised officers to call out to the suspect. Officers Mercadal and Tayler both called out to the suspect, but there was no response. I also called out to the suspect stating, "We need to know if you're ok! We need to get you medics, but we can't go over there unless we know you don't have a weapon!" I also called out, "Sir! Can you move? Can you hear us?" He did not respond to officers and I did not observe him make any movements.

I was not sure at this time if the suspect was injured, the extent of his injuries if any, if he had a weapon, or if he was pretending and refusing to comply. I feared the suspect may have a weapon and could possibly use it against officers upon approach.

I requested Officer Robinet have the next responding unit bring a less lethal shotgun just in case the suspect was pretending. We did not broadcast this via radio due to other officers on the radio at this time.

Sgt. Morris #3120 (3SM5) then arrived on scene with us. I advised Sgt. Morris that I would grab the less lethal shotgun from our police vehicle just in case it was needed and he took my position. I then ran back to our police vehicle to retrieve the less lethal shotgun.

While attempting to retrieve the less lethal shotgun from our police vehicle, STAR advised via radio that officers were approaching the suspect. Sgt. Morris then shortly after broadcast for fire to come in and respond Code 3.
I briefly stood in front of the residence in order to direct medics to the suspect upon their arrival.
Officer Lundgren #970 arrived on scene. Medics had not yet arrived and we both walked toward the backyard. I then heard officers from the backyard asking for a CPR mask. I immediately responded to the trunk of our police vehicle and retrieved my CPR mask.
I again responded to the backyard of [redacted] 29th St where I observed Officer Tayler performing CPR (chest compressions) on the suspect who was now handcuffed. I also observed the suspect was bleeding from what appeared to be the right side of his chest. There was blood on his shirt in this area. It did not appear that the suspect was breathing and he was unresponsive.
I asked Officer Tayler if the suspect had a pulse or was breathing. Officer Tayler advised me the suspect was not.

Officer Lundgren was standing next to us and I observed he was wearing latex gloves. I handed him the CPR mask and instructed him to place the CPR mask on the suspect's face and to give the suspect breaths as I was placing on my gloves. I observed Officer Lundgren blow into the inlet of the CPR mask between Officer Tayler's compressions, but did not see the suspect's chest rise. I checked for the suspect's pulse near his right carotid, but could not feel one.
Officers continued CPR until medics arrived on scene and took over medical aid. Fire pronounced the suspect deceased at approximately 2142 hours.
I assisted with checking the remainder of the yard for damage or other subjects. No one else was located in the backyard. I observed what appeared to be gunshot damage to the rear fence on the west side of the backyard and to a gray sofa.
I left the suspect with Officer Lundgren and returned to the front of the house. I then temporarily directed to be peer support to Officer Mercadel.
I was later transported to the Joseph E. Rooney Police Facility by Sgt. Bell #3036.

On Sunday, 03/18/2018, at approximately 2125 hours, OFC Trujillo #846 and I (OFC Tayler #741) as GNG57 drove northbound on Franklin Blvd from Florin Rd after leaving the area of a previous call (18-82412). At the time, patrol units (1C54 OFC Robinet and 1C57 OFC Mercadal) were responding to a car clout in progress near [redacted] 29th St. During this incident, I was the driver and OFC Trujillo was the front passenger, and we operated an all-black Sacramento Police Department vehicle equipped with emergency lights and siren.
At approximately 2126 hours, STAR advised via radio traffic that there was a subject in the area of the car clout call that was looking into, and then breaking, a window.

I conducted a u-turn on Franklin Blvd, north of Florin Rd, and drove southbound on Franklin Blvd towards the direction of the call. Approximately 30 seconds later, a unit on scene advised that they had a subject at gunpoint.

I activated my vehicle's equipped emergency lights and siren on Florin Rd, west of Franklin Blvd and began to drive code 3 towards the area of the call. Approximately 20 seconds after a unit advised having a subject at gunpoint, STAR stated that shots were fired. Units on scene then advised that the suspect was hit and officers were uninjured.

I continued driving code 3 westbound on Florin Rd, then southbound on 29th St. We arrived on scene at [redacted] 29th St at approximately 2131 hours. I parked our vehicle facing southbound on 29th St near the driveway of [redacted] 29th St.

I ran from our vehicle towards the backyard on the northside of [redacted] 29th St and observed OFC Robinet and OFC Mercadal at the northwest corner of the residence in the back yard. I maneuvered to the right of OFC Mercadal and observed the male black adult suspect lying face down, with his head generally facing westbound. He was wearing a black sweatshirt and black or dark colored pants. His right arm was positioned upward near his head and neck area, and his right hand was partially concealed from my view. I was unable to see where the subject's left hand was, or if he was in possession of any weapons. The subject was not moving from the time I first observed him.

We attempted to verbally contact the subject. OFC Trujillo asked him a series of questions attempting to get the subject to respond. He was unresponsive and remained motionless.

At approximately 2131, 3SM5 SGT Morris arrived in the back yard and the four of us (SGT Morris, OFC Robinet, OFC Mercadal, and myself) approached the suspect.
OFC Mercadal detained the suspect in handcuffs and I observed the suspect to have an injury to the right side chest/torso area that was bleeding.
The suspect was not breathing and had no detectable carotid pulse. I began chest compressions at approximately 2133 hours.
I performed a series of approximately 30 chest compressions, and then reassessed his pulse, which was still undetectable. I performed another series of approximately 30 chest compressions, after which there was no detectable pulse. I performed a third series of chest compressions, during which OFC Lundgren (as 2C55) placed a CPR mask over the suspect's mouth.
After the third series of chest compressions, the suspect did not have a detectable pulse and OFC Lundgren delivered two breaths from the CPR mask. I conducted a fourth series of approximately 30 chest compressions,

followed by another two breaths delivered by OFC Lundgren. I performed a fifth series of approximately 30 chest compressions on the suspect, followed by two breaths delivered by OFC Lundgren.
Medics arrived on scene and took over medical care after I conducted a sixth set of approximately 15 chest compressions.
Medics used a cutting tool on the suspect's clothing to expose his chest. I observed a bullet projectile near the left side of the suspect's torso which had been underneath his clothing. Medics pronounced the suspect deceased.
OFC Lundgren remained with the subject and I exited the backyard toward 29th St. I did not re-enter the backyard of [redacted] 29th St.
I assisted with a portion of scene security during the remainder of my time on scene. I was subsequently transported to JEPRF by 3SM4 SGT Bell.

At approximately 0110 hours I conducted a scene walk-through with Officer Mercadal. Present at this walk-through was LDF Attorney Zeb Davis, Detective Sergeant Start, Detective Griggs, CSI Schiele, IA Sergeant Naff, and IA Sergeant Forbeck. Officer Mercadal identified his approximate position at the time he discharged his firearm. An orange scene marker was placed in the area that Officer Mercadal identified.

At approximately 0026 hours, the Homicide Team, along with CSI personnel performed a walk-through of the crime scene.

During the walk-through, I observed the following:

29th Street/Ellwood Avenue

I observed an empty bottle of "Fireball" whiskey, without a cap on it, located in the gutter in front of [redacted] 29th Street.

While walking northbound on 29th Street, I observed the following vehicles:

I observed a White Ford Explorer (VIN #[redacted]) parked on the east side of the street in front of a trailer located in the front yard of [redacted] 29th Street. The front driver's side window to the White Ford Explorer was broken, and there was apparent broken glass located on the ground.

I also observed a Maroon Ford Explorer (VIN #[redacted]) parked on the east side of the street in front of the White Ford Explorer located in front of [redacted] 29th Street. I observed that the front driver's side window to the Maroon Ford Explorer was broken, and there was apparent broken glass located on the front driver's seat, and on the ground.

On the west side of 29th Street, I observed a silver Toyota Camry ([redacted]) parked in front of [redacted] 29th Street. The right front passenger window was broken, and there was apparent broken glass located on the sidewalk next to the vehicle. I also observed a dark colored wrought iron window guard lying on the sidewalk on the passenger side of the Toyota.

[redacted] 29th Street

In the backyard, I observed a concrete patio just west of the sliding glass door. I observed the sliding glass door that leads from the backyard into [redacted] 29th Street was broken, and there was apparent broken glass located on the concrete step underneath the broken door. Sergeant Morris advised that the resident moved his couch, and placed cardboard over the broken window to attempt to secure it prior to Detectives arriving on-scene.

I also observed a broken concrete cinder block, which was located on the concrete patio next to the step leading into the residence. The cinder block was also located next to pieces of apparent broken glass.

There was also a white metal gutter pipe located in the dirt, just north of the concrete patio, and broken sliding glass door.

[redacted] 29th Street

During the walk-through, Detectives accessed the backyard through the extended driveway located on the north side of the residence. As I walked up towards the backyard, I observed an approximate 6 foot wooden fence lying on the ground making the backyard accessible to the public. I continued to walk towards the backyard and

observed a black Chevrolet Yukon parked on the north side of the residence (STAR observed S-Clark looking into the SUV just prior to officers contacting him). I also observed numerous unattached dark colored wrought iron window guards placed on the north side of the house. The window guards on the north side of the house appeared to be similar to the one located next to the Toyota on 29th Street. Just prior to reaching the grass portion of the backyard, I observed an approximate 3 foot tall wooden fence. There was a section of the wooden gate that was unlocked, and open, which led to the rear of the residence and gave full access to the backyard. I observed that the backyard had a covered patio, and observed two couches and a picnic table underneath the covered patio.

Victim:

(S) Clark was located on the concrete patio just north of the patio cover. Due to the integrity of the scene, I did not walk up to (S) Clark's body during the walk-through.

Vehicles:

It should be noted that there were numerous other vehicles parked on the street and in the driveway within the crime scene. All vehicles were attached to the call or photographed by CSI but were not lised as they do not hold evidentiary value.

SCENE LIGHTING:

The time of the walk through was during the evening; therefore, hand-held flash flights supplied the lighting at the time of the walk through.

LOCATION:

I observed (S) Clark in the backyard of [redacted] 29th Street located on the concrete patio just north of the patio cover.

POSITION:

(S) Clark was observed lying supine on the concrete patio just before the grass area. (S) Clark's body was pointed in a west direction, and his hands were handcuffed behind his back. (S) Clark's chest was fully exposed as it appeared the Fire Department cut his clothing to provide medical aid.

Per Lieutenant Hansen's briefing, (S) Clark was initially located face down but was turned over by responding units in order to provide medical aid. There was also a large pool of apparent blood directly underneath (S) Clark's body.

There was a White Apple cell phone located approximately three feet from (S) Clark's head. There were also headphones, an orange prescription bottle that contained an apparent green leafy substance, and a projectile located near (S) Clark's left side.

CONDITION / CLOTHING DESCRIPTION:

(S) Clark's chest was fully exposed as it appeared as though his shirt had been cut by the medical personnel to provide medical attention to him. (S) Clark was wearing a black hoodie with the hood still covering his head, and a white shirt. The black hoodie and white t-shirt were the pieces of clothing that appeared to have been cut for medical purposes. I observed apparent blood on (S) Clark's white t-shirt, and sweatpants and apparent dirt on the bottom of his white tennis shoes.

There were small defects located on the upper portion of (S) Clark's black sweatshirt and white t-shirt. The defects did not appear to be consistent with damage sustained from a gunshot wound.

03/21/2018:
At 1121 hours, I met with Detective Ayers and learned he had identified a subject that was in the company of witness [redacted] and witness [redacted] just before the incident took place. "[redacted]" (no relation) had shown contacts in the north area, so Detective Ayers and Detective Alonso developed a list of addresses and planned to attempt contact at 1200 hours.

At 1325 hours, I received communication from Detective Ayers. [redacted] had been contacted and was unable to provide anything of value.

03/23/2018:
At 0720 hours, I assigned Detective Putman #870 (IV27) and Detective Severi to respond to the following locations to locate and retrieve viable video surveillance footage:

Robinson did not provide me with much confidence that she was aware of Sharma's cell phone and subject Clark's passing. Therefore, Robinson advised she would check with her chain of command and call me back.

At 1100 hours, I received a phone call from [redacted] ([redacted]). He advised worked for [redacted]. and that the firm was representing [redacted] (grandmother) and [redacted] (mother). At 1315 hours, I met with Detective Trimpey at the HOJ. I learned that Probation Officer Sharma did not meet for a meeting and his cell phone was not relinquished.

At 1328 hours, I received a telephone call from Detective Alonso. I learned that the recovered projectile did not appear to be the same type discharged from either involved officers' handguns. Nevertheless, the projectile was collected and the surrounding scene processed thoroughly. It should be noted that Detective Alonso advised the location of the bullet strike was too far east of the west side of 29th Street to have conceivably been a result of the shooting.

At 1508 hours, Detective Griggs met me in-person. He told me that the preliminary alcohol toxicology screening for subject Clark had returned (0.08% BAC).

04/03/2018:
At 1330 hours, I spoke with Coroner Gin over the telephone. She advised the final autopsy report was still not complete. Additionally, she sought the opinion of a Placer County Coroner to review the unapproved final report. Next, she requested copies of the BWC and SSD police helicopter video footage.

Subject: **DET HUNKAPILLER OBSERVATIONS**
Related date/time: **Mar-19-2018 (Mon.)**

I, Detective Hunkapiller #710, am currently assigned to the Sacramento Police Department's Major Crimes Division, Homicide Unit. My primary responsibilities are to investigate homicides, suspicious deaths, kidnappings, "in custody" deaths and officer involved shootings.

NOTIFICATION:

On Sunday 3/18/18 at approximately 2100 hrs, I was notified by Sergeant Shiraishi of a homicide team call out related to an Officer-Involved Shooting in the South Area of Sacramento. I was directed to respond to [redacted] 29th St. I responded from residence to the scene.

ARRIVAL:

Upon my arrival, I observed a very large crime scene secured by police crime scene tape, numerous marked patrol units and uniformed officers. News media crews had begun to set up on the perimeter of the crime scene. I checked in with the crime scene recorder and entered the scene. Present were numerous members of SPD Command Staff, Internal Affairs, OPSA and the District Attorney's Office per standard protocol.

BRIEFING:

At approximately 2351 hrs, Lt. Hanson conducted conducted a briefing of the incident and related the facts / circumstances known to him at that time. Per Lt. Hanson, patrol officers had responded to a call for service at [redacted] 29th St related to a subject breaking into vehicles in the neighborhood. Police helicopter STAR (Sheriff Tactical Air Response) arrived on scene and began to direct ground officers to a suspect running through backyards. Officers contacted the suspect in the backyard of [redacted] 29th St when the shooting took place. Lt. Hanson identified the shooting officers as Mercadal #752 and Robinet #520. Lt. Hanson advised that both officers were uninjured. Lt. Hanson advised that the suspect was pronounced deceased at the scene and that his body was in the backyard of [redacted] 29th St.

For a detailed summary of the briefing ** See Detective Griggs Supplement **

At the conclusion of the briefing I was assigned to oversee the crime scene investigation with Detective Koppinger and Sergeant Start. For a crime scene summary ** See Detective Koppinger Supplement **

Additionally, at the conclusion of the briefing I was tasked by Sgt. Shiraisi to contact the residents of [redacted] 29th St. and obtain their consent to process the crime scene in their backyard. ** See Follow Up **

SCENE DESCRIPTION:

The officer involved shooting occurred in the backyard of [redacted] 29th St. The residence is a two-story multi-room home that faces east onto 29th St. near the intersection of Ellwood Ave. The neighborhood therein is comprised of mostly residential homes. The backyard of the residence was overgrown with think grass, weeds.

WALK-THROUGH:

At approximately 0120 hrs, I participated in a walk-through of the crime scene led by Sergeant Morris. Sergeant Morris pointed out the evidence known to him at that time.

At approximately 0135 hrs, I participated in a walk-through of the crime scene with Sacramento Sheriff Deputy Gomez #151, who was the observer aboard STAR at the time of the incident. Deputy Gomez described the path of travel of the suspect as he observed from the helicopter. ** See Deputy Gomez Supplement **

FOLLOW UP:

While participating in the the walk throughs, I was notified that Officer Powell had been in contact with the residents of [redacted] 29th St. I instructed Ofc. Powell to advise the occupants that detectives would be contacting them. ** See Officer Powell Supplement **

Shortly thereafter, Detective Krutz and I contacted [redacted]. [redacted] inquired about the police activity about her home and stated that she heard several shots outside of her window. She was too afraid to look at the window and wanted to know what was going on. I told [redacted] that her backyard was a crime scene and we were there to investigate. She asked me if someone had died and I told her there was a deceased person in her yard. [redacted] became very emotional and began asking "is it my grandson". I told her that we did not know who the person was yet and asked her to describe her grandson. She began to show Detective Krutz and I pictures on her walls. After doing so, Detective Krutz and I walked to the backyard to observe the deceased subject. The clothing appeared to match the description given by [redacted]. Upon returning inside the residence, [redacted] was clearly distraught and advised that she had looked out the window and identified the deceased as her grandson, Stephon Clark. She began to ask for Officer Powell. I immediately exited the residence and notified Sgt. Shiraishi of the information I had learned. I contacted Officer Powell and requested she return to the scene. I requested and obtained consent from [redacted] to process the backyard. My role became to liaison with the family and oversee the crime scene investigation.

During this time a hostile crowd began to form outside of the crime scene. Several individuals within this crowd identified themselves as family and requested to speak with [redacted]. [redacted] was reluctant to speak with the crowd. Officer Powell and I escorted [redacted] to the perimeter of the scene and then back to her residence.

As the investigation progressed into morning, [redacted] arrived on scene at the request of [redacted]. [redacted] identified herself as the family liaison and I escorted her into the scene / [redacted] residence. I continued to update [redacted] as the investigation progressed and to periodically check on [redacted]

welfare. After many hours, I was eventually relieved by Sgt. Werner and I conducted introductions with [redacted] for the next shift of investigators. I ended my shift for that day.

On 3/20/18, again acting at the family liason, I met with [redacted] at police headquarters to update her on the status of the investigation and to answer questions / hear her concerns. [redacted] inquired about the number of rounds fired by officers, the area of Stephon Clark's body where he was shot, and general questions to the events that led up to the officer involved shooting. I informed [redacted] that I did not have any information related to the rounds fired and that a Coroner would determine placement of wounds to Clark's body. I advised [redacted] that officers had responded to a 911 call re: a subject breaking into vehicle(s) in the neighborhood. I explained that the investigation was still in it's infancy and information was forthcoming.

On 3/21/18, I was advised by SPD Command Staff that the COP wanted to give the family an opportunity to view the BWC video of the officer involved shooting prior to it's public release. I was tasked with reaching out to the family to facilitate the viewing. I contacted [redacted] to organize the viewing with the family. Upon contact, [redacted] expressed her desire to remove herself from the situation and that she no longer wanted to act as family liason. She referred me to [redacted] (Uncle) as the family liason going forward. I contacted [redacted] and advised him of the COP desire to facilitate a viewing of the video by the family prior to public release of the video. I found [redacted] to be courteous and amicable to a meeting.

[redacted] ([redacted]) was the agreed upon location for the meeting. I had been advised by Command Staff that [redacted] was going to facilitate the viewing with the family and [redacted] was agreeable to this location.

At approximately 1055 hrs, Officer Powell and I arrived at the [redacted] with Captain D. Risley. [redacted] and a woman who identified herself only as the family attorney arrived at the church. We met with [redacted] and all parties involved. Capt. Risley played the BWC videos from both officers and the video from the Sheriff's air unit. At the conclusion of the viewing, the family attorney and the [redacted] family had observed that the officers names were labeled on the individual video clips. The department had not released the names of the officer's involved at that time.

I was later contacted by the COP who requested I reach out to [redacted] to facilitate a phone call between the two. I contacted [redacted], who again was courteous and amicable to talking to the COP by telephone.

On 5/01/18, I was advised by SPD Command Staff that the COP wanted to give the family and opportunity to review Stephon Clark's official Coroner's Report prior to it's public release. I attempted to notify Stephon Clark's Mother and Grandmother of the Coroner Report release, will respect to Clark's "next of kin" family notification, with negative results. Numerous phone calls and messages were left without contact or call backs. I reached out

to [redacted] who immediately responded. I advised [redacted] of the pending release of the Coroner's Report and requested a meeting with the family to review the report. [redacted] agreed and requested we meet with him at the [redacted] ([redacted]).

At approximately 1330 hrs, Sgt. Shiraishi, DOJ Special Agent Brass and I arrived at [redacted] and met with [redacted]. [redacted] was given a copy of the Coroner's Report to keep for their records and he reviewed the report in our presence. During this meeting we also expressed concern for [redacted], his behavior and recent run in's with law enforcement. Special Agent Brass extended services from the DOJ to [redacted] to assist the family with [redacted]. [redacted] was courteous and amicable to any assistance.

On 6/04/18, I provided [redacted] with information, services, resources available to the [redacted] Family, [redacted].

As the investigation continued, I periodically would check in with [redacted] to extend any help or assistance to the family. I did so, until I was advised that Mr. Benjamin Crump had been retained by the family as it's legal counsel / family representative. To comply with the legal process, I terminated my contact with [redacted] family as the family liaison and advised Detective Griggs, SPD Command Staff.

End Investigation

OBSERVATIONS: DET. TRIMPEY #0806 (IV106)

NOTIFICATION:

On Sunday, 3/18/18, at approximately 2245 hours, I was notified of a homicide team call-out for an officer-involved-shooting near the intersection of Elwood and 29th St in the south area of the City of Sacramento. I responded to the scene from home and arrived at approximately 2348 hours.

ARRIVAL:

Upon arrival I observed a large crime scene marked by yellow and black police crime scene tape along. The scene extended along 29th Street between Meadowview Road to the south and Twilight Drive to the north. I observed Elwood Ave to also be secured to the east of the crime scene past 32nd Street. The perimeter of the crime scene was secured by uniformed police officers in marked black and white patrol vehicles. I exited my work vehicle and proceeded to the briefing location. Upon arrival at the briefing location, I observed the homicide team to consist of Lt. McCloskey, Sgt. Shiraishi, Sgt. Werner, Sgt. Start, Det. Griggs, Det. Hunkapiller, Det. Cruz, Det. Ayers, Det. Krutz, Det. Coughran, Det. Butler and me. I also noted Chief Hahn, Deputy Chief Bray, Deputy Chief Peletta, Deputy Chief Bernard, Captain Eklund, Captain Buckley and representatives from Internal Affairs, PSU, Office of Public Safety Accountability and the District Attorney's Office to be present. (I was notified Homicide Sgt. Kinney had left the scene prior to my arrival to download pertinent body worn camera video)

BRIEFING:

At approximately 2351 hours, Lt. Hanson briefed the assembled homicide team of all information known to him at the time. Lt. Hanson advised officers responded to a vehicle burglary in progress. Upon arrival, officers were directed to the location of the suspect by Sheriff Helicopter Star 6 who was on scene. Upon encountering the suspect in the backyard of [redacted] 29th Street, Officers discharged their firearms in fear for their lives. Two officers fired at the suspect hitting him multiple times. The Sacramento Fire Department was called immediately and upon arrival pronounced the suspect deceased. At the time of the briefing, the identity of the suspect was not known to Lt. Hanson.

WALK-THRU:

I did not participate in a crime scene walk-thru with Lt. Hanson, nor did I observe any of the public safety walk-thru's conducted with the victim officers.

CANVASS:

At the conclusion of the briefing, Detective Butler and I were requested to conduct a canvass of 29th Street to the north of [redacted] 29th Street for additional signs of vehicle or residential burglaries as well as evidence of surveillance cameras. Detective Butler and I conducted the following canvass:

[redacted] 29th Street has a visible camera mounted above the garage door which faces out toward 29th Street. The perimeter of the residence is surrounded by wrought iron fencing. Detective Butler and I contacted the resident, [redacted] ([redacted] and [redacted]), and advised her of the nature of our investigation. I advised [redacted] we were investigating a shooting which occurred down the street and would like to review her camera to determine if the perpetrator passed by her house on the way to the shooting scene. (The residence is [redacted] houses north of Elwood Ave on the east side of 29th Street) [redacted] consented for detectives to enter her house and review any and all footage on her system. Upon attempting to review footage, Detective Butler and I were unable to get the system to play back any footage from the night before. I advised Sgt. Shiraishi of the existence of video and requested a forensic specialist to respond to capture the video. I observed the video player to be Lorex and observed what appeared to be videos going back to March 1st.

[redacted] 29th Street: I observed multiple boards on the south fence line of the residence with what appeared to be fresh breaks. I observed the gate was locked and no apparent forced entry on the doors or windows behind the fence. I knocked at the front door and rang the door bell but received no answer. I advised Sgt. Shiraishi of the damaged fence.

[redacted] 29th Street: I observed a gray Dodge Charger (CA license plate [redacted]) parked in front with the passenger window rolled down. I did not observe any glass on the ground around the window which would lead a person to conclude the window was broken. I observed a security camera mounted above the garage facing 29th Street. I attempted to make contact with negative results.

Det. Butler and I continued our canvass down to Loma Verde with no additional findings.

As I was walking back towards the scene I located [redacted] standing in front of [redacted] 29th Street and he asked what was going on. [redacted] stated he lived at [redacted] 29th Street, but the cameras were a decoy and only mounted for deterrence. [redacted] provided a statement (see attached) about driving home and seeing a person halfway out of a black explorer on 29th Street with glass on the ground. [redacted] stated he thought the person was breaking in to the car, but he did not stop to investigate or call the police. During my interview with [redacted] a male described as his brother (identified as [redacted]) was present. [redacted] identified the gray Dodge Charger as his and I advised him the passenger window was down. [redacted] stated he arrived after all the police tape was up and must have forgotten to roll up his window.

On 3/20/18, I requested Velerie Brown with the Digital Forensics Video Unit to respond to [redacted] 29th Street and attempt to obtain a copy of the surveillance video from 3/18/18.

On 3/21/18, I reviewed the content of the video obtained by Valerie Brown from the residence of [redacted] 29th Street. The video surveillance system consists of three camera views.

CH1: The camera is mounted near the southwest corner of the residence. The camera faces north and shows the intersection of Twilight and 29th Street. The video begins at 1900 hours and goes until 2200 hours. At approximately 1935 hours, the ambient light begins to disappear and it is very difficult to see 29th Street. A light near the camera casts a glare on the camera. By 2015 hours, the only images visible on the street are vehicle lights. At approximately 2056 hours, the residents son arrives and parks a truck in front of the gate. At 2057 hours, the victim's son walks toward the front door and enters the residence. At approximately 2127 hours (as stamped on surveillance video) multiple code-3 police units are observed traveling south on 29th St towards the scene of the shooting. At approximately 2131 hours, the perimeter is established on 29th St by a marked black and white patrol unit with overhead lights activated. (At this point I ceased reviewing the surveillance video based upon the fact the police perimeter has been established)

CH2: This camera is mounted at the front of the residence closest to the street. The video recording begins at 1900 hours and goes until 2200 hours. This camera shows the best angle of 29th Street. At approximately 1935 hours, the ambient light is minimal and lights traveling past the house have their headlights on. The video quality allows you to see the size and shape of the vehicles which pass by. I observed the following events on camera:

-At approximately 1947 hours, an unknown male wearing a long jacket and backpack comes from Twilight and walks south on 29th St along the east curbline.

-At approximately 1958 hours, an unknown male is observed riding a bicycle southbound on 29th Street along the west curbline.

-At approximately 2013 hours, an unknown male is observed walking from Twilight and turning south on 29th Street. The male is wearing a dark jacket and light pants with an apparent plaid shirt under his jacket. The male appears to have a shaved head.

-At approximately 2056 hours a large truck parks in front of [redacted] 29th Street. The belongs to the residents son. A male is later seen unlocking and entering the yard through the exterior wrought iron gate.

-At approximately 2104:47 hours, a person appears in the front yard of [redacted] 29th Street. The person comes from south of [redacted] 29th Street. The person appears to be male in dark clothing but unknown description. The person continues across the front of the residence, in a northbound direction, and disappears from camera view at the fence-line along the northeast corner of the residence. At 2105:20 hours, it appears the person is near the top of the fence and attempting to get over.

-At approximately 2111 hours, an unknown person is observed on the west sidewalk in front of [redacted] 29th Street walking north, turning around and then walking back south after momentarily stepping into the street.

-Once the additional marked units arrived I completed watching the video.

-At approximately 2119:30 hours, a flashlight is visible on the front lawn of [redacted] 29th St and then a person holding a flashlight walks up to the residence, checks a car in the driveway and begins to knock at the front door of the residence.

-At approximately 2122 hours, it is apparent two officers are at the front door of [redacted] 29th St.

-At approximately 2123:30, at at least one of the officers walks southbound in front of the garage door of [redacted] 29th St.

-At approximately 2125:25 hours, an unknown person (likely the second officer) walks southbound through the driveway of [redacted] 29th St.

On 3/22/18, I was advised Probation Officer Raul Sharma, who supervised Stephon Clark on a domestic violence caseload, received text messages from Stephon Clark on the night he was accused of a domestic violence incident. I was advised by Sgt. Shiraishi, the probation department was having internal discussions with County Counsel whether they would make these text messages available. At approximately 1200 hours, I was requested to respond to Sacramento County Probation where Probation Officer Brian Iniguez had downloaded the contents of Probation Officer Raul Sharma's cellular phone.

At approximately 1215 hours, I contacted Probation Officer Brian Iniguez who advised the following in summary:

We responded here at the request of Assistant Chief Christina Thompson to download the contents of Raul Sharma's cellular phone because he received messages from Stephon Clark on Saturday 3/17/17. I downloaded the phone, but when I went to review the contents I saw the contents were encrypted. The encryption required a iTunes password that Raul Sharma did not know. I went to County IT and obtained a master iTunes password which should work to view the encrypted files but that password did not work. I took a screenshot of the messages and here is the message:

iMessage: Saturday 1:37 PM

Hey it's Stephon Clark
Officer Sharma?

Saturday 5:26 PM
I have to talk to you. It's urgent.

Monday (from Sharma) at 7:07 AM
Stephon I'm off on the weekends. I just got your message wussup.

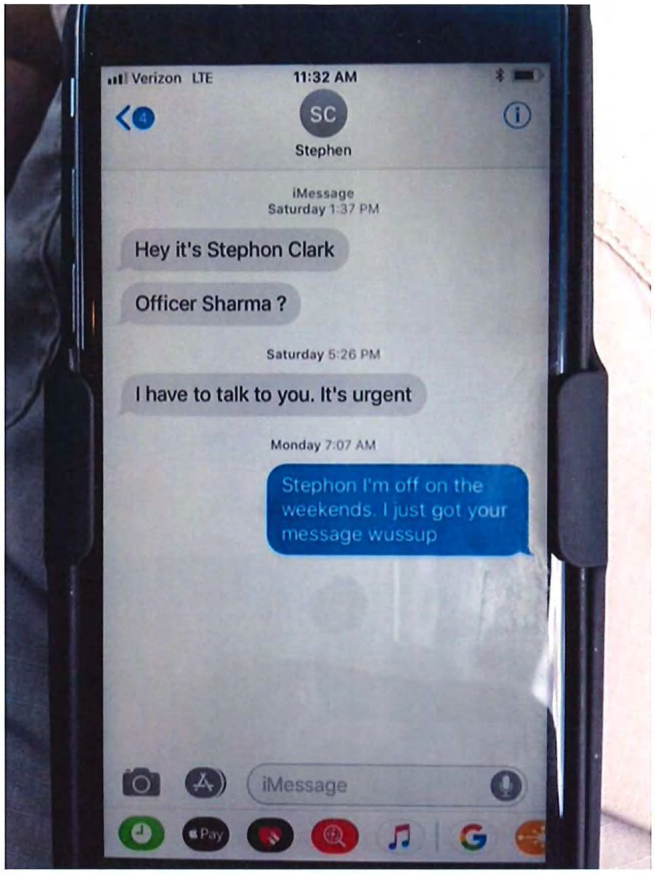

I was sent a copy of the screenshot of the message. I observed the message was under a known contact for "SC" Stephon. I noticed these were all the messages between Sharma and Clark visible to me on the screenshot. I later booked a copy of the screenshot as evidence.

On 3/27/18, at approximately 1000 hours, I received a phone message from Chris Miller who stated he was an attorney and he represented Raul Sharma. Miller advised he wanted to determine a time Sharma could be interviewed regarding Stephon Clark. I provided the contact information for Chris Miller to case agent, Detective Griggs.

Narrative Text Report # 35

Document: **06 DETECTIVE SUPPLEMENT**
Author: **8 - ALONSO, B 0803**
Subject: **PRELIMINARY AUTOPSY FINDINGS**
Related date/time: **Mar-20-2018 (Tue.) 947**

Preliminary Autopsy Results (Dr. Keng-Chih Su):

On Tuesday, 3-20-18 at approximately 0947 hrs, I, Detective B. Alonso #803 (IV54), arrived at the Sacramento County Coroner's Office *(4800 Broadway)* to attend the autopsy of Suspect **Stephon Clark, DOB: 8-10-95** ***(Coroner case# 18-01644)***. Dr. Su conducted the autopsy on Suspect Stephon Clark, which I viewed from within the autopsy room. I was able to clearly view the autopsy, hear conversations within the room, and view specific findings by Dr. Su.

X-rays had already been completed prior to my arrival. Per Dr. Su, the X-rays revealed what appeared to be four expended projectiles inside the body of Stephon Clark.

Dr. Su, Coroner Technician Laura May, Coroner Technician Alfonso Barraza, SPD Forensic Investigator *(FI)* Kacie Louie #6384, CSI Officer R. Lindner #538 and I were present in the autopsy room.

At approximately 1053 hrs, upon our arrival *(SPD personnel)* into the autopsy room, Suspect Stephon Clark's body was already on the table and the body bag had already been opened. Dr. Su informed me he had collected fingernail scrapings and fingerprints from Suspect Stephon Clark's body the day prior *(Monday, 3-19-18)*.

At approximately 1055 hrs, Dr. Su began the autopsy. FI Louie took digital photos throughout the autopsy.

While removing the clothing from Suspect Clark's body, Coroner Technician Laura May located an expended projectile inside Clark's underwear *(see below for further information)*.

The autopsy revealed Suspect Clark had sustained seven (7) gunshot wounds *(three were through and through)*. Dr. Su recovered four of the expended projectiles from Suspect Clark's body *(there were* ***five total expended projectiles located*** *during the autopsy including the one located in Clark's underwear)*. The jacketed hollow point (JHP) projectiles were located in an expanded form, yet intact, containing the metal jacket and lead core. Two lead fragments were located in the spine, next to one of the expended projectiles. While I observed the autopsy, Dr. Su noted and/or described the following injuries in summary ***(the numbers listed coincide with the numbers displayed in the CSI & Coroner photos)***:

#1: Right side of neck *(through and through)*: Single gunshot wound that entered the right side of the neck *(approximately 3" below the right ear)*, traveling right to left, horizontally. The path of the projectile travels through soft tissue and exits the left side of the neck. **Dr. Su described this injury as likely survivable.**

#2: Right upper shoulder: Single gunshot wound that entered the top of the shoulder, traveling right to left, in a downward manner. The path of the projectile traveled through soft tissue, then hit and broke the right arm bone before reaching its resting point in the right arm. **Dr. Su described this injury as likely survivable.**

Recovered Projectile from #2:
The projectile appeared to be a medium caliber (nominal .38) expanded, yet intact, JHP containing the metal jacket and lead core.

#3: Right back shoulder *(nearly in-line with the armpit)*: Single gunshot wound that entered the right upper back *(shoulder)* area, traveling right to left, slightly back to front. The path of the projectile traveled through soft tissue before reaching its point of rest at the left scapula. **Dr. Su described this injury as likely survivable.**

Recovered Projectile from #3:
The projectile appeared to be a medium caliber (nominal .38) expanded, yet intact, JHP containing the metal jacket and lead core.

#4: Right armpit area: Single gunshot wound that entered the right side of the body *(at the armpit)*, traveling right to left, slightly back to front. The path of the projectile traveled though soft tissue, then lacerated the aorta before traveling to its point of rest in the left chest wall. **Dr. Su described this injury as immediately life-threatening and *"likely fatal."***

Recovered Projectile from #4:
The projectile appeared to be a medium caliber (nominal .38) expanded, yet intact, JHP containing the metal jacket and lead core.

#5: Right side - below/behind #4 *(through and through)*: Single gunshot wound that entered the right side of the body *(approximately 5" below the armpit)*, traveling right to left, slightly back to front. The path of the projectile traveled though soft tissue, then lacerated the heart before it exits the left side of the body *(approximately 3" below the armpit)*. **Dr. Su described this injury as immediately life-threatening and *"likely fatal."***

#6: Right side - below/behind #5 *(between the waist and armpit level)* - : Single gunshot wound that entered the right side *(slightly back)* area of the body *(approximately between the waist and armpit level)*,

traveling right to left, slightly back to front. The path of the projectile traveled though soft tissue, then hit the spine, where it came to rest. **Dr. Su described this injury as likely survivable.**

Recovered Projectile from #6:
The projectile appeared to be a medium caliber (nominal .38) expanded, yet mostly intact, JHP containing the metal jacket and lead core. Two lead fragments were also recovered in the spine, near the projectile.

#7: Left upper leg *(through and through)*: Single gunshot wound that entered the front, lower quadricep area *(approximately 5" above the knee)*, traveling front to back, in an upward manner, and exits the lower portion of the left buttocks. This projectile was located in the left back portion of Clark's underwear. **Dr. Su described this injury as likely survivable.**

Recovered Projectile from #7:
The projectile appeared to be a medium caliber (nominal .38) expanded, yet intact, JHP containing the metal jacket and lead core.

At approximately 1445 hrs, Dr. Su concluded the autopsy.

Cause of Death (COD): Dr. Su determined the COD to be multiple gunshot wounds; however, he told me GSW #4 and/or #5 were likely fatal injuries.

The five recovered projectiles were the size of a nominal 38 *(referring to nominal .38 caliber, which is a medium-sized caliber)* and was consistent with a .38 caliber, 9mm, .40 cal, 10mm, etc.

Dr. Su noted 3 total rib fractures: Left #2 & #5, Right #3.

All clothing, expended projectiles and any additional evidence was retained by the Sacramento County Coroner's Office.

I later advised Sacramento Police Department Homicide Sergeant J. Shiraishi #3093, Detective J. Griggs #670 and Detective M. Cruz #278 of the preliminary findings.

Author: **3592 - SEVERI, MICHAEL 0456**
Subject: **OBS SEVERI #456**
Related date/time: **Mar-20-2018 (Tue.) 1015**

I, Detective Severi #456 (IV100), have been employed by the Sacramento Police Department since 2005. I am currently assigned to the Office of Investigations as a Detective with the Felony Assaults Unit. My primary duties are to investigate and/or assist with the investigation of crimes including, but not limited to assaults with deadly weapons, felony batteries, kidnapping, and homicide.

On 3-20-18, at approximately 1015 hours, Det. Putman and I responded to Central Valley Towing (Evidence Impound N 16th Street lot) at the request of Homicide Sergeant Shiraishi. Sgt. Shiraishi asked if Det. Putman and I could oversee Forensic Investigators in the evidence processing of three (3) vehicles related to the officer-involved shooting investigation. Sgt. Shiraishi provided me with the following list of the three (3) vehicles, in order of when he wanted each processed:

- VIN only: [redacted] maroon/purple Ford Explorer
- License Plate: [redacted] 1997 Toyota Camry
- License Plate: [redacted] 1993 Ford Explorer (white)

Forensic Investigators (FIs) Izaguirre and Rossi were already on-scene upon our arrival, on CSI call# 18-83722. All three of the above vehicles were on-scene and parked next to each other. The FIs processed the maroon Ford Explorer first, followed by the white Ford Explorer and the Camry. Det. Putman and I assisted by answering questions posed by the FIs, alond with being a liaison between the FIs and Lead Detective Griggs. Det. Putman and I also conducted searches of the vehicles at the request of Det. Griggs.

I located a piece of white plastic on the driver's floorboard (atop the mat) of the maroon Ford Explorer. One end looked as though it had been ripped/torn off, and the other end appeared to have a burn mark on it, both of which are consistent with narcotics packaging. Photographs of the plastic material were taken by FIs, and the item was seized/booked as evidence. There was a brick located on the front passenger floorboard of the white Explorer, which is consistent with it being used to break the front driver's side window of the white Explorer. This item was also photographed and booked as evidence. I located a "King Cobra" empty bottle of beer in a brown paper bag atop the rear passenger side of the white explorer. This item was also photographed/booked as evidence. A screwdriver was photographed/booked, which was located atop the rear bumper of the white Ford Explorer. See attached CSI supplements and property reports for further. Det. Putman and I cleared from the tow yard at approximately 1430 hours and returned to SPD Headquarters.

When I got back to SPD Headquarters, Det. Cruz asked if I could look into the registration information on the maroon Ford Explorer. The VIN was damaged on the maroon Explorer. The record check done by original responding officers attached the VIN as [redacted] This is not a valid VIN and does not return as a registered vehicle. It was still used to tow the maroon Explorer, which was entered into SVS as impounded under

FCN 4301807801474. The Ford was entered as a 1990 purple Explorer with no license plates. CSI was able to photograph a secondary VIN on the door of the maroon Explorer. The correct VIN for the maroon Explorer is [redacted] which returns in DMV as a 1993 Ford Explorer. The license plate registered to this VIN is CA: [redacted]

The white Explorer was towed and entered into SVS as impounded by the license plate it had on the rear of the vehicle (CA: [redacted] The confusion is due to somebody putting the maroon Explorer license plate onto the white Explorer. The VIN attached to the white Explorer is [redacted] which shows to be registered to a 1999 Ford Explorer. The license plate registered to this 1999 Ford Explorer should be [redacted] which was not on the vehicle. I went into our records division and explained the error with the vehicle update unit, who took down the correct information and fixed the issue. I spoke with Det. Koppinger, who was in charge of the crime scene and in possession of the original tow forms. We spoke with Sgt. Shiraishi who advised to complete new tow forms but also keep the originals to show the differences, but to not alter them. Det. Koppinger completed this task. See attached.

I, Detective Ayers #763, am assigned to the Sacramento Police Department's Homicide Unit.

NOTIFICATION:

On Sunday, 3/18/18, at approximately 2148 hours, while off-duty and off-call, I received a text notification from Sergeant Werner (Homicide Sergeant) that there was on Officer Involved Shooting and that additional personnel were needed. At 2248 hour, I was notified that the Homicide Team call-out was official and to respond to the location of 32nd Street and Ellwood Avenue.

ARRIVAL AND BRIEFING:

At approximately 2310 hours, I arrived on scene and checked in with the Crime Scene Recorder. I observed the crime scene to be secured with yellow police tape, uniformed police officers and marked patrol vehicles. I made contact with Detective Sergeant Shiraishi who was in charge of the OIS investigation.

At approximately 2247 hours, once the homicide team and CSI team were present, Lieutenant Hanson #4084 briefed us on the facts and circumstanced known to him at the time. During the time the briefing was given, the suspect had not been positively identified and was described as a male black adult, approximately 18-20 years old.

Lieutenant Hansen advised the following involved officers location / involvement:

At approximately 2110 hours, two units had initially responded to the location of [redacted] 29th Street regarding a subject breaking into vehicles.
Officer Mercadel #752 (1C57) (later interviewed by Detective Cruz)
Officer Robinet #520 (1C54) (later interviewed by Detective Griggs)

WALK-THROUGH:

Based on the need to minimize foot traffic, I did not participate in a walk-through of the scene.

LEGAL ACCESS TO THE SCENE:

The scene consisted of the backyard of [redacted] 29th Street residence. Detective Hunkapiller had spoken to the resident, [redacted] 29th Street and received consent to search the backyard of that residence. Patrol had also obtained consent to search the backyard residence of [redacted] 29th Street where suspect had smashed out the back patio

sliding glass door prior to confronting Officer Mercadel and Officer Robinet in the backyard of [redacted] 29th Street.

DEPARTURE:

At approximately 0040 hours, after the briefing, I departed the scene and returned to Police Headquarters to assist with conducting witness interviews and any additional follow-up needed by Sergeant Shiraishi.

DETECTIVE FOLLOW-UP:

Detective Griggs was assigned as the case agent. Sergeant Shiraishi assigned the following detectives to conduct interviews on the involved officers: Detective Griggs (Officer Robinet) and Detective Cruz (Officer Mercadel).

I was assigned to interview witness [redacted] who resided at [redacted] 29th Street inside a trailer was had confronted the suspect (described as a male black adult, 18-20 years old) after he had broken into his white Ford Explorer that was parked just outside his trailer on the east side of 29th Street. During the interview, [redacted] stated that the suspect was possibly a male black, but said that he couldn't really get a good look at his face because it was dark and he had been wearing a black hoodie. During our conversation, [redacted] stated that he didn't see anything in the suspect's hands when he took off across the street after he went and grabbed a baseball bat to confront him. At one point of the interview, I took a break and reviewed what information Detective Coughran had received from girlfriend, [redacted]. Detective Coughran had stated that [redacted] had stated that she was outside with [redacted]'s friend "[redacted]" (unknown last name, but described him as an older male black in his mid to late 50's) and watched suspect walk westbound Ellwood Avenue to the Toyota Camry and smash the passenger side window. After that occurred, [redacted] stated that "[redacted]" left and she went inside the trailer with [redacted] I re-contacted [redacted] and asked him about "[redacted]". "[redacted]" was identified as [redacted], DOB: [redacted], XREF: [redacted].

On Monday, 3/19/18 at approximately 1230 hours, I responded back to the scene located at [redacted] 29th Street and relieved the original scene detectives (Detective Hunkapiller and Detective Koppinger). I was assisted by Sergeant Werner and Detective Krutz. The Sacramento County Crime Lab was already on scene assisting SPD CSI in processing the scene.

Detective Krutz and I assisted CSI in searching for bullet projectiles that possibly traveled south of [redacted] 29th Street into the backyard area of [redacted] 29th Street and [redacted] 29th Street based on the bullet projectile analysis conducted by the Sacramento County Crime Lab. CSI provided me with a metal detector where I checked the backyard of [redacted] 29th Street and Detective Krutz checked the backyard of [redacted] 29th Street. In searching the backyard of [redacted] 29th Street, I located one (1) bullet projectile in the grass area of the filled in built-in pool. The bullet projectile was located on the northern end of the pool area (closest to [redacted] 29th Street). After locating the projectile, I placed an orange cone over the bullet projectile and later pointed it out to CSI to be photographed and collected as evidence.

Follow Up Report # SA 2 - NOT COMPLETED

While on scene, there were some additional family members that arrived and were permitted to enter the secured area and escorted to the residence of [redacted] 29th Street to be with family.

I, Detective Putman #870 (IV127) have been employed by the Sacramento Police Dept since 2005. I am currently assigned to the Felony Assaults Unit where I regularly assist the Homicide Unit in the investigation of homicides, Officer involved shootings and deaths in custody.

On 3-21-18 Homicide Detective Griggs tasked me with watching In Car Camera (ICC) and Body Worn Camera (BWC) video footage from 2 Sacramento Police Dept patrol contacts related to a Toyota Camry CA [redacted] The call/report number from the first contact is 18-6049 which took place on 1-7-18. No BWC footage exits of this call because Officers were not yet equipped with BWCs. In the ICC video I observed Officers Nedeljkovic and Kellerman contact 2 MBAs who they identified as [redacted] ([redacted]) and [redacted] ([redacted]). A report related to this traffic stop was completed and documents the above two individuals and the vehicle. The call/report number for the second contact is 18-31810 which took place on 1-31-18. BWC video of this contact was observed; however, no report was completed related to this traffic stop. In the BWC video I observed Officer Bavaro speaking with [redacted] ([redacted]). On the call Officer Bavaro documented that [redacted] did not have a valid CDL and that his sister, [redacted] ([redacted]), drove that car away after the stop. I observed [redacted] in the BWC as well.

On 3-23-18 Detective Sergeant Shiriashi tasked me with collecting video footage of the areas of Detroit Blvd and Meadowview Rd and 24th St and Meadowview Rd. I collected 2 DVD's from the Real Time Crime Center (RTCC) that contained traffic cameras of this area. The original DVDs were booked as evidence (PR# 989340-0). I also responded to the area of 24th St and Meadowview Rd and found that the [redacted] mobile phone store located at [redacted] 24th St was no longer an active business and have no cameras to the exterior of the building.

BRIEFING:

On 3-18-18, at 2351hrs, I attended a briefing given by Lt. Hanson #4084 regarding the facts of the case known at the time. Hanson stated that a call for service was initiated at 2110hrs to [redacted] 29th St regarding a car clout. The caller stated someone was breaking into a car on the street. Officer Mercadal and Officer Robinette arrived on scene at 2118hrs and confronted a suspect in the back of [redacted] 29th St and subsequently shot him there.
Lt. Hansen stated that patrol officers had contacted [redacted] who lived in a trailer in the driveway of [redacted] 29th St. [redacted] stated that his girlfriend [redacted] had called him outside because someone was breaking into a car across the street. [redacted] didn't do anything and went back into his trailer. The subject started to break into his car, a white Ford Explorer and [redacted] confronted him. The subject moved to another car and broke the window of that and then fled into the back of [redacted] 29th St. [redacted] lost sight of him but saw the officers arrive and then heard the shots after that.

Patrol officers had also contacted [redacted] who stated that she was [redacted] girlfriend. She had been out front of the trailer talking to her friend named [redacted] when she saw the suspect break into a car across the street. She got her boyfriend who came out of the trailer but didn't confront the suspect until he had broken the windows of an Explorer that belonged to her boyfriend. The subject then moved to another vehicle to the north and broke the window of that before fleeing into the back of [redacted] 29th St.

[redacted] the resident of [redacted] 29th St was contacted and stated that he was watching TV when someone broke his sliding glass door. He didn't see who did it and he didn't hear any shots.

The Sacramento Sheriff's Department Helicopter arrived on scene after the subject had broken the third car window and fled into the back of [redacted] 29th St. The observer, Deputy Gomez #151, stated he first caught sight of the suspect as the suspect was in the back yard of [redacted] 29TH St. He then saw the suspect jump the fence and go into the back yard of [redacted] 29th St. Deputy Gomez directed officers to the suspect in the back of the residence where the shooting occurred.

Lt. Hansen also stated that the occupants of [redacted] 29th St had been contacted. [redacted] had said she was inside when she saw flashes and heard gunshots. [redacted] had stated that he heard a knock on his window and someone said [redacted]

Patrol officers had contacted several other subjects in the area who had heard the gunshots.

WALK THROUGH:

I participated in a walk through of the crime scene led by Lt. Hansen.

SCENE:

[redacted] 29th St is a two-story house located on a western side of a residential street in Sacramento CA.

****

After the briefing, I was instructed by Sgt Shiraishi to interview [redacted], and [redacted].

I contacted [redacted] at his residence and obtained his statement. [redacted] was hearing impaired and I had to repeat myself several times for him to understand me. He said he was watching a William Holden movie when his sliding glass door was shattered. He jumped out of his seat and turned and saw that his door was shattered. He didn't see who did it. By the time he turned around the person was gone. He said the cinder block that was on his patio and cracked had been by his fire place out back. (My body worn camera was on and recording while I contacted [redacted].) See attached statement.

I then accompanied Det Hunkapillar into [redacted] 29th St and began speaking with [redacted]. She stated that she was sitting at her computer near to her kitchen when she saw a flash and then heard several

shots. She said she hit the floor and then crawled over to her granddaughter, [redacted], who was asleep on the couch near the rear window of the house. She grabbed [redacted] and they crawled to [redacted]'s room. She stated she didn't look out of the window to see what was going. Det Hunkapillar then explained to her that her backyard had become a crime scene and we needed to process it. [redacted] asked if there was someone dead in her backyard. She then said that she hoped it wasn't her grandson, Stephan. We asked her to describe Stephan and what he was wearing and she did so. Det Hunkapillar and I then left and went to the rear of the house. The clothing on the suspect matched the description given by [redacted]. (My BWC was activated during this interaction with [redacted].) See attached statement.

I spoke with [redacted] four times while on scene. Each contact was recorded on my body worn camera. My last interaction with her was as she was walking to a perimeter position in an attempt to speak with her son [redacted]. At the end, she asked me to check on her grand daughter and husband. I returned to her residence to do so. I then contacted [redacted] who was in his bed and [redacted], [redacted]'s granddaughter and obtained their statements. [redacted] said she was asleep until her grandmother woke her up and had her crawl into the bedroom. [redacted] said that he heard some knocking on the window and then he heard three or four shots and he didn't remember anything else. He also said he heard talking but he couldn't make out what was being said. (My BWC was activated during this interaction.) See attached statement.

I was then instructed to go to HOJ.

On 3-19-18, I was instructed to return to the scene and relieve Det Koppinger and Det Hunkapillar. I arrived on scene at 1247hrs. Members of the Sacramento Police Department CSI Unit and the Sacramento County Crime Lab were processing the scene.

At 1418hrs, I contacted [redacted] over the phone at [redacted] and asked for her consent to search her backyard at [redacted] 29th St for projectiles. She consented to the search over the phone. I was instructed to use a metal detector to search the backyard for projectiles and I did so. I located a projectile in the ground near the southwestern corner of the yard. I also located what appeared to be a bullet strike on the back fence and what appeared to be a bullet embedded in the wood of the fence on the southern fence line (see the CSI report for measurements and photographs.)

At 1645hrs, I obtained consent from [redacted], to search her backyard at [redacted] 29th St. I didn't find anything of evidentiary value in the backyard.

[redacted] 29th St, was the other half of a duplex also occupied by [redacted] 29th St. The residence was vacant and there was a real estate lock box on the door. The side gate was open. I was able to enter into the backyard and saw no bullet strikes on the fence and located no evidence in the yard.

The processing of the scene was finished at approximately 2000hrs and employees of Hygiene Tech arrived at approximately 2005 hours. They decontaminated the scene in the back yard of [redacted] 29th St.

I cleared the scene at 2045hrs.

On 3-21-18, I downloaded the video from my body worn camera. A copy of the video was booked into evidence at HOJ. I forwarded audio copies of the statements I had taken to Net Transcripts to be transcribed.

I received the transcriptions and then reviewed them for accuracy on 4-6-18.

SERGEANT SUMMARY REGARDING HOMICIDE TEAM CALL-OUT:

NOTIFICATION AND ARRIVAL:

On Sunday, 03/18/18, at 2143 hours, I, Sergeant Kinney #3052, was notified by Sergeant Shiraishi of an impending homicide team call-out. I arrived on scene at 2253 hours and observed the crime scene to be secured with yellow crime scene tape, uniformed police officers and marked patrol units. I met with Lieutenant McCloskey and was tasked with the retrieval of In Car Camera (ICC) and Body Worn Camera (BWC) footage.

DETECTIVE FOLLOW-UP:

On scene, I removed the SD memory cards from the following police vehicles: 10768, 11538, and 12395. I secured the memory cards in my police vehicle. I also collected the BWC from Sergeant Morris #3120 who was still on scene.

I responded to JERPF and collected BWC's from the following officers: Officer Trujillo #846, Officer Tayler #741 and Officer Lundgren #970.

CSI Responded to JEPRF and took overall photographs of Officer Mercadal #752 and Officer Robinet #520. After they had been photographed, I collected their BWC's.

I responded to Police Headquarters and with the assistance of Officer Scurria, we uploaded all ICC and BWC footage that had been obtained.

Upon video upload, BWC's were returned to the officers and I returned the ICC memory cards to their respective vehicle.

INVOLVED WEAPON, OFFICER ROBINET #520:

On 03/19/18, at 0259 hours, in interview room 2, I conducted a round count on the weapon belonging to Officer Robinet. It should be noted that this magazine is shown to hold (15) rounds but has a magazine base plate extension installed which allows the magazine to hold a total of (16) rounds. Upon inspection, I observed the pistol to have a tactical light attached to the front rail. At the time of the inspection, the light was not working. I had Officer Robinet remove his pistol from his holster and I found the weapon to be in the following condition: (1) round in the chamber and (17) rounds in the magazine. This magazine has a

17 round capacity. This magazine had been tactically reloaded after the shooting. Officer Robinet carries two additional magazines on his Sam Brown belt. The first magazine he removed from his belt was the magazine that had been in the pistol at the time of the shooting. This magazine contained (6) rounds which indicated he fired a total of (10) rounds. The second magazine removed from his Sam Brown belt was a (17) round magazine that contained (17) rounds. Officer Robinet stated that he was not carrying an additional back-up weapon on his person.

Forensic Investigator Behrens took custody of the firearm. Officer Robinet was issued a replacement firearm (Sig Sauer, serial UU746768).

At 0321 hours, in interview room 4, I conducted a round count on the weapon belonging to Officer Mercadal. He was armed with a department issued Sig Sauer P226, .40 caliber, semi-automatic pistol, serial #UU749964. The pistol was equipped with a functioning tactical light attached. Per Officer Mercadal, prior to the shooting, the pistol was fully loaded with (12) rounds in the magazine and (1) round in the chamber for a total of (13) rounds. On 3-18-18 at about 2130 HRS I received notification of an officer involved shooting that had occurred in the south area of Sacramento. I received the official call out at 2245 HRS. I was already on route and arrived at the outer perimeter of the scene at 2322 HRS. Numerous other SPD detectives, supervisors, command staff, internal affairs personnel, and SPOA representatives were already on scene or were arriving around the same time.

Prior to the briefing I was designated as the case agent for this investigation. As case agent it is my responsibility to document the information relayed at the time the case is handed from patrol personnel to the investigative team. I am also responsible for coordinating and documenting any follow up investigation, interviews, and subsequent evidence gathering after the initial scene processing. Detective Cruz was assigned to assist in the investigation. Scene processing and documentation was assigned to Detective Hunkapiller and Detective Koppinger.

At 2351 HRS patrol Lieutenant Hansen #4084 provided a briefing of the facts known at that time. The briefing details provided by LT Hansen #4084 were as follows:

At 2110 HRS SPD received a call to [redacted] 29th Street regarding a car clout in progress. The call was dispatched at 2115 HRS. The report number is 18-82449.

The weather at the time of the CAD call was clear, 49 degrees.

1C57 OFC Mercadal #752 and 1C54 OFC Robinet #520 arrived on scene at 2118 HRS.

SSD STAR (helicopter) arrived around the same time as OFC Mercadal and OFC Robinet. The observer in STAR was Deputy Gomez # 151.

Officers Mercadal and Robinet were guided by Star to a subject fleeing. Star broadcast a foot chase and that Officers had the suspect at gunpoint. Deputy Gomez then broadcast that the suspect began running again and there were shots fired.

The suspect is a male black adult, 18-20 years old.

SFD Engine 16 and Medic 57 responded and did not transport the suspect. Captain Green, Firefighters Vargas-Terran, Caserza, and Simons responded. The suspect was pronounced deceased at 2142 HRS by Firefighter Simons.

The suspect was in the rear yard of [redacted] 29th Street and was handcuffed.

The original CAD caller was [redacted] ([redacted]) who lives at [redacted] 29th Street inside a 5th wheel trailer in the front yard. His telephone number is [redacted]. He stated he was inside his trailer with his girlfriend [redacted] [redacted] got his attention because there was a person breaking into a car across the street at [redacted] 29th Street. [redacted] and [redacted] did not call PD at that time because it was not their car. A few minutes later [redacted] heard the suspect breaking into his Ford Explorer that was parked out front. [redacted] went outside with a baseball bat and confronted the suspect. He told his girlfriend to go get his gun, but he was bluffing, because he doesn't own a gun. [redacted] then saw the suspect go to the house across the street and jump the fence.

[redacted] later saw the cops run down the street, heard someone yell "Stop" and "Police" and also heard 10 gunshots from 2 guns. He described the shots a 7-round volley, then a 3-round volley.

[redacted] was detained with Officer Novak #840 (1C51).

[redacted] [redacted] ([redacted]) was also contacted. She resides at [redacted] 29th Street inside the trailer with [redacted] [redacted] Her telephone number is [redacted]. SGT Morris went into the backyard and there was no weapon observed or recovered.

SSD Helicopter personnel were on route to bring their video but it was unknown how much was recorded.

A neighborhood canvass was done on the east side of 29th street from [redacted] to [redacted] by Officer Howard (1C65). Ellwood was also canvassed east from the location to the next street east.

Officer Clatterbuck was responsible for completing the general offense report.

END OF BREIFING DETAILS.

At 0018 HRS Detective Giy (working as a patrol officer) handed me a large envelope containing a disc with the helicopter video. At 0029 HRS I provided this envelope to Detective SGT Werner per his request.

At 0026 HRS we performed a walk-through of the scene on 29th Street as well as the shooting scene. I entered the rear yard of the residence and observed the suspect (whose identity was not yet known) on his back with his head towards the west. There was a white colored cell phone on the ground near his head. The back yard was very dark, and we could only see what was illuminated with our flashlights.

At 0041 HRS we performed a walk-through of the rear yard at [redacted] 29th Street with Deputy Gomez, the SSD helicopter observer. Deputy Gomez identified a broken cinder block near the slider as the object that the suspect had used to break the slider.

At 0100 HRS I conducted a walk through of the scene with Officer Robinet and his representative, Ace Tate. Officer Robinet pointed out the location of his patrol vehicle # 11538 parked on the west curb of 29th Street facing northbound. Officer Robinet showed me the position he was in when he fired his handgun. He pointed out the northwest corner of the house at [redacted] 29th Street and I placed a green cone to mark his position. Officer Robinet estimated he fired 7-8 rounds in a southern direction.

Just after the walk-through with Officer Robinet I met with Detective Hunkapiller at 29th Street and Ellwood. I had heard him ask over the police radio for a community chaplain. Detective Hunkapiller advised that the deceased suspect in the rear yard was [redacted]'s grandson.

Detective Hunkapiller was assigned to be the family liaison. Officer Powell was summoned back to the scene to assist since she had already developed a rapport with [redacted].

At 0126 HRS I responded back to SPD headquarters to begin the interview process with the involved officers. I arrived at SPD headquarters at 0133 HRS.

Once at SPD headquarters I received the tentative identification of the deceased suspect as Stephon Clark (8-10-1995).

I was directed to show body worn camera footage from both Officer Robinet and Officer Mercadal to Officer Robinet, prior to his interview. Both body worn camera videos depict nearly the same images and sound, from a slightly different perspective.

At 0208 HRS I facilitated the viewing of the two BWC videos to Officer Robinet in a private office in the Homicide investigations area of SPD headquarters. Officer Robinet's legal representative, Ace Tate, was also present for the viewing. The following BWC videos were shown:
X-81201231. 3-19-18 04:18:40-04:35:48 (UTC time stamp).
X-81132605. 3-19-18 04:18:56-04:35:46 (UTC time stamp).

The SSD helicopter video was not provided for viewing to Officer Robinet or Mercadal.

At 0257 HRS SGT Kinney conducted a "round-count" with Officer Robinet in interview room #2. The round-count was video recorded and later sent for transcription (See attached). The video recording of the round count was later booked into evidence under PR# 989927-2.

At 0313 HRS I interviewed Officer Robinet inside interview room #2. The interview was video recorded and sent for transcription (see attached). The video recording was later booked into evidence under PR# 989927-1.

I reviewed Stephon Clark's previous law enforcement contacts. Of interest was a domestic violence incident that had occurred just two days prior at his residence in the north area of Sacramento. Clark was wanted on probable cause for 273.5 PC -domestic violence, related to that incident. There was also another domestic violence incident on 3-1-2018 documented as an information report under SPD 18-63183.

On 3-20-18 at 1327 HRS I contacted [redacted] by telephone. The telephone call was recorded and later copied to a CD and booked as evidence under PR # 989927-6. [redacted] told me that Clark had tried to call and FaceTime (video chat) her at about 1700 HRS on 3-18-2018, but she had missed his call. [redacted] stated she had not talked with him since the police were dispatched to her house on Friday evening (3-16-2018). [redacted] told me that the cell phone Clark had at the time of the shooting belonged to her. She provided that phone number as [redacted]. She denied knowledge of the passcode to the phone. She stated that Clark had exchanged text messages with her. [redacted] agreed to come to SPD headquarters between 1700 HRS and 1800 HRS on 3-20-2018. [redacted] did not arrive to her scheduled interview. I attempted two more times to call her on 3-20-18 and the calls went to a voicemail box that was not set up. I was unable to leave a message. I learned the next morning that [redacted] had given interviews to television and radio stations.

On 3-20-18 I submitted evidence processing requests for CSI to complete evidence processing of three vehicles that had been evidence impounded from 29th Street. The vehicles were two Ford Explorers, and a Toyota Camry. I requested that each vehicle be processed for fingerprints, DNA, and any potential blood evidence.

On 3-20-18 Detective Alonso was assigned to attend and report on the autopsy of Stephon Clark. Upon his return he reported that Clark's bullet injuries were mostly on his right side, with a right to left trajectory. Clark also had a gunshot injury in he left upper leg, with a front to back and upward trajectory.

On 3-20-18 I provided Supervising Deputy District Attorney Tan Thinh a telephone briefing of the facts known at that time. DDA Thinh requested he be provided with the relevant video evidence as soon as possible.

On 3-21-18 at 0808 HRS I inquired with DDA Andy Solomon regarding the evidence processing from Officer Mercadal and Officer Robinet's firearms. Detective Coughran had delivered the firearms to the Sacramento County Crime Lab on 3-19-18. DDA Solomon requested an additional DA-7 be completed to expedite the processing. I provided DDA Solomon with a DA-7 evidence processing request for each handgun to be checked for functionality. I also requested the lab test fire and retain a projectile and shell casing from each. DDA Solomon approved the DA-7 and forwarded it to the lab.

On 3-21-18 I met with DDA Tan Thinh and provided him with copies of the video recordings from Officer Robinet and Mercadal's body worn cameras, the video recordings of their interviews, as well as the SSD helicopter footage.

On 3-22-18 Detective Cruz retrieved Officer Mercadal and Officer Robinet's firearms from the Sacramento County Crime lab and delivered them to the Homicide Office.

On 3-23-18 at 1104 HRS I placed two calls to Sacramento County Probation Officer Raul Sharma (office and cell phone). There was no answer so I left a message requesting a return call to talk about Stephon Clark.

On 3-23-18 I received the alcohol report from the Sacramento County Crime Lab from the analysis of Stephon Clark's blood. Clark's femoral blood contained .08% Ethanol the time of his death.

On 3-23-18 I received the certified forensic "Shot Spotter" report detailing all 20 gunshots fired in this incident. The report was later copied to a CD and booked into evidence under PR#989927-7.

On 3-27-18 at 1059 HRS The Honorable Judge Matthew Gary signed a search warrant I had prepared for the cellular phone located near Stephon Clark as well as the cell phone records for his cellular telephone number [redacted] from 3-1-18 to 3-19-18. The warrant had been reviewed and approved by DDA Tan Thinh. Judge Gary also signed a sealing order for the warrant.

Stephon Clark's phone was locked with a 6-digit pass-code so SGT Kinney arranged for the phone to be shipped to Cellebrite to be examined and unlocked.

At 1514 HRS I served the search warrant to AT&T for Stephon Clark's cell phone records. The warrant was served via email.

On 3-27-18 I received the toxicology report from the Sacramento County Crime Lab from the analysis of Stephon Clark's blood. Clark's blood contained the following drugs:

16ng/mL of Delta-9-THC (+-3ng/mL), 2.3 ng/mL of 11-Hydroxy-THC (+-.5ng/mL), 236ng/mL of 11-nor-9-Carboxy-THC (+-54 ng/mL), 60 ng/mL of Benzoylecgonine (Cocaine metabolite) (+-11ng/ mL), 120ng/mL of Codeine (+-16ng/mL), 82ng/mL (+- 16ng/mL) of Alprazolam (Xanax), and 5.8ng/mL (+-.5ng/mL) of Etizolam.

On 3-28-18 at about 0915 HRS all future evidence processing assignments (of the evidence gathered at the original crime scene) were tasked to Forensic Investigator Krisha Lovitto.

On 3-29-18 SGT Kinney provided me with a shipping package from Cellebrite. Detective Cruz and I filled out Cellebrite's evidence envelope and packaged Stephon Clark's cellular phone within the shipping package. I sealed the package and delivered it to the UPS Store at 1026 Florin Road in Sacramento. Cellebrite had provided us with a shipping label for expedited UPS Next Day Air service with tracking number 1ZAA18078432628244.

Between 3-30-18 and 4-9-18 I was out of the office. Detective Cruz acted as lead investigator during that time and took over case responsibility. During my absence CA DOJ Special Agent Terrance Brass and Special Agent Supervisor Trevor Dewar joined the investigation and were provided a workspace at SPD headquarters as well as access to all documents, reports, videos, recordings (etc) relevant to this investigation. Upon my return to work on 4-9-18 Detective Cruz briefed me on the events that had occurred in my absence.

During my absence Detective Cruz and DOJ SA Brass had interviewed Sacramento County Probation Officer Sharma who was represented by Supervising Sacramento County Council Rick Heyer, and his union representative; Chris Miller. Rick Heyer blocked most of the relevant questioning during the interview and very little information was gleaned. Heyer cited penal code section 1203.05 as the authority to keep Stephon Clark's probation information confidential.

On 4-9-18 I received the cellular telephone records from AT&T for Stephon Clark's cellular telephone [redacted]. The records were booked into evidence under PR 989927-3.

On 4-10-18 at about 1000 HRS Detective Cruz, SGT Shiraishi, DOJ SA Supervisor Dewar, and DOJ SA Brass met with FI Krisha Lovitto, DDA Rod Norgaard, and several representatives from the Sacramento County Crime Lab (SCCL). The meeting took place at the SCCL. The objective of the meeting was to identify and coordinate the evidence processing to be completed by the three separate agencies.

On 4-10-18 at about 1345 HRS Detective Culp, myself, and DOJ Special Agent Terrance Brass contacted [redacted] ([redacted]) in front of [redacted] 29th Ave. We requested to return to the backyard at the residence to attempt to locate a sample of the shattered glass door if such a sample remained. [redacted] was cooperative and provided us access to the rear yard. There was still a large pile of broken glass beneath the rear sliding glass door. I photographed and collected a sample of the broken glass. I later booked the glass into property under PR #991150-1.

On 4-17-18 Detective Cruz served a search warrant on www.Facebook.com for the account records of Stephon Clark's Facebook "lonzotheez."

On 4-18-18 at about 1015 HRS Detective Cruz and I, along with CA DOJ Special Agents Brass and Dewar went to canvass the area of 29th Street and Ellwood for potential witnesses at addresses where no one had been home on previous canvasses. The contacts were recorded on my department issued body worn camera (X81142506) and booked into property under PR# 989927-028. Agent Brass and I responded to the following locations:

[redacted] Ellwood Ave. We received no answer at the door. I left a card requesting the residents contact me.

[redacted] Ellwood Ave. We contacted [redacted]. He told us that he was inside watching TV when they had heard the helicopter. [redacted] also stated that his car alarm had gone off 5-10 minutes prior to the shooting and his daughter had gone outside. He identified his daughter as [redacted] ([redacted]). [redacted] was not home. We also contacted [redacted]' granddaughter, [redacted] ([redacted]). She told us on the night of the incident she had heard the helicopter and looked outside and saw police. She didn't hear any gunshots.

[redacted] Ellwood Ave. We contacted the resident, [redacted] ([redacted]) [redacted]. She stated she and her boyfriend were not home at the time of the incident. There was a surveillance camera in the window pointing towards the street. [redacted] contacted her boyfriend, [redacted] ([redacted]), by telephone. He had been contacted by SPD media specialist Mike Baker the day prior. They had discovered that the oldest recorded video on his surveillance system was 4-2-18.

[redacted] Ellwood Ave. We contacted [redacted] who told us she didn't hear anything except the helicopter. [redacted] told us she had heard an announcement from the helicopter that they were looking for someone in a black sweatshirt and to stay inside. [redacted] told us her mother and husband were home at the time, but they only speak Spanish. She identified her husband as [redacted] and her mother as [redacted]. [redacted] told us her children (ages 2 and 9) were also home. She provided [redacted]'s phone number as [redacted] and [redacted]'s phone number as [redacted].

[redacted] Twilight Drive. We contacted [redacted] ([redacted]) who told us that she was home at the time of the incident. Her daughter, [redacted] was also home at the time. She didn't know her daughter's phone number. [redacted] told us that her son in law was home but asleep at the time. We left a card and requested that [redacted] call us.

At about 1115 HRS we contacted [redacted] and [redacted] at [redacted] 29th Street. We obtained a buccal swab DNA reference sample from each. Detective Cruz booked the samples into evidence under PR #990469 (7-8).

On 4-25-18 at about 1430 HRS Detective Cruz and I, along with DOJ Special Agent Brass conducted another canvass in the area of 29th/Ellwood Street to attempt to contact the residents who had not yet been contacted. I had activated my department body worn camera for this canvas but later discovered it did not record. We went to the following locations:

[redacted] 29th Street. We knocked on the front gate but received no answer. There were three large dogs in the front yard, so we were not able to approach the front door.

[redacted] 29th Street. We contacted [redacted] at the front door. [redacted] told us he did not hear or see anything. He told us that his parents also lived at the residence, but they did not hear or see anything either. He did not want to provide his parents contact information but stated his father's last name was [redacted]. [redacted] did not have any contact information for his next-door neighbors from [redacted] 29th Street. The contact with [redacted] was captured on Detectiv Cruz' BWC and was also audio recorded. The audio recording was booked under PR #989927-5.

[redacted] 29th Street. We did not receive any answer. I left my business card with a note requesting the residents call me.

[redacted] Twilight Drive. We had previously contacted [redacted] and she answered the door again. She told us her daughter, [redacted] was still unavailable. I left my card and asked [redacted] to have [redacted] call me.

[redacted] Ellwood Ave. We contacted [redacted] and obtained her statement. [redacted] did not see anyone in the street, but her car alarm had gone off prior to the incident. She did not know why her alarm had gone off (for further refer to her statement). The contact with [redacted] was audio recorded and booked under PR # 989927-5.

[redacted] Ellwood Ave. We contacted [redacted] who spoke only Spanish. Detective Cruz obtained her statement. The contact with [redacted] was audio recorded and booked under PR # 989927-5.

On 4-27-18 at about 0830 HRS Detective Cruz and I, along with SGT Shiraishi, SAS Dewar, and SA Brass met with Sacramento County Coroner Kim Gin, Supervising Deputy DA Rod Norgaard, Dr Tovar, and Dr Su (and others) at the Coroner's Office. Dr. Su presented his autopsy findings. The written report and power point presentation were provided to SGT Shiraishi. The report is included with the digital evidence in this case under PR # 1004681-001.

On 5-8-18 we received the Facebook records for Stephon Clark's account "lonzotheez". The records did not appear to contain anything to note and were booked into evidence under PR #990469-9.

On 5-8-18 I accessed Stephon Clark's incoming jail emails by using the Palantir system. The emails were printed, scanned as a PDF, copied to a CD, and booked into evidence as PR # 989927-4.Many of the emails were from [redacted] who appeared to be Clark's girlfriend, or ex-girlfriend.

On 6-4-18 I, along with Detective SGT Shiraishi, Detective Culp, and Detective Hunkapiller accompanied DOJ agents Brass and Dewar to attempt to contact [redacted] and [redacted] and [redacted] Brass and Dewar were to conduct interviews while we monitored via cell phone. [redacted] and [redacted] were not home but arrangements were made to conduct their interview on 6-5-18. [redacted] was contacted but would not speak without her attorney. An interview was agreed upon with her attorney to be held at a date in the near future.

On 6-5-18 I placed a call to [redacted] at [redacted]. The pending master file from the DMV of the gold Toyota Camry shows a release to [redacted] as of 10-26-17. [redacted] did not answer so I left her a message requesting she return my call. (Future attempts to this number indicated the phone was no longer in service).

On 6-5-18 DOJ Agents Brass and Dewar interviewed [redacted] and [redacted] at their residence. Detective Hunkapiller and I, along with SGT Shiraishi, monitored the interview via cell phone. These interviews were audio recorded by SA Brass. SA Brass later provided me a copy of the audio recordings that I later booked under PR # 989927-17.

On 6-27-18 Detective Cruz obtained a search warrant for documents and information contained within Stephon Clark's probation file.

On 6-28-18 at about 1445 HRS DOJ SAS Trevor Dewar and I traveled to the Sacramento County Probation Office and served the search warrant to Chief Deputy Kristina Thompson.

On 7-2-18 Chief Deputy Kristina Thompson provided Detective Cruz with the information required by the search warrant. Clark's probation file was booked into evidence under PR #990469-16.

On 7-10-18 Detective SGT Kinney received Stephon Clark's cell phone, and encrypted download from Cellebrite. I delivered the phone to SPD Digital Forensic Unit (DFU) Detective Shim for examination. DOJ Special Agent Supervisor (SAS) Mike Sparks and Special Agent (SA) Brian Cardwell responded to the SPD DFU to conduct an independent examination of the phone. SAS Sparks and SA Cardwell conducted an additional download of the phone itself, while Detective Shim used the download provided by Cellebrite to generate the content report from the phone. The redundant examination of the phone was done to ensure accuracy.

On 7-11-18 at about 1400 HRS I began examining the download from Stephon Clark's cell phone. The phone report contains regular information since December of 2017 through March 20, 2018. There are a few images and videos from 2012, 2013, and 2016, however the lack of any call logs,messages, or Internet usage suggests these items were saved to the phone from another device, or "backup". The phone appears to have been used with WIFI Internet access until 1-26-18, when over 900 contacts were added (at the same time-most likely downloaded as a backup from another device or "cloud"). The call log and text activity begin on 1-27-18. The relevant information from Clark's cell phone is detailed in a separate attachment titled, "Clark Phone Summary". The entire report on the content of the phone is also available for review and booked under SPD evidence tag # 989927 (items 8 and 9). The phone report details an unresolved dispute between Clark and [redacted] over the domestic incident on 3-16-18, as well as Internet searches on various suicide methods. Clark asked [redacted] if she wanted him to kill himself and threatened to take 10 yellow Xanax pills. Clark also sent [redacted] a photograph of the pills (see phone summary for further).

Also within Clark's phone report is a "note" that was entered into his phone on 3-17-18 at 1455 HRS. The note reads as follows:

My name is Stephon Clark. This email is regarding an incident that happened on the night of March 16th, 2018. I'm not one hundred percent sure there was a report made but that is what [redacted] *has told me and I'm really innocent and I want to defend myself without incarceration. I say this because* [redacted] *and I have had a domestic dispute before that resulted in a misdemeanor corporal injury* [redacted] *and we have a 'Peace Order' for that case. From my understanding, of she so much as calls from a verbal argument, I can be violated and in this case she admits to harming herself in the attachments which are text messages from her today, March 17th, 2018. She has told me that she told the police that I harmed her and I wasn't even present. I also have a group of friend that can verify my whereabouts.*

The dispute started because she didn't want to go out with me and my friends because my friend was bringing a couple of girls and [redacted] *had a problem with that so she said she didn't want to go anymore. I went out with my friends anyways and left while she was at home. She was upset that I was getting dressed and told me, "I'm going to wash your ass this time". I ignored it and left anyways. She called me and said I wasn't allowed back home and she was calling the cops so I stayed the night out. The next morning, I get all of these texts from her telling me that she called the cops and made a police report and all of this.*

Once again, I'm not sure if she really made this fake report but She's done this before so I'm pretty scared I'm going to be put in jail.

[redacted] *told me she made a police report against me claiming I hit her and stole from her, this is not the first time she's called the police on me and lied on me about multiple things.* [redacted] *has even been there on a couple offs incidents when she called the police on me lying all because I made a video of her and* [redacted] *told the cops the truth and they let me go minutes later. Im not sure if there was a report filed but that is what she's telling me so here is some proof of my innocence . I'm sure you guys have proof that this is her cell number in the messages in my attachments.*
Thank you so much.

Feel free to contact me in regards to this matter.

DOJ Special Agent Brain Cardwell examined the email content from Clark's phone. The email content was not easily readable in the report format that I had obtained from Detective Shim. The task was specifically left to Special Agent Cardwell as he had the equipment to view and search through the email for relevant information. Agent Cardwell advised the above note saved in Clark's phone was sent to the Sacramento County District Attorney's Office from email address [redacted] on 3-17-18. No other relevant email information was obtained from Clark's phone.

I examined Clark's cellular phone records around the time of the call for service from the domestic violence incident on 3-16-18 (2337 HRS-@15 minutes prior to 2352 CAD time) to ascertain whether he could not have been present (as alleged in the note above) for the domestic violence incident. The cell tower records show Clark was in the area of his apartment [redacted] between 2158 HRS until about 0030 HRS on 3-18-18, when his phone begins to travel south and into the downtown area of Sacramento. I also checked Clark's call activity around the time of the domestic violence incident. Clark's phone had no contact with [redacted]'s between 2025 HRS and 2351 HRS. Clark's claim he was not present for the domestic incident could not be verified.

On 8-3-18 a forensic biology report from the Sacramento County Crime Lab was released. Two swabs of blood (Lab #021-2 and 022-4) (SPD PR #989132 #2 and #4) taken from the Toyota Camry @ CA [redacted] (front passenger seat and front passenger door) contained Clark's DNA.

On 8-7-18 I inquired with Sacramento County Forensic Pathologist Dr Su, regarding the 82ng/mL (+- 16ng/mL) of Alprazolam (Xanax) in Clark's system at the time of his death. Since Clark had photographed (10) 2mg Alprazolam and researched and threatened suicide I was curious if Dr Su could provide information regarding the number of pills it would take to achieve the level detected within Clark's system. Dr Su indicated the following: " According to Disposition of toxic drugs and chemicals in man, Baselt, 10th edition page 74, repeated once daily for 6mg Alprazolam (three 2mg pills) can reach to 86 ng/ml by 4.4hrs. However, he could take more than 6mg and have the same blood level if the time period is either longer or shorter. Same thing as the alcohol metabolism in human. When we check a driver by DUI 0.20, we won't be able to know either "how long ago" or "how many drinks he took" unless he told us at least one item of those. In our case we don't know either one, therefore such calculation might not be helpful in our case because those will be based on speculation only."

On 8-9-18 I obtained a search warrant for subscriber records related to three phone numbers from Clark's cell phone report. These numbers were [redacted] ([redacted]), [redacted] (the person who may have supplied the Xanax), and [redacted] (possibly [redacted]). I served the warrant on Verizon, Sprint, and T-Mobile.

On 8-14-18 I received the subscriber records for [redacted] from Sprint. The subscriber was "[redacted]".

On 8-16-18 I received the subscriber records for [redacted] from Verizon. The subscriber was "[redacted] with no further information.

On 8-17-18 at about 1015 HRS Detective Higgins and I contacted [redacted] at [redacted] in the [redacted] of Sacramento. The contact was recorded on my department issued body camera and was later booked as PR # 989927-025. We obtained [redacted]'s statement regarding her Toyota Camry that had been parked just north of [redacted] 29th Street. In short, [redacted] was a student at job corps and had parked her vehicle on 29th street just prior to 2100 HRS. Her vehicle was locked and secure at that time and none of the windows were broken. She said she had seen her vehicle on the news and knew it had been towed. [redacted] said she did not know Stephon Clark, nor anyone else who lived nearby on 29th street. No one had permission to use her vehicle.

She told us she would normally park on 29th street because student vehicles were not allowed in the parking lot at job corps (3100 Meadowview Road). For further please refer to the supplement containing [redacted]'s statement.

On 8-21-18 at about 0930 HRS SA Terrance Brass and I contacted [redacted] at [redacted] in Sacramento. I had called earlier that morning and spoke with [redacted] at [redacted] to arrange the meeting. [redacted] met with us inside an unmarked SPD vehicle. The contact was audio recorded and also recorded on my body worn camera.

On 8-21-18 at about 1031 HRS I contacted [redacted] at [redacted]. She was now living in [redacted] so I interviewed her over the phone. The phone call was audio recorded.

On 8-21-18 at 1145 HRS I contacted [redacted] by telephone at [redacted]. [redacted] was working in San Diego and was not scheduled to be back to Sacramento until sometime in September. The conversation was audio recorded.

On 8-21-18 at 1430 HRS SA Brass, Detective Butler, and I contacted [redacted] at his residence. The contact was recorded on my issued body camera and later booked into evidence under PR #989927-27. [redacted] denied using the "[redacted]" number and supplying Clark with Xanax. He also admitted that he wouldn't tell us if he had. For further detail please refer to his statement.

The audio recordings of the interviews of [redacted], and [redacted], were booked into evidence under PR #989927-11.

On 10-3-18 I received a Blue Ray disc with the body camera image and audio files from DOJ SA Brass. The disc contained the video frames and audio combined and cropped. For details on the processing work completed on the video please refer to the DOJ's report. The Blue Ray disc was booked into evidence under PR # 989927-29.

On 10-9-18 I received the subscriber information from T-Mobile for [redacted]. The account for that number was active between 3-5-18 and 4-3-18. No subscriber information was listed (pre-paid phone). The records were booked under PR# 989927-30.

On 10-10-18 DOJ SA Brass and I conducted an interview with Officer Tayler at SPD headquarters interview room #6. The interview was video recorded and booked into evidence under PR# 989927-031.

On 10-15-18 DOJ SA Brass and I conducted interviews with Officer Tatenko, Officer Prahl, and Officer Trujillo at SPD headquarters interview room #6. The interview were video recorded and booked under PR# 989927, items 32, 33, and 34.

On 10-18-18 I emailed Officer Henderson instructions to complete a report supplement regarding whether or not she had conversed with either Officer Mercadal or Officer Robinet about the events leading to the shooting on 3-18-18. At 1752 HRS I received a call from Mr Olander, an attorney from the Mastagni Law firm. Mr

Olander was representing Officer Henderson and advised the report supplement requested would be completed on 10-19-18 by Officer Henderson under his advisement.

SPD Dispatcher: 911, what's the location of the emergency?
CHP Dispatcher: [redacted] 29th Street.

SPD Dispatcher: [redacted] 29th Street, thank you. Hi, what's going on there?

[redacted] Yeah, this guy's going down the street breaking windows of cars. He busted both my truck windows out, he busted these people's backyard right now uh across the street from my place. He busted two of my windows then he broke the car's window out across the street from me.

SPD Dispatcher: Okay.

[redacted] [inaudible] people's back yard right now.

SPD Dispatcher: Do you know which yard he's in, what the address is?

[redacted] No I can't see the address on the house the lights are off.

SPD Dispatcher: Which..

[redacted]The lights in the house are on [inaudible].

SPD Dispatcher: What..

[redacted] [Inaudible] The house he's in the backyard he's in [redacted] [inaudible].

SPD Dispatcher: [redacted] is the backyard he's in?

[redacted] Yep and 29th street.

SPD Dispatcher: [redacted] right?

[redacted] Yes ma'am.

SPD Dispatcher: Okay. What does he use to break the windows?

[redacted] I have no idea. I came out and I [inaudible] I heard the noise I came outside and he he was standing there right along the side of my truck and I grabbed my ball bat out of the [inaudible] you know what I mean? I didn't hit him or nothing like that. He's in the backyard right here right now.

SPD Dispatcher: Okay

[redacted] He's still back he's trying to get over the fence [Inaudible] he can't go anywhere else there's dogs that are all the way around him right now.

SPD Dispatcher: Okay

SPD Dispatcher: What is he? Black, white, Hispanic, Asian?

[redacted] Uh he had a hoody on I couldn't tell ma'am.

SPD Dispatcher: Uh what color hoody?

[redacted] It's black. It's a black hoody and it looks like there's some kinda pants on but they have had they have like white stripes or white dots on them or something like that. You know what I mean?

SPD Dispatcher: Okay

[redacted] It's it's not blue jeans or anything like that, they're like, I don't know. They got different colors on them.

SPD Dispatcher: Okay. Hang tight with me for one second here I'm just getting a..

[redacted] Not a problem.

[redacted] He's still in the backyard back there. I can hear him looking over the fence. Hear him giggling the fence, trying to get over it I think.

SPD Dispatcher: And this is the corner of 29th and Twilight right? Pretty close?

[redacted] Yes.

SPD Dispatcher: Okay

[redacted] It's close, its close.

SPD Dispatcher: A few houses down from that?

[redacted] Yes.

SPD Dispatcher: Okay. And what's your name sir?

[redacted] My name is [redacted].

SPD Dispatcher: Okay. Let's see. And your callback number is [redacted]?

[redacted] Yes ma'am.

SPD Dispatcher: Okay. Do you mind staying on the phone with me until we get officers there so that I can...

[redacted] That's fine.

SPD Dispatcher: you can let me know if you see him move? Okay.

[redacted] That's that's fine. That's fine.

SPD Dispatcher: And he's still in the backyard from what you can tell right now right?

[redacted] Oh yeah I can hear him back I can hear him back there I think. I think I hear him back there there's something back there. Dog's still barking back there in the backyard and..

SPD Dispatcher: Okay. And you saw him jump back there?

[redacted] Yes.

SPD Dispatcher: Okay.

[redacted] I chased him down there.

SPD Dispatcher: Got it, Okay.

[redacted] Yeah he's still back there.

SPD Dispatcher: Okay good, we have officers on the way right now so. Let's see where they're at then.

SPD Dispatcher: We have the helicopter coming out to see if they can see him.

[redacted] Okay. So he got two of my truck windows. Both my truck windows and the car across the street's window.

SPD Dispatcher: Okay.

[redacted] Ahh no the dog's getting quiet over here I hope he's still back there. No he's still barking you can hear him on the phone I'm sure.

SPD Dispatcher: Yeah.

[redacted] He's still barking back there so I think he's still there.

SPD Dispatcher: Okay. Could you tell me about how tall he was? What kind of body style he had?

[redacted] Probably about six foot tall, maybe six-three maybe at the most. You know and he's thin he's thin build.

SPD Dispatcher: A black hoody, any pattern or stripes or anything on the hoody?

[redacted] I didn't see anything on the hoody but he the pants have like design on them of some sort, you know what I mean. They're not pants like jeans they're like maybe parachute pants type things I guess I don't know what to call them.

SPD Dispatcher: What kind of design like stripes or polka dots or do you remember?

[redacted] Yeah it's just some kind of design no I didn't I didn't see too too too well cause I wasn't..he kinda pissed me off, I got more angry than anything else. I didn't know what pattern it was if it was

SPD Dispatcher: Yeah.

[redacted] White dots or white stripes

SPD Dispatcher: That's Okay.

[redacted] Something like that on him.

SPD Dispatcher: Yeah I'm sure. Once your adrenaline kicks in like that it's hard to

[redacted] Yeah. Yeah.

SPD Dispatcher: No problem.

[redacted] They must be all be on the other side of town huh all all the officers?

SPD Dispatcher: Yeah, we're actually pulling someone from another district to come, to come down. It's been

[redacted] A busy night huh?

SPD Dispatcher: A busy, busy weekend with St. Patrick's Day and everything. It's been nuts. But..

[redacted] Oh yeah it's uh..

SPD Dispatcher: That's why we're getting the helicopter out there a lot faster and they can kinda keep an eye out.

[redacted] Right

SPD Dispatcher: And if they see him then they can watch him you know until the officers get there.

[redacted] Right. Yeah, we don't need nobody running around here breaking windows of cars again.

SPD Dispatcher: No I agree I'm glad you saw it.

[redacted] Yeah.

SPD Dispatcher: Most of times it's once by the time you get out there they're already gone.

[redacted] Yeah, yeah I got a whole my whole truck I got a truck full of tools, I'm a mechanic so I got all my tools in my truck. So now I heard that, and I run out there and he's lucky to be alive if I would've gotten ahold of him (laughs).

SPD Dispatcher: Does he have..

[redacted] I wouldn't do..

SPD Dispatcher: Did he grab any any of the tools or anything that you know of?

[redacted] No. No.

SPD Dispatcher: Okay.

[redacted] He was, he was just, it was weird it was weird was he was just standing next to the truck, right there by my door when I walked out and said "excuse me, who are you? What are you doing?" You know and then and then..

SPD Dispatcher: He took off?

[redacted] I realized, oh, I looked and I saw my window was, was busted out. And uh, that's when you know that's when I went out and he took off.

SPD Dispatcher: Oh, gotcha okay. Right now we have two, um, ground units coming too that are on Meadowview right now so they're..

[redacted] Okay.

SPD Dispatcher: about a block and a half away.

[redacted] Yup, their dogs are going crazy in the backyard...

SPD Dispatcher: Okay

[redacted] so I think he's still there.

SPD Dispatcher: Good.

[redacted] I don't know who owns the car across the street from me. I'll have to wait until the police get here first [inaudible]

SPD Dispatcher: Yeah.

[redacted] [inaudible] I'll go knock on doors and find out who's car that is. I don't need no more broken windows in my truck.

SPD Dispatcher: Oh, definitely, especially if you have all your work tools in there.

[redacted] All my work tools are in there yep.

[redacted] Is this one of them? No that's not one of them.

SPD Dispatcher: They are...let's see.

[redacted] They're getting close huh?

SPD Dispatcher: Yeah, they're at uh, they're about to turn onto Meadow... or they're about to turn onto 29th from Meadowview like, right about now.

[redacted] Okay, I see the helicopter

SPD Dispatcher: Good, Okay. And then the two ground units are on their...

SPD Dispatcher: You want to wave them down?

[redacted] Yeah. Yep I'm flagging them down.

SPD Dispatcher: Perfect, Okay thank you.

[redacted] Yep, no problem.

SPD Dispatcher: Alright, bye-bye.

[redacted] [inaudible].

Document: **06 DETECTIVE SUPPLEMENT**
Author: **3635 - CRUZ, MICAELA 0278**
Subject: **DETECTIVE CRUZ #0278 OBSERVATIONS**
Related date/time: **Aug-09-2018 (Thu.) 1524**

I, Detective Cruz #0278, am currently assigned to the Sacramento Police Department's Major Crimes Division, Homicide Unit. My primary responsibilities are to investigate homicides, suspicious deaths, kidnappings, "in custody" deaths and officer involved shootings. In addition, my duties involve interviewing victims, witnesses, suspects, presenting cases to the Sacramento County District Attorney's Office for prosecution, as well as delivering courtroom testimony.

On 3/18/18 at approx. 2246 hrs I was contacted by Sergeant Shirashi of a homicide call out. Sergeant Shirashi advised an officer involved shooting had occurred and requested I respond to the scene located at 29th St/ Elwood Ave. I arrived on scene at approx. 2316 hrs. I attended a homicide briefing that was conducted by Lieutenant Hanson (#4084) at approx. 2351 hrs. Lieutenant Hanson stated during the briefing that officers had responded to the report of a subject breaking into vehicles. Once officers arrived on scene they were directed by STAR, the Sacramento Sheriff Department helicopter, to the suspects' location. STAR advised the suspect was running. STAR then broadcasted the officers had the suspect at gunpoint. STAR then broadcasted shots were fired. Lieutenant Hanson stated the suspect was deceased in the rear yard of [redacted] 29th St and at the time of the briefing, the identity of the suspect was unknown. Detective Griggs was assigned as case agent (see Detective Griggs obs for further details).

On 3/19/18 at approx. 0025 hrs I participated in a walk-through of the crime scene which was led by Sergeant Morris. Sergeant Morris pointed out three vehicles parked along the east and west curblines of 29th St that had visible damage. Sergeant Morris also indicated the residence ([redacted] 29th St) where the sliding glass door had been broken and the suspect was seen fleeing by STAR.

At approx. 0041 hrs I participated in a walk-through of the crime scene to include Sacramento Sheriff Deputy Gomez #151 (observer on STAR). Deputy Gomez indicated he had first observed a subject in the backyard of [redacted] 29th St but did not know if the subject was involved in the call for service until Deputy Gomez observed the subject break the sliding glass door with an unknown object. Deputy Gomez then indicated he observed the subject jump the fence southbound into the south yard ([redacted] 29th St) where he advised and directed officers to the yard where the subject was located.

At approx. 0110 hrs I participated in a public safety walk-through of the crime scene to include Officer Mercadal, Mastagni Attorney Zeb Davis, Sgt. Start, Sgt. Naff, Det. Koppinger and Supervising Forensic Investigator Schiele. Officer Mercadal identified his location, documented in CSI diagrams, at the time of the shooting. Officer Mercadal stated he was facing in a southwest direction and fired ten rounds. Officer Mercadal's position was marked by a blue colored cone.

At approx. 0205 hrs I contacted Officer Mercadal and his attorney, Zeb Davis, at 5770 Freeport Blvd, Police Headquarters. I provided Officer Mercadal the Officer Involved Shooting Video Admonishment. The video's listed in the admonishement were:

- Officer Mercadal Body Worn Camera, 3/19/18 at 04:18:55 hrs (UTC)
- Officer Robinet Boday Worn Camera, 3/19/18 at 04:18:39 hrs (UTC)

Officer Mercadal read and signed the admonishment. Officer Mercadal reviewed the video's listed above.

At approx. 0334 hrs I contacted Officer Mercadal and his attorney, Zeb Davis, inside of interview room #4. Officer Mercadal's interview was audio and video recorded (see statement). I later booked a copy of the interview as evidence.

On 3/26/18 at approx. 1028 hrs I attempted to contact V- [redacted] via telephone at the two phone numbers that were listed for him in this report. An automated message stated that both phone numbers were no longer in service.

I conducted a records check of the Toyota Camry, CA license plate [redacted] that had been damaged. The records check showed the registered owner to be [redacted] with a listed address of [redacted]. I conducted a records search of [redacted] in the Sacramento County Known Person Finder (KPF) and located [redacted] with a dob of [redacted]. Listed for [redacted] was the same residence on [redacted] as listed on the vehicle registration. An additional records check revealed a phone number for [redacted] At approx. 0955 hrs I attempted to contact [redacted] via telephone. There was no answer and an automated message stated the mailbox was full so I was unable to leave a voicemail.

At approx. 1050 hrs I contacted [redacted] via telephone. I asked [redacted] if he had an estimate cost for the repair of the sliding glass door that had been broken during this incident. [redacted] stated he had reported the damage to his insurance and an adjuster had come out on Saturday (3/24/18) but did not state what the cost of the repair was going to be. [redacted] also advised me that someone was going to come to his home today (3/26/18) at 1500 hrs to repair his broken sliding glass door. [redacted] also stated his son was helping him in arraigning the repair of the sliding glass door. I provided [redacted] with my contact information and asked that his so contact me.

At approx. 1055 hrs I again attempted to contact [redacted] via telephone. Someone had answered the call but then immediately hung up without saying anything.

At approx. 1109 hrs I attempted to contact W- [redacted] (girlfriend of V- [redacted] via telephone. W- [redacted] did not answer her phone so I left a voicemail message requesting she or V- [redacted] contact me regarding the two Ford Explorer's that had been damaged.

At approx. 1140 hrs I went on-line to www.safelite.com (Safelite Auto Glass) and obtained an estimated quote for the vehicle window repair of the 1999 Ford Explorer (VIN [redacted]), the 1993 Ford Explorer (CA license plate [redacted] and the 1997 Toyota Camry (CA license plate [redacted] In order to obtain a quote

you must enter the year of the vehicle, make, and model and where the window damage is located. The window damage to the 1999 Ford Explorer was sustained to the front driver door. The window damage to the 1993 Ford Explorer was sustained to the front driver door. The window damage sustained to the 1997 Toyota Camry was to front passenger door. By inputting this information, Safelite estimates the replacement cost of the 1999 Ford Explorer would be $229.95, the 1993 Ford Explorer would be $229.95 and the 1997 Toyota Camry would be $219.95 for a total of $679.85.

At approx. 1414 hrs I was contacted by [redacted]'s son, [redacted], via telephone. [redacted] advised me that someone was going to replace the glass only of the sliding glass door but did not know what the cost of the replacement was going to be. [redacted] stated I could contact him tomorrow, 3/27/18, and he could give me the cost after the glass was repaired.

On 3/27/18 at approx. 1459 hrs I was contacted by W-[redacted] who advised me she had received my voicemail message and provided me with a contact phone number for V-[redacted] At approx. 1501 hrs I contacted V-[redacted] via telephone. V-[redacted] stated the "brown" (dark colored) Ford Explorer belonged to him but he had not yet registered the vehicle in his name yet. V-[redacted] also stated the white Ford Explorer belonged to his friend [redacted], who is the registered owner of the vehicle, but [redacted] had lent him the vehicle some time ago. I asked V-[redacted] if the doors to both vehicles were locked. V-[redacted] stated the doors of the "brown" Ford Explorer were locked. V-[redacted] also stated the doors to the white Ford Explorer were not locked because the door keys to the vehicle had been lost so he did not have the ability to lock the doors of the white Ford Explorer. When asked what V-[redacted] thought it would cost to replace both driver door windows that had been broken on the Ford Explorers, V-[redacted] responded by stating he would replace the windows himself and would purchase them from Pick-N-Pull, if they had them in stock, for approximately fifty six (56) dollars each.

At approx. 1523 hrs I contacted [redacted] via telephone and asked about the cost to replace the glass of his father's sliding glass door. [redacted] stated a glass company had responded and charged $235.00 to replace the glass. [redacted] stated his father paid the $235.00 and was going to file a claim with his homeowners insurance so that he could be reimbursed for the cost.

On 3/29/18 at approx. 1550 hrs I contacted Officer Lundgren at 5770 Freeport Blvd. Officer Lundgren was accompanied by Sacramento Police Officer Association Representative Officer Paul Brown. I provided Officer Lundgren with the Officer Involved Shooting Video Admonishment. The video's listed in the admonishment were:

Officer Lundgren read and signed the admonishment. Officer Lundgren reviewed the video's listed above. At approx. 1615 hrs Department of Justice Special Agent Brass and I conducted and interview of Officer Lundgren inside of interview room #4. I clarified with him, the reason why he muted his body worn camera while he was speaking with Officer's Robinet and Mercadal. Also present during the interview of Officer Lundgren was Sacramento Police Officer Association representative Officer Paul Brown.

On 4/2/18 at approx. 1342 hrs I attempted to contact Attorney Christopher Miller via telephone to set up a date and time to speak with Probation Officer Raul Sharma. Miller did not answer at either of the phone numbers I had listed for him. I left a voicemail message at both phone numbers requesting Miller contact me and I provided my direct contact information.

On 4/3/18 at approx. 1352 hrs I attempted to contact Attorney Christopher Miller via telephone to set up a date and time to speak with Probation Officer Raul Sharma. Miller did not answer at either of the phone numbers I had listed for him. I left a voicemail message at both phone numbers requesting Miller contact me and I provided my direct contact information.

On 4/4/18 at approx. 0831 hrs I contacted a Sacramento Police Department Communications Supervisor to inquire if a 911 call was made from [redacted] which is the phone number [redacted] provided to Officer Maclean during their contact. The supervisor was unable to locate any 911 call from [redacted] on 3/18/18.

At approx. 0846 hrs I contacted Attorney Christopher Miller via telephone. Miller stated that he was told the Assistant County Counsel Attorney Rick Heyer was taking over for him. Miller also stated that Heyer would be contacting the City Attorney regarding a possible meeting with Probation Officer Raul Sharma.

At approx. 1654 hrs Sergeant Shirashi advised me an interview of Probation Officer Sharma would occur on 4/5/18 at 1400 hrs. Probation Officer Sharma would be accompanied by Attorney Christopher Miller and Assistant County Counsel Attorney Rick Heyer.

On 4/5/18 at approx. 0730 hrs I received the video footage collected from Sacramento Regional Transit from Sergeant Shirashi. I later booked the footage as evidence at 5770 Freeport Blvd.

At approx. 1400 hrs I contacted Probation Officer Raul Sharma, Attorney Christopher Miller and Assistant County Counsel Attorney Rick Heyer at 5770 Freeport Blvd. Department of Justice Special Agent Terrence Brass and I conducted an interview of Probation Officer Raul Sharma inside of interview room #4 (see statement). Also present in the interview room was Attorney Christopher Miller and Assistant County Counsel Attorney Rick Heyer. During the interview I was unable to ascertain any background information pertaining to Clark such as how long he had been supervised by Probation Officer Raul Sharma, when was the last time Clark had spoken with Probation Officer Raul Sharma or if Probation Officer Raul Sharma knew about the domestic violence report that had been taken on 3/16/18 involving Clark and [redacted]. When I asked a question pertaining to Clark and any information Probation Officer Raul Sharma may have had or known, Assistant County Counsel Attorney Rick Heyer would interject and state the information I was asking about was privileged information between Clark and his probation officer. When asked about the text messages Probation Officer Raul Sharma received from Clark, Probation Officer Raul Sharma stated he had seen the text messages sometime over the Saint Patrick's Day weekend but could not recall specifically when. Probation Officer Raul Sharma also stated he is not required to answer his work phone over the weekend which is why he did not respond to Clark's text messages nor did he return the missed call he had received from Clark. I showed

Probation Officer Raul Sharma, Attorney Christopher Miller and Assistant County Counsel Attorney Rick Heyer a photograph of a cell phone scene that contacted four text messages. The text messages shown in the photo appear to be from a "Stephen" based on the contact file information that had been previously entered. Above the name "Stephen" were the initials "SC". The first three text messages are incoming and state the following:

Saturday 1:37 pm (3/17/18)

There is a fourth text message which is outgoing. The fourth text message is an outgoing message stating the following:

Monday 7:07 am (3/19/18)

On 4/18/18 at approx. 1015 hrs, I assisted Department of Justice Special Agents Trevor Dewar and Terrence Brass in conducting a follow-up canvas in the area of 29th St/ Ellwood Ave. The results of the canvas are as follow:

[redacted] 29th St: There was no answer during our first attempt. A short time later I observed a vehicle arrive and contacted [redacted] (dob [redacted]). [redacted] advised he and his roommate, [redacted] had just rented the residence and were not yet living there when the officer involved shooting occurred. [redacted] also stated they had attempted to move in utilizing a U-Haul truck but were turned away by police due to the street being closed off. [redacted] was unable to contact [redacted] to advised him of our presence so we could speak with him. Attached to the camera was a light which appeared to follow my movement. Since I was unable to contact the resident I was unable to determine if the surveillance camera was functional.

I recorded the canvas using my body worn camera. I later placed the footage onto a CD and booked the CD as evidence at 5770 Freeport Blvd.

At approx. 1120 hrs Detective Griggs, Special Agent Trevor Dewar and Special Agent Terrence Brass contacted [redacted] and [redacted] at the trailer located on the property of [redacted] 29th St. I requested [redacted] and [redacted] provide buccal reference samples. I later placed the footage onto a CD and booked the CD as evidence at 5770 Freeport Blvd.

At approx. 1535 hrs, Special Agent Trevor Dewar advised me the resident of [redacted] 29th St had contacted him via telephone and advised him her son, [redacted], was the one who had spoken with officers on the night of 3/18/18 and also that he had just gotten home right before officers contacted him.

On 4/23/18 I submitted a search warrant to the Sacramento District Attorney office regarding Clark's probation file and the download of Probation Officer Sharma's work phone for review and approval.

On 4/24/18 at approx. 1650 hrs I was contacted by Deputy District Attorney Tan Thinh via telephone. Deputy District Attorney Tan Thinh advised me that the Sacramento County District Attorney office would not be approving the search warrant for the probation file belonging to Clark nor for the download of Probation Officer Sharma's work phone.

I contacted [redacted] who was Spanish speaking. I captured my interaction with [redacted] using by body worn camera. [redacted] stated on the night of the officer involved shooting she was home and heard the helicopter making announcements. Because she does not speak English and did not understand what was being said, she asked her daughter [redacted] what was being announced. [redacted] told her the announcements were saying to stay inside and not to go outside. [redacted] went and stood by the front door for approximately twenty minutes. [redacted] stated she did not hear any gun shots. While [redacted] stood by the front door [redacted] and her son-in-law [redacted] stayed in the living room. After about twenty minutes [redacted] exited her home and walked out to the front yard where she observed police vehicles and neighbors outside looking to see what happened. After being outside for approximately five minutes she was joined by [redacted].
On 4/26/18 I submitted Officer Howard's follow up interview statement to the report.

On 5/10/18 I received and later placed the Facebook account records for Clark onto a CD and booked the CD as evidence at HOJ.

On 6/27/18 I authored a search warrant for S-Clark's probation file records related to the domestic violence incidents that occurred on 3/1/18 and 3/16/18 between S-Clark and [redacted] The search warrant was reviewed and

authorized by Sacramento Superior Court Honorable Judge S. White. I provided Sgt. Shirashi with a signed copy of the search warrant so that it could be served upon the Sacramento County Probation Department.

On 7/2/18 I was contacted by Sacramento Probation who advised they would be providing me with a copy of S-Clark's probation file. I arraigned to meet Kristina Thompson, Chief Deputy of Sacramento County Probation Department, at 5770 Freeport Blvd. Thompson later arrived at 5770 Freeport Blvd where she provided me with a binder containing S-Clark's probation file. I signed a County of Sacramento Probation Department Discovery Record and Thompson provided me with a copy of the Discovery Record. Author: **689 - MORRIS, JOHN 3120**
Subject: **SGT JBMORRIS #3120**
Related date/time: **Mar-19-2018 (Mon.) 136**

On 03/19/18, at approx. 2110hrs I, Sgt Morris #3120 was working as a patrol sergeant in South Sacramento. I was in a marked patrol car and in uniform.

I was monitoring the radio channel when I heard a car clout in progress call come out at [redacted] 29th St. I was aware that Officers and air support (Star) were enroute to the call. I heard Star announce that the suspect on the call was trying to break a window at the back of a house and then the suspect was running. I heard on the radio that shots were fired. I was at 24th St and Fernandez Dr. I responded code 3 to the scene. My in car camera and body worn camera were activated.

I arrived on scene at approx. 2130hrs and went to the back yard of [redacted] 29th St. Officers Robinet, Mercadal, Tayler, and Trujillo were on scene. The Officers were near the n/w corner of [redacted] 29th St. The suspect was face down on the back patio west of [redacted] 29th St. His right hand was up by his face and his left hand was underneath his upper body. I walked towards the west fence line to get a better look at his hands. I could not see anything in his right hand. I did not see the suspect moving. I approached with the officers and I grabbed the suspects left hand and pulled it out from under his body. I did not see anything in his left hand. I placed his hand behind

him and the officers placed the suspect in handcuffs. The suspect was still not responding and he did not appear to be breathing. Officer Tayler began CPR on the suspect. I requested fire to respond code 3 to the scene. Officer Lundgren had arrived on scene. Officer Lundgren and Officer Trujillo helped Officer Tayler with CPR.

I obtained a brief public safety statement from Officer Robinet and then Officer Mercadal. I walked to the front of the house with Officer Robinet and Officer Mercadal and had Officer Tanteko stand by with Officer Robinet and Officer Prahl stand by with Officer Mercadal for peer support. I had both Officer Robinet and Mercadal turn off their body worn cameras at this time.

I assisted with getting additional officers to set up a crime scene and start a canvass.

On 03/18/2018 at approx. 2140 hours, I contacted [redacted] (DOB: [redacted]) in her mobile home that was parked on the lawn just North of [redacted] 29th St. I obtained the following preliminary statement in summary:

I was standing outside on the driveway of [redacted] 29th St. I was talking to [redacted] he is a friend of my boyfriend [redacted]. I don't know [redacted]'s last name. [redacted] was inside the trailer while I was talking to [redacted].

I saw this guy walk up from this street (Ellwood Ave) towards that gold colored car. I couldn't tell what race the guy was because he had a black hoodie on. The guy walked behind the gold car towards the passenger's side of the car. He looked into the car and I thought the car was his because it looked like he had lost his keys. He got angry and hit the window two times. After the window broke, he got in the car and sat down.

[redacted] left at that point and I went and stood by the back of the white Ford Explorer. I told [redacted] that someone smashed the window and he told me to get inside. I went in the trailer and a little while later, I heard someone walking around outside my trailer and I heard a noise that sounded like the guy was breaking windows on the gold colored car across the

street.

[redacted] and I stepped out to see what was going on and we saw the guy walking away from [redacted]'s burgundy Ford Explorer. [redacted] looked and the windows were broken out. [redacted] told me to go and get the gun to scare the guy away. We don't have a gun so [redacted] grabbed a bat.

The guy walked down to where the house is that has the lamp post in front of it ([redacted] 29th St.) He stood over there near the porch area and [redacted] said he jumped a fence. [redacted] called the cops and about ten minutes later, the cops showed up.

After about five to ten minutes later, the cops ran towards the house that has the mobile home in the driveway and shortly after that I heard about six to eight gun shots and then the helicopter told us to go inside.

We went inside and stayed there until the cops came and talked to us.

On 03/18/2018, at approximately 2140 hours, I, Officer Novak #840, contacted V-[redacted] near [redacted] 29th St regarding an Officer involved shooting. I obtained his preliminary statement while my body camera was recording, and he stated the following in summary:

I was awake inside my trailer parked on [redacted] 29th St with my wife [redacted] We both heard a noise across the street, it sounded like a baseball bat hitting a piece of plywood, like a deep sound. She looked out the window and said someone was breaking a window across the street.

I didn't look outside until I heard the sound again, this time it was much closer to our trailer. I walked outside and saw a man standing next to my white SUV on the street. He was standing right next to the driver's side door just staring at me.

I started asking him what was going on and if he broke the door window. He wasn't moving, just staring at me so I went back into the RV and yelled "get my gun" to [redacted] just pretending like I had one. I don't really have one I just wanted to scare the guy near my car.

I looked out again and he hadn't moved. I went into my RV again and got a baseball bat. I came outside and this time the guy started running northbound on 29th St.

The man ran around the corner of part of the house at [redacted] 29th St. [redacted] saw him near the corner of the garage and front walkway but I didn't. I was walking towards the house and I saw him run away from the corner towards the back fence located on the north side of the property.

The man jumped over the fence and the dogs in the back yard started going crazy. I saw the man next to the fence, peeping over every few seconds.

Finally I didn't see him any more and I stopped hearing noise near the fence but the dogs were still going crazy. The next thing I knew the police officers arrived. I pointed them to where he was and they went to look for him.

Just after that the officers started running southbound through the yards. They got to [redacted] 29th St and I heard one of them say "Stop, Police!" They jumped into the backyard and then about thirty seconds later I heard a lot of shouting. I couldn't hear what exactly they were saying but it was loud. Then I heard the gunshots right after that. It sounded like seven gunshots from one gun and 2-3 gunshots from the other one. Every gun is different and I can tell the differences thats how I knew.

After I heard the shots that's when everyone else got here.

The guy standing next to my car window and who ran was a male, I'm not sure what race he was because his hood was pulled tight around his face. He was wearing a black hoodie with red lettering on the back, black pants with a white stripe or lettering down the side. I'm not sure on anything else.

I never saw him holding anything and I have no idea how he broke the windows.

Upon my arrival to the scene, and after a walk through with detectives, I recommended utilizing the Sacramento County Crime Lab for trajectory documentation of the backyard scene. I spoke to Sergeant Start and requested to have the Crime Lab respond to specifically document the bullet holes/strikes, use trajectory rods or strings to show the direction and pathways of the fired rounds, and to use their Leica 3D scanner to provide a 3D scan of the backyard area. Sergeant Start was responsible for making contact and requesting the Crime Lab personnel.

PHOTOGRAPHS:

Forensic Investigator V. Bueno, working under my direction, took overall photographs of 29th Street in daylight conditions, and the backyards of various residences along 29th Street.

Forensic Investigator K. Gunther, working under direction of FTO M. Rostocil, took overall photographs of the backyard at [redacted] 29th Street and photographs of items of evidence.

Refer to their supplements for detailed information.

VIDEO:

Forensic Investigator K. Gunther, working under direction of FTO M. Rostocil, took video of the overall backyard and items of evidence at [redacted] 29th Street.

EVIDENCE SEARCH:

Additionally, detectives used metal detectors to search for items of evidence in backyards along 29th Street. Refer to their supplements for additional information.

MEASUREMENTS/DIAGRAMS:

Forensic Investigator K. Dubon collected measurements of the scene and all items of evidence.

Forensic Investigator V. Bueno, working under my direction, collected measurements of the bullet holes in the backyard.

Sacramento County Crime Lab documented the backyard of [redacted] 29th Street and all bullet holes using their Leica 3D scanner and will provide a Tru-View scan of the scene.

Refer to their supplements for detailed information.

EVIDENCE COLLECTION:

Forensic Investigators K. Dubon and K. Gunther, working under direction of FTO M. Rostocil, collected items of evidence. For a detailed evidence list, refer to their reports.

On March 21, 2018, at 0801 hours, I checked out the following items from the Property Section via the Officer's Counter:

PR 988911
Item #1: One set of iron window bars, approximately 48" high and 52" wide, with nine (9) pickets and center scrollwork; rusted, with black and reddish-pink paint in spots

PR 988981
Item #32: One (1) Gutter downspout, approximately 40" long with a 6" long bend; 3 inches wide; with crumbling white paint; semi-rusted

While treating the items as DNA-sensitive, I processed the above items for possible latent prints using the following methods:

Visual examination: Negative

Cyanoacrylate fuming: Positive
Latent #1 was labeled and photographed on the curve of one of the bar supports on item #1
Black Powder dusting: Negative
Latent #1 was lifted and placed onto a latent lift card.

Note: I inadvertently labeled latent #1 as coming from PR 988981-32. It should have been noted as coming from 988911-1.

I booked the latent photographs and lift card into the Forensic Section under PR 989164.

On March 21, 2018 at 1620 hours, I returned the above items to the Property Section via the Officer's Counter.

I, Valerie Brown #6464, am a Student Trainee, employed with the Sacramento Police Department. I'm currently assigned to the Digital Forensics Unit (DFU), in the Office of Investigations.

On 03/20/18, at approximately 1146 hrs, I was contacted by Sergeant Shiraishi #3093 who requested I respond to [redacted] 29th St, in Sacramento, to collect (download) Close Circuit Television (CCTV) video footage and images, and audio data from the CCTV system's hard drive (HDD) for an Officer Involved Shooting investigation, report number 18-82449. The requested time frame of interest was from approximately 03/18/18 -1900 hrs, to 2200 hrs, Sacramento Police Department 'Computer Aided Dispatch' time (SPD CAD time).

At approximately 1256 hrs, I arrived at [redacted] 29th St. Upon arrival I obtained consent and was granted access the CCTV system from [redacted]

I authenticated the CCTV system date and time stamp by comparing the difference between the current CCTV date and time stamp displayed on the CCTV monitor with the Sacramento Police Department, Computer Aided Dispatch time (SPD CAD time). SPD CAD time was documented as 03/20/18 13:18:00 hours, while at the same time, the CCTV date and time stamp was displaying 03/20/18 13:18:03 hours. The authenticated CCTV date and time stamp off set is approximately + 00:03 seconds difference from SPD CAD time.

The camera system consists of four (4) cameras out of a total capacity of nine (9) cameras. The DVR's continuous record' mode was set to 'Disabled'. There is no audio of any kind recorded by the CCTV system.

Relevant camera angles include: 1, 2, and 4

I downloaded one hundred ten (110) native / proprietary data files with their viewer application from the native DVR to a 32 GB USB 2.0 flash drive, establishing evidence specimen #01. I departed the location at approximately 1409 hrs. At approximately 1430 hrs, I secured and stored evidence specimen #01 in the Video Lab Locker (SPD VLL).

Back at the SPD Forensic Multimedia Lab (SPD FML), On 03/22/18 at approximately 1041 hrs I calculated a hash value and copied verbatim CCTV data from the 32 GB USB 2.0 flash drive to 2 of 2 DVD-R's, establishing master evidence specimen # 01. I compared the specimen's calculated hash values and checked the copied data for consistency with file size, content and footage accuracy. Both specimens are confirmed to be identical. I utilized the hash calculation software ExactFile, by Studylab Software LLC, 2009, version 1.0.0.15 Beta to calculate hash values.

At approximately 1129 hrs, I calculated a hash value and copied verbatim CCTV data from the 32 GB USB 2.0 flash drive to the Forensic Multimedia Depository Archive (FMDA) digital case file, establishing a working copy of specimen # 01 (WC 01). I compared the specimen's calculated hash values and checked the copied data for consistency with file size, content and footage accuracy. Both specimens are confirmed to be identical. I utilized the hash calculation software ForensicCopy, Sanderson Forensics Ltd. 2007, version 1.0.0 (c) to calculate hash values.

At approximately 1151 hrs, I provided a digital verbatim copy of the CCTV data from evidence specimen # 01, for the lead investigators. I checked the copied data for consistency with file size, content, and footage accuracy. Both specimens appear to be identical. I copied the files via Windows Explorer Windows 7 Professional, Service Pack 1.

At approximately 1201 hrs, I booked master evidence specimen 01 into the Versadex evidence management system, establishing SPD PR #989265-1, and deposited the DVD-R's into a sealed SPD evidence envelope intact, and in original condition. I deposited the evidence envelope into the Hall Of Justice, Property Section Drop Box (P-HOJ), in the Public Safety Center - Hall Of Justice, at 5770 Freeport Blvd., suite 100.

I deleted the data from the 32 GB USB 2.0 flash drive. Sergeant Shiraishi #3093 was made aware of my results.

On 3/18/18, I (Sergeant Park #3139) was working in full police uniform as the late watch patrol supervisor for the Sacramento Police Department's Districts 4 and 5. At approximately 2154 hours, I responded to the area of 29th St and Meadowview Rd to see if I could assist on the officer involved shooting that had occurred near [redacted] 29th St. Once I arrived I checked on the welfare of the officers who were already on scene and then checked in with 1SM5 (Sergeant Thompson), who was assigned on this incident, to see if he needed any additional patrol resources. I was wearing my body worn camera, which was activated automatically. Since I was not involved directly with the investigation of this incident I placed the camera on mute then deactivated it all together once I realized that my assistance was not needed.

While I was speaking to other sergeants on scene, Lieutenant Stinson tasked me with providing transportation to Officers Robinet and Tatenko to the Joseph E Rooney Police Facility. I found Officers Robinet and Tatenko on the northern end of the taped off perimeter on 29th Street and gave them a ride back to the station in my patrol vehicle.

No further action was taken on this incident.

Once on scene, crime scene tape was already set up, I saw fire medics leaving and I did not intend on interviewing or investigating so my body camera was not activated. I spoke with officers regarding setting up an inner perimeter when I saw cars with broken windows on 29th St.

I walked along the front side yard of the house where the shooting occurred. I saw an officer in the backyard. I did not enter the backyard. I asked him if there was a body I the backyard and he said yes. I confirmed he knew not to let anyone in the backyard at all.

I spoke with other Sergeants and Lieutenants to see if they needed

03/18/2018 I was a patrol sergeant assigned to the Sacramento Police Dept. South command, working swingshift hours. I was in uniform, wearing my body worn camera. I had been relieved by the graveyard sergeant and was inside the Joseph E. Rooney Police Facility when I heard on the radio an officer involved shooting call in the adjoining sector. I located an unoccupied patrol car and responded to the scene. I arrived on 29th St. north of the outer crime scene tape at approx. 2143 hours. My body worn camera was activated.

I walked through the inner crime scene, watching where I was stepping due to not having any facts on this incident. Outside the south side of the crime scene tape I spoke to the graveyard sergeants who had arrived on scene. No immediate assistance/support was needed from us at that time.

It was eventually requested of me to transport Officers Lundgren, Taylor and Trujillo to the Joseph E. Rooney Police Facility. I then used Sgt. Thompsons patrol vehicle and transported the Officers to the station.

Once the Officers were dropped off at the station I returned to the scene. No other assistance was needed from me. I returned to my patrol car on the north side of the outer crime scene tape, carefully walking along the east

I am Mike Baker (VH-1), Media Production Specialist II, badge number 6511, employed with the Sacramento Police Department. I'm permanently assigned to the Digital Forensics Unit (DFU), Forensic Video, in the Office of Investigations.

On 3/28/2018, at approximately 09:31 hrs, I was contacted by Sgt. Jeff Shiraishi, # 3511 who requested I respond to [redacted], [redacted] 24th Street in Sacramento, to collect (download) Close Circuit Television (CCTV) video footage and images, and audio data from the CCTV system's hard drive (HDD) for an OIS investigation, report number 18-82449. The requested time frame of interest was from approximately 3/18/2018 - 12:00 hrs, to 3/18/2018 - 21:30 hrs, Sacramento Police Department 'Computer Aided Dispatch' time (SPD CAD time).

At approximately 18:05 hrs, I arrived at the residence of the manager / owner of [redacted], [redacted] Upon arrival, I obtained consent, and was granted access to the CCTV system over IP address on his personal laptop, where he had software installed to access his store CCTV system live.

I authenticated the CCTV system date and time stamp by comparing the difference between the current CCTV date and time stamp displayed on the CCTV monitor with the Sacramento Police Department, Computer Aided Dispatch time (SPD CAD time). SPD CAD time was documented as 3/28/2018 - 18:23 hours, while at the same time, the CCTV date and time stamp was displaying 3/28/2018 - 18:22:56 hours. The authenticated CCTV date and time stamp off set is approximately - :04 seconds difference from SPD CAD time.

The camera system consists of thirteen (13) cameras out of a total capacity of sixteen (16) cameras. Both the DVR's 'motion sensor' and 'continuous record' modes were set to 'Enabled'. No microphones or audio of any kind was recorded on the CCTV system.

Follow Up Report # SA 67 - NOT COMPLETED

My attempts to downloaded CCTV data yielded negative results (the relevant video was 'written-over'). The relevant video's requested date was for 3/18/2018, while the oldest CCTV video recorded, played back video, displayed by the DVR was approximately 3/18/18 - 21:59:55 hrs., that's a 'Write-Over Rate' (WOR) of approximately 10 days.

Both Sgt. Shiraishi and Det. Jeff Griggs, # 0670 were made aware of my lack of results.

Subject: **OFC. HENDERSON #978**
Related date/time: **Oct-19-2018 (Fri.) 1514**

This report is to supplement my previous 03/19/2018 casualty report.

On 03/18/2018 at approximately 2137 hours, I, Ofc. Henderson #978 (1C64) arrived on scene near Elwood and 29th Street to provide support to on scene units as needed. In addition to assisting with setting up a perimeter as detailed in my previous report, I also inquired regarding the welfare of officers on scene.

While on scene, Officer Mercadal #752 and Officer Robinet #520 did not describe to me the events that occurred that lead to the shooting, nor did I hear Ofc. Mercadal or Ofc. Robinet describe to anyone else the events that occurred that led to the shooting.
